# LS Central Architecture

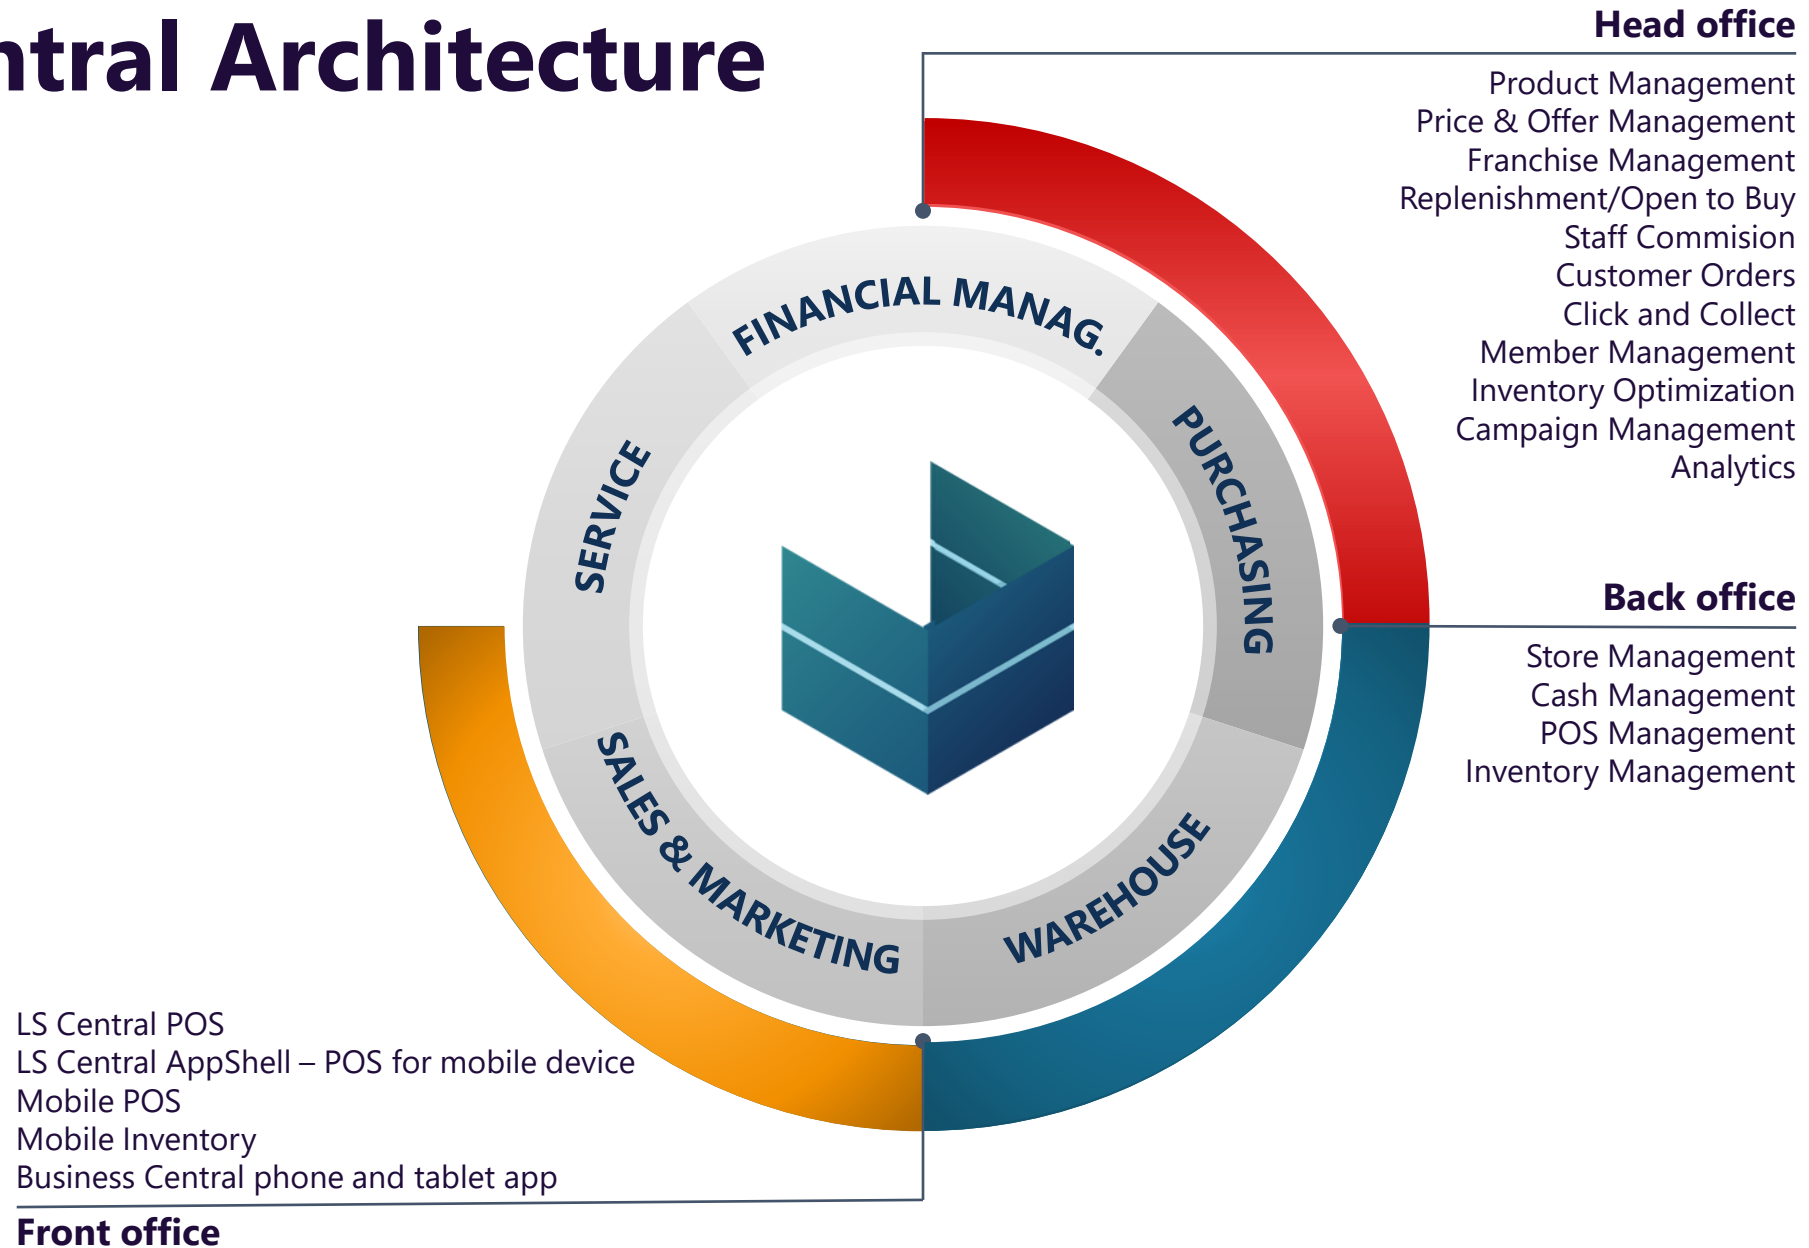

# LS Central