Southeast Asia's leading university.

**DATES**

5 - 18, July 2026

**AGES**

16 - 18

**LOCATION**

NUS, Singapore

**PRICE**

£3,599

### ABOUT THE PROGRAMME

This summer, study at one of Asia's most prestigious universities in one of the world's most dynamic cities. The National University of Singapore (NUS) is Southeast Asia's leading institution globally recognised for academic excellence, world-class research, and a culture of innovation.

Set in Singapore a cosmopolitan city at the crossroads of East and West you'll experience a place that blends cutting-edge technology, rich multicultural heritage, and extraordinary opportunity.

### WHY OXFORD SUMMER COURSES?

Choosing a summer programme is about more than selecting a subject — it's about joining an environment that shapes how you think and grow. With over 16 years of experience and an award-winning, exceptional education, Oxford Summer Courses delivers personalised programmes in Oxford, Cambridge, and leading UK boarding schools.

Since 2010, more than 20,000 students from over 150 countries have explored over 40 subjects with us. Our focus goes beyond academic achievement, helping students develop independence, confidence, and critical thinking skills to prepare for university, future careers, and the opportunities ahead.

*"The best thing about Oxford Summer Courses is the kind teachers and friendships I've built. During the summer school, I adapted to being surrounded by people from many parts of the world. The environment was very welcoming. I learned a lot from the courses and enjoyed my time here immensely overall."*

**-Blythe, Oxford Summer Courses Alumni**

### WHAT YOU'LL LEARN

Every aspect of the programme is designed to develop the habits of mind that universities and employers value most from analytical rigour to genuine intellectual confidence.

Beyond academic tutorials, curriculum enrichment sessions and masterclasses give you space to develop these attributes bridging the gap between classroom learning and the demands of modern university and professional life.

### CORE ACADEMIC OUTCOMES

#### Critical Thinking & Analysis

You'll go beyond rote memorisation to engage with real-world problems. The Socratic Method trains you to identify weak premises, recognise logical inconsistencies, and distinguish sound from unsound arguments.

#### Independent Learning

You'll develop the academic independence that university demands taking ownership through independent research, essay writing, and managing your own study schedule.

#### Confidence in Debate & Presentation

Through small seminars and one-to-one tutorials, you'll find your voice and learn to defend your ideas clearly under rigorous but supportive questioning.

#### Collaborative Mindset & Innovation

Deep discussions and group projects with peers from around the world replicate real university and professional environments preparing you for what comes next.

### TRANSFERABLE 21ST CENTURY SKILLS

#### Leadership & Teamwork

Interactive workshops and scenario-based challenges put your leadership into practice alongside peers from over 50 countries.

#### Resilience & Intellectual Risk-Taking

You're encouraged to propose ideas even when uncertain. Learning from a wrong answer is as valuable as getting it right and you'll leave far more confident for it.

#### Effective Communication

You'll sharpen your ability to articulate complex ideas, share research insights, and engage diverse audiences with clarity and conviction.

### SUBJECTS OFFERED

Choose from three subjects, each taught in small discussion-based groups by expert tutors. There's no fixed curriculum sessions are shaped around what you want to explore.

#### Business & Entrepreneurship

Explore the fast-paced world of business from globalisation and macroeconomics to marketing and the digital economy. You'll learn what it takes to build and lead in today's world.

##### SAMPLE TOPICS

- Competition & globalisation
- Macroeconomics
- Marketing strategy
- The digital economy

#### Law

Discover the foundations of legal systems and the role of law in society. From criminal law to international human rights, you'll develop the analytical thinking of a lawyer.

##### SAMPLE TOPICS

- Criminal law
- Human rights
- Public morality
- International law

*Sample topics only? tutors tailor each session to your interests.*
