

# The Value of SpectraCell

SpectraCell's MicroNutrient Test includes every nutrient listed below. *[Consider the cost of ordering nutrients separately.]*

Vitamins		Typical Price <sup>1</sup>	Antioxidants		Typical Price <sup>1</sup>
Vitamin A (retinol)		\$ 69	Coenzyme Q10		\$ 68
Vitamin B1 (thiamine)		\$ 69	Cysteine		*
Vitamin B2 (riboflavin)		\$ 76	Glutathione		\$ 189
Vitamin B3 (niacin)		\$ 88	Lipoic Acid		*
Vitamin B5 (pantothenate)		\$ 83	<b>Amino Acids</b>		
Vitamin B6 (pyridoxine)		\$ 82	Asparagine		*
Vitamin B7 (biotin)		\$ 279	Carnitine		\$ 68
Vitamin B7 (folate)		\$ 44	Glutamine		*
Vitamin B12 (cobalamin)		\$ 34	Serine		*
Vitamin C (ascorbate)		\$ 68	<b>Metabolites and Fatty Acids</b>		
Vitamin D (cholecalciferol)		\$ 49	Inositol		*
Vitamin E (a-tocopherol)		\$ 83	Choline		*
Vitamin K2		\$ 99	Oleic Acid		*
<b>Minerals</b>			<b>Included Metabolic Function Tests</b>		
Calcium		\$ 25	Spectrox <sup>®</sup>	Only available through SpectraCell	
Chromium		\$ 99	Immunidex		
Copper		\$ 59	Glucose-Insulin Interaction		
Magnesium		\$ 31	Fructose Sensitivity		
Manganese		\$ 119			
Selenium		\$ 59			
Zinc		\$ 49			

The cost is over **\$1,889** for 23 analytes if ordered separately from a commodity lab. SpectraCell's MicroNutrient Test includes **ALL** 35 analytes above for much less, retailing at \$549 nearly 75% off.

Plus - MicroNutrient Test is **MORE ACCURATE** because it uses a much more advanced technology to assess nutrient status which is not available to other laboratories.

<sup>1</sup> The prices in this table are actually considerably lower than the price offered by national laboratories such as Labcorp or Quest. This table reflects the lowest available price for direct to consumer testing. Prices are often much higher than listed here. Source: www.findlabtest.com as of April 2025.

\*These nutrients are rarely offered by labs, even in hospitals. It is difficult to get these nutrients tested by conventional methods.
