EDUCATION

BDes Interaction Design

University of Washington, Seattle

Class of 2020

EXPERIENCE

Product Designer

Microsoft, CoreAI team

July 2023 – Present | Redmond

Design lead on API Center, expanding API cataloging to AI assets. Led design of the open-source developer portal and Azure Portal registration experience, implementing UI directly into the product codebase. Previously designed Azure portal experiences for Container Apps, Static Web Apps, and API Management.

Microsoft, MakeCode team

July 2022 – July 2023 | Redmond

Designed websites, game assets, and physical computing experiences for the MakeCode team, empowering middle school students to learn computer science fundamentals.

Microsoft, Digital Studio team

August 2020 – July 2022 | Redmond

Designed the Mentoring Teams app experience, allowing employees across Microsoft to form mentorships together, in addition to the admin-facing mentorship dashboard.

Experience Design Intern

Airbnb, Payments team

June 2019 – September 2019 | San Francisco

Designed an incentives onboarding platform with the Airbnb Payments team for a summer internship project.

Chief Design Officer

Blockchain Society at the University of Washington

April 2018 – January 2019 | Seattle

Crafted a new club identity through visual design and branding. Designed flyers, banners, stickers, apparel, website and merch for existing and prospective members.
