ANZ Biopharma Partnership Landscape 2027

Partnerships Are Driving the Next Phase of ANZ Biopharma Growth

The biologics industry is entering a more **partnership-driven era**, with collaboration becoming essential to accelerate innovation, scale manufacturing capabilities, and bring complex therapies to patients faster.

As therapies become more complex and development timelines shorten, companies are partnering across research, manufacturing, commercialisation, and technology to accelerate innovation and improve patient access.

Australia and New Zealand are emerging as attractive collaboration hubs, and recent partnerships — from monoclonal antibody discovery and advanced therapies to manufacturing and commercialisation — demonstrate how collaboration is shaping the next phase of growth across the ANZ biologics landscape.

Why Australia & New Zealand

- ✓ World-class research institutions
- ✓ Expanding biologics capabilities
- ✓ Clinical trial expertise
- ✓ Supportive regulatory frameworks
- ✓ A growing biotechnology ecosystem

HOW TO READ THIS REPORT — COLLABORATIONS GROUPED BY MODALITY

Antibody Therapeutics

mAbs, PD-L1 & next-gen antibodies

Cell Therapy

CAR-T & advanced cell therapies

Specialty Biopharma

Specialty & injectable medicines

Where ANZ Is Partnering Now

Antibody Therapeutics | 4 partnerships

Monoclonal Antibody · PD-L1

Arrotex

**CStone
Pharmaceuticals**

ANZ ORGANISATION

PARTNER

PARTNERSHIP FOCUS

Commercialisation of sugemalimab across Australia and New Zealand.

Monoclonal Antibodies

Monash University

argenx

ANZ ORGANISATION

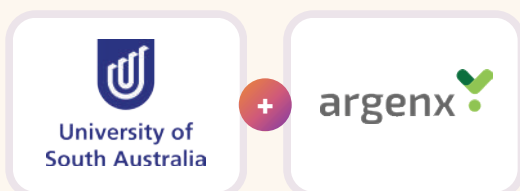

PARTNER

PARTNERSHIP FOCUS

Research collaboration to accelerate antibody discovery and innovation.

Antibody Therapeutics

**University of South
Australia**

argenx

ANZ ORGANISATION

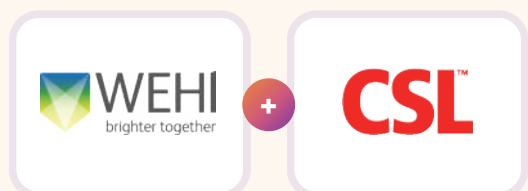

PARTNER

PARTNERSHIP FOCUS

Joint research programme focused on next-generation antibody therapies.

Antibody Therapeutics

WEHI

CSL

ANZ ORGANISATION

PARTNER

PARTNERSHIP FOCUS

Translational partnership bridging biologics research and commercial development.

Cell Therapy | 1 partnership

BioOra

ANZ ORGANISATION

Wellington Zhaotai Therapies

PARTNER

CAR-T Cell Therapy

PARTNERSHIP FOCUS

Collaboration to advance cell therapy research and development, bringing third-generation CAR-T innovation from the lab toward global patients.

Specialty Biopharma | 2 partnerships

Specialty Biopharma

Arrotex

ANZ ORGANISATION

LENZ Therapeutics

PARTNER

PARTNERSHIP FOCUS

Exclusive commercial partnership for the ANZ market.

Specialty & Injectable Medicines

Algorae Pharmaceuticals

ANZ ORGANISATION

Zydus Lifesciences

PARTNER

PARTNERSHIP FOCUS

Exclusive licensing and commercialisation agreement covering Australia and New Zealand.

THE BIGGER PICTURE

Across these seven collaborations, ANZ organisations are partnering with companies from **China, the United States, Belgium, and India** — alongside domestic Australian pairings — a clear signal of the region's growing role as a global biologics collaboration hub.

Looking Ahead: Where Will Partnerships Grow Next by 2030?

The latest collaborations highlight a clear shift toward **ecosystem-driven innovation** — connecting scientific discovery, manufacturing capability, regulatory expertise, and commercial execution. As investment in large molecules, advanced therapies, and manufacturing capabilities continues to grow, strategic partnerships will remain one of the strongest drivers of the ANZ biologics industry's future.

Monoclonal Antibodies

Discovery, translational research, and manufacturing scale-up.

ADCs & Bispecific Antibodies

Early R&D collaborations and manufacturing partnerships.

Cell & Gene Therapy

Clinical development and commercial manufacturing.

Biologics Manufacturing

CDMO partnerships and facility expansion.

AI & Digital Bioprocessing

Data-driven technology collaborations to optimise development and manufacturing.

Commercialisation

Regional licensing, market access, and go-to-market partnerships.

CONTINUE THE CONVERSATION

Join the people shaping the future of ANZ biologics

The partnerships featured in this report highlight the growing opportunities across the ANZ biologics ecosystem. Continue the discussion at the **ANZ Biologics Festival 2027**, where biopharma leaders, researchers, manufacturers, regulators, investors, and solution providers come together to build strategic partnerships and explore the future of biologics.

EDITION

5th Annual

DATES

24–25 Feb 2027

LOCATION

**Melbourne,
