

	Provider/Client Credit Card on File				
	Tier 1 <i>Volume: 1-50/mo</i>	Tier 2 <i>Volume: 51-75/mo</i>	Tier 3 <i>Volume: 76-100/mo</i>	Tier 4 <i>Volume: 100+</i>	Patient Self-Pay
Nutritional					
MicroNutrient Test (MNT)	\$529	\$509	\$499	\$489	\$579
Cardiovascular					
Lipoprotein Particle Profile™ (LPP®)	\$339	\$329	\$319	\$309	\$389
Genomic					
Telomere	\$429	\$419	\$409	\$399	\$479
MTHFR Genotyping	\$269	\$259	\$249	\$239	\$319
Wellness Panels				Provider	Patient Self-Pay
Immune Health Optimization	Identify specific evidence-based Micronutrient deficiencies to improve cell-mediated immune response that directly compromise T-cell function.			\$509	\$559
Mental Health Support	Identify specific evidence-based Micronutrients deficiencies to enhance the body's chemistry in order to improve its resilience against depression and anxiety.			\$509	\$559
Energy Optimization	Identify specific evidence-based Micronutrient deficiencies that are essential for maintaining energy levels because they are required by every cell to convert Macronutrients into ATP.			\$509	\$559
Weight Optimization	Identify specific evidence-based Micronutrient deficiencies that can enhance metabolism, making the cells more efficient at burning fat for energy.			\$509	\$559
AgeNexus: Biological Age Management	Identify specific evidence-based Micronutrient deficiencies that influence Biological Age and impact Telomere health to slow aging by optimizing interactions of genes and nutrition.			\$799	\$849
CardiacNexus: CV Risk Management	Identify MTHFR gene variants that could cause Hyperhomocystemia and analyze the size and type of Lipoprotein Particles to monitor cardiovascular risk.			\$459	\$509
Cardi-A1c: Monitor GLP-1 Progress	Combination of our advanced Lipoprotein Particle Profile (LPP) with the HbA1c test for an in-depth cardiovascular risk evaluation and long-term blood sugar monitoring.			\$389	\$439
Baseline Nexus	Comprehensive panel to establish initial values by identifying MicroNutrient deficiencies, dangerous Lipoprotein Particle levels, presence of MTHFR genetic variants & Telomere length.			\$1,079	\$1,129

Note:

- All of the above tests currently are not available in the state of New York.
- SpectraCell Laboratories does not accept Private or Federal Health Insurance plans (Medicare, Medicare Advantage, Medicaid, or other commercial plans).
- **Appropriate payment must accompany patient samples or they will not be processed until payment is received.**
 - Missing payment must be received within 48 hours of sample collection or the sample will have to be discarded.
- All prices include the cost of round-trip overnight shipping.
- Pricing subject to change without notice.

Payment Options

Our billing program accepts the following payment options:

- **Patient Self-Pay (Complete Payment Information Section on Requisition)**
- **Provider/Client Credit Card on File**
 - The client is responsible for all credit card updates and/or changes to ensure there are no issues with processing the payment.
 - As a courtesy, SpectraCell will notify clients when their credit card on file is approaching expiration.

For questions, please call Client Services at 800-227-LABS(5227), or email support@spectracell.com.
