

Clinical Trial Logistics 2.0

Speed, Visibility & Control
Across the Investigational
Supply Chain

ABOUT THIS REPORT

Asia is now one of the world's most attractive destinations for clinical research.

Clinical trial logistics is becoming an increasingly important component of Asia's biopharma supply chain landscape. As clinical development expands across multiple markets, pharmaceutical and biotechnology companies are investing in more resilient cold chains, smarter supply planning, temperature-controlled distribution, and greater supply chain visibility.

Moving biopharmaceutical products across Asia involves far more than transportation. Companies must coordinate **supply planning, clinical supply, packaging, depot management, temperature-controlled logistics, distribution and real-time visibility** across multiple markets, while maintaining supply continuity at every stage.

The companies featured in this report are among the region's leading pharmaceutical and biotechnology organizations investing in clinical development and advancing clinical trial supply chains across Asia. At the **11th Annual BioSupply Chain Asia 2027**, senior clinical supply, logistics, manufacturing and operations leaders will share how they are building faster, smarter and more resilient clinical trial supply networks.

THEMES RUNNING THROUGH THE REPORT

→ Clinical Supply Planning

→ Cold Chain Logistics

→ Depot Management

→ Temperature-Controlled Distribution

→ Supply Chain Visibility

→ Multi-Market Compliance

INSIDE THIS REPORT

Leaders across 8 Asian markets

Companies Shaping Asia's Clinical Trial Supply Chains

 **Japan** 10 COMPANIES

NO.	LOGO	COMPANY	CLINICAL SUPPLY CHAIN STRENGTH
01		Takeda	Global clinical supply planning and decentralized trial logistics
02		Astellas Pharma	Multi-country clinical supply distribution across Asia
03		Daiichi Sankyo	Oncology clinical supply chain and temperature-controlled logistics
04		Chugai Pharmaceutical	Biologics clinical supply and cold chain management
05		Eisai	Global investigational product distribution and trial logistics
06		Shionogi	Regional clinical supply planning and site distribution
07		Otsuka Pharmaceutical	Global clinical supply operations and demand planning
08		Kyowa Kirin	Biologics clinical logistics and inventory management
09		Mitsubishi Tanabe Pharma	Multi-country clinical supply coordination
10		Sumitomo Pharma	Clinical trial supply planning and distribution

Companies Shaping Asia's Clinical Trial Supply Chains

South Korea
10 COMPANIES

NO.	LOGO	COMPANY	CLINICAL SUPPLY CHAIN STRENGTH
11		Celltrion	Global biosimilar clinical supply management
12		Samsung Bioepis	International clinical supply coordination for biosimilars
13		SK bioscience	Vaccine clinical logistics and cold chain distribution
14		GC Biopharma	Temperature-controlled clinical supply for vaccines and biologics
15		Hanmi Pharmaceutical	Multi-regional clinical supply operations
16		Daewoong Pharmaceutical	Clinical trial logistics across Asia-Pacific
17		Yuhan Corporation	Investigational product planning and distribution
18		HK inno.N	Regional clinical supply management
19		ABL Bio	Clinical material planning for biologics studies
20		Genexine	Clinical supply coordination for biologics programmes

Companies Shaping Asia's Clinical Trial Supply Chains

India

10 COMPANIES

NO.	LOGO	COMPANY	CLINICAL SUPPLY CHAIN STRENGTH
21		Biocon Biologics	Global biosimilar clinical supply network
22		Bharat Biotech	Vaccine clinical supply and cold chain distribution
23		Biological E.	Clinical vaccine logistics and depot management
24		Serum Institute of India	Large-scale vaccine clinical supply operations
25		Dr. Reddy's Laboratories	Global clinical supply planning and distribution
26		Sun Pharmaceutical	Multi-country clinical logistics and site supply
27		Cipla	Regional clinical distribution and inventory management
28		Zydus Lifesciences	Clinical supply planning for biologics and vaccines
29		Lupin	Clinical trial logistics and forecasting
30		Intas Pharmaceuticals	Biosimilar clinical supply operations

THE LANDSCAPE

Companies Shaping Asia's Clinical Trial Supply Chains

Indonesia

4 COMPANIES

NO.	LOGO	COMPANY	CLINICAL SUPPLY CHAIN STRENGTH
31		Bio Farma	Vaccine clinical distribution and cold chain management
32		Kalbe Farma	Regional clinical supply and trial support
33		Etana Biotechnologies Indonesia	Clinical biologics manufacturing and supply
34		Kimia Farma	Clinical trial material distribution

Thailand

2 COMPANIES

NO.	LOGO	COMPANY	CLINICAL SUPPLY CHAIN STRENGTH
35		Siam Bioscience	Biologics clinical manufacturing and supply
36		Government Pharmaceutical Organization	Public health clinical supply and vaccine logistics

Malaysia

3 COMPANIES

NO.	LOGO	COMPANY	CLINICAL SUPPLY CHAIN STRENGTH
37		Duopharma Biotech	Clinical supply support for specialty medicines
38		Pharmaniaga	Clinical distribution and cold chain operations
39		AJ Biologics	Clinical manufacturing support and biologics supply

THE LANDSCAPE

Companies Shaping Asia's Clinical Trial Supply Chains

Taiwan

5 COMPANIES

NO.	LOGO	COMPANY	CLINICAL SUPPLY CHAIN STRENGTH
40		Adimmune Corporation	Vaccine clinical cold chain logistics
41		United BioPharma	Biologics clinical manufacturing and supply
42		PharmaEssentia	Global clinical supply for specialty biologics
43		TaiMed Biologics	Clinical biologics distribution and trial support
44		Medigen Vaccine Biologics	Vaccine clinical logistics and supply planning

China

6 COMPANIES

NO.	LOGO	COMPANY	CLINICAL SUPPLY CHAIN STRENGTH
45		Innovent Biologics	Global clinical supply operations for biologics
46		Henlius	Biosimilar clinical supply and distribution
47		Akeso	Clinical supply planning for immunotherapy programmes
48		BeiGene (BeOne Medicines)	Global oncology clinical supply chain
49		Zai Lab	Multi-regional clinical trial logistics
50		CanSinoBIO	Vaccine clinical supply and cold chain management

BE PART OF THE CONVERSATION

Join Asia's **#1 conference** for biologics supply chain & cold chain excellence.

The region's top biopharma logistics leaders converge to drive innovation and resilience across clinical trial supply, cold chain and distribution operations, spotlighting next-generation strategies for moving biologics, vaccines and cell & gene therapies across Asia.
