

# Preformed Gland Packing Rings

## Technical Data Sheet

### Product Description

Accurately cut and **\*\*Preformed Gland Packing Rings \*\***allow for easy and time-saving installation, as well as the consistency of sealing performance.

We can manufacture preformed rings to your specific dimensional and application requirements. Minimum order quantities and mould fees apply.

The 45° scarf cut and preformed shape of each ring improves sealing compression and performance, without the need to cut or prepare each ring yourself.

### Operating Limits

### Gland Packing Replacement Range

### Why Choose the Vulcan Seals Preformed Gland Packing Rings?

- Easy installation and saves time
- Improved sealing performance and consistency
- Custom rings made to specific requirements
- Minimal material wastage
- Convenient packaging specifying size and quantity

### Suitable Applications

Convenient packaging with size and quantity specified for easy stock management.
