

CAMBRIDGE SUMMER SCHOOL

Overview

At Oxford Summer Courses, learning is hands-on, engaging, and built around curiosity. Experience academic excellence at Cambridge, where centuries of innovation and discovery continue to inspire the world's brightest minds. The Oxford Summer Courses Program in Cambridge enables students to study in one of the most historic and intellectually vibrant cities in the UK. Led by Cambridge tutors, each course offers small-group learning designed to encourage deeper discussion, critical thinking, and personalized feedback.

Beyond the classroom, the Cambridge experience unfolds through a rich mix of cultural activities and excursions — from punting along the River Cam to exploring local landmarks, castles, and museums. With social events, workshops, and networking opportunities, students join a global community united by curiosity, creativity, and a shared love of learning.

The Cambridge Learning Experience

Our award-winning Cambridge summer courses are designed to inspire independent thought and intellectual confidence. Taught by expert tutors from Cambridge and beyond, each class welcomes fewer than eight students — ensuring space for tailored, one-to-one learning and meaningful discussion.

Students can choose from a diverse range of academic disciplines, including Arts and Humanities, Business and Economics, Law, Medicine, Engineering, Technology, and Creative Writing. Through hands-on projects, seminar-style debates, and immersive learning experiences, you'll gain analytical skills and insights that extend far beyond the classroom. These programs help you build academic confidence, strengthen your university applications, and explore your future goals — all while learning in one of the world's most inspiring academic settings.

Featured Course Highlights

- **English Literature and Creative Writing** - Students will explore classic and contemporary literature, learning how to create compelling characters, develop engaging plots, and find their own writing style. They'll study the power of language and poetry while improving their ability to communicate ideas clearly and creatively.
- **Biotechnology and Genetics** - Gain a solid foundation in biotechnology and genetics, understanding how these fields are changing the world and shaping the future. Students will explore key breakthroughs in medicine, pharmacology, and agriculture, learning about cell biology, genetic engineering, and the ethical questions raised by these technologies.
- **Medicine** - Through a combination of theory and hands-on study, students will gain a deep understanding of cell biology and its connection to the human body, providing them with a foundational knowledge of modern medicine. The course will also look at how understanding normal bodily functions is crucial for tackling diseases and how ongoing research is pushing the boundaries of medical treatment.

Get to Know Our Students

Our Cambridge Summer School is designed for students aged 13-24, catering to a wide range of academic interests and career goals. Whether you are interested in exploring new subjects or deepening your understanding of a particular field, our expert tutors provide a personalised and enriching learning experience. Students are divided into three age groups to ensure that the programme meets their developmental needs. For Advanced Courses, applicants must be aged 18-24 and have completed at least two years of undergraduate study (or equivalent) by the course start date.

For Ages: 13-15

Staying in the City of Cambridge offers a wide range of experiences. Guided city tours and orientations led by our dedicated staff help students settle in, while daily activities and excursions provide fun, learning, and the chance to explore local culture. Group projects, free time with peers, and evening events like Bop and formal dinners foster connection and confidence in a unique and supportive setting.

**Depending on tier*

For Ages: 16-17

The experience is enriched with a variety of engaging activities designed to support both academic and personal growth. Students enjoy full-day excursions and free time to explore Cambridge independently or with new friends. Evenings are filled with socials and cultural outings, while structured sessions encourage discussion and collaboration. Formal dinners add a memorable touch to the well-rounded summer school journey.

**Depending on tier*

For Ages: 18-24

Students benefit from a mature and independent summer experience that balances academic depth with social engagement. Activities include evening socials, college visits, and industry insight talks that inspire ambition and networking. With built-in free time, students are encouraged to explore Cambridge and connect with peers. The experience concludes with formal dinners and a graduation ceremony to celebrate their journey.