Architecture

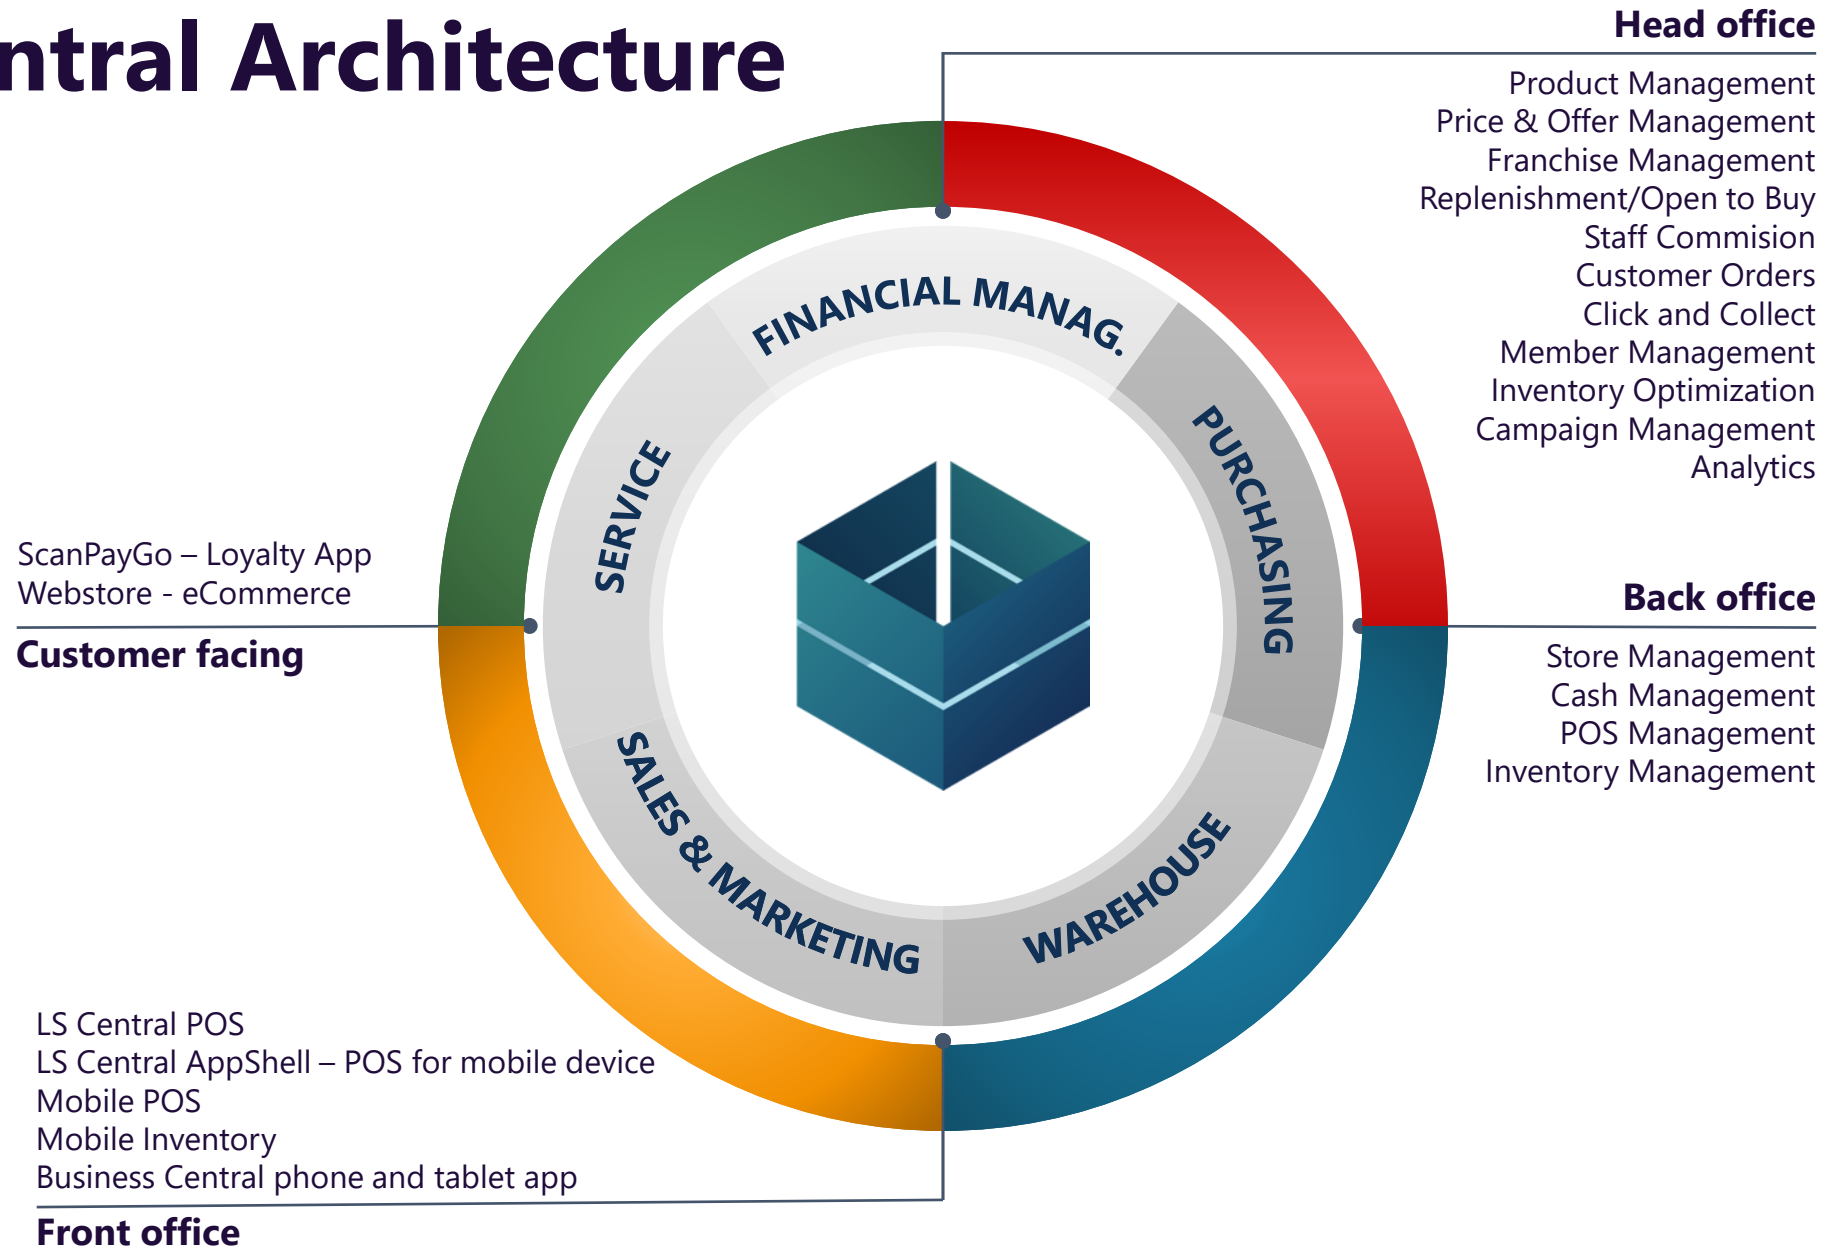

# LS Central Architecture

# LS Central Architecture

# LS Central Architecture

# LS Central Architecture

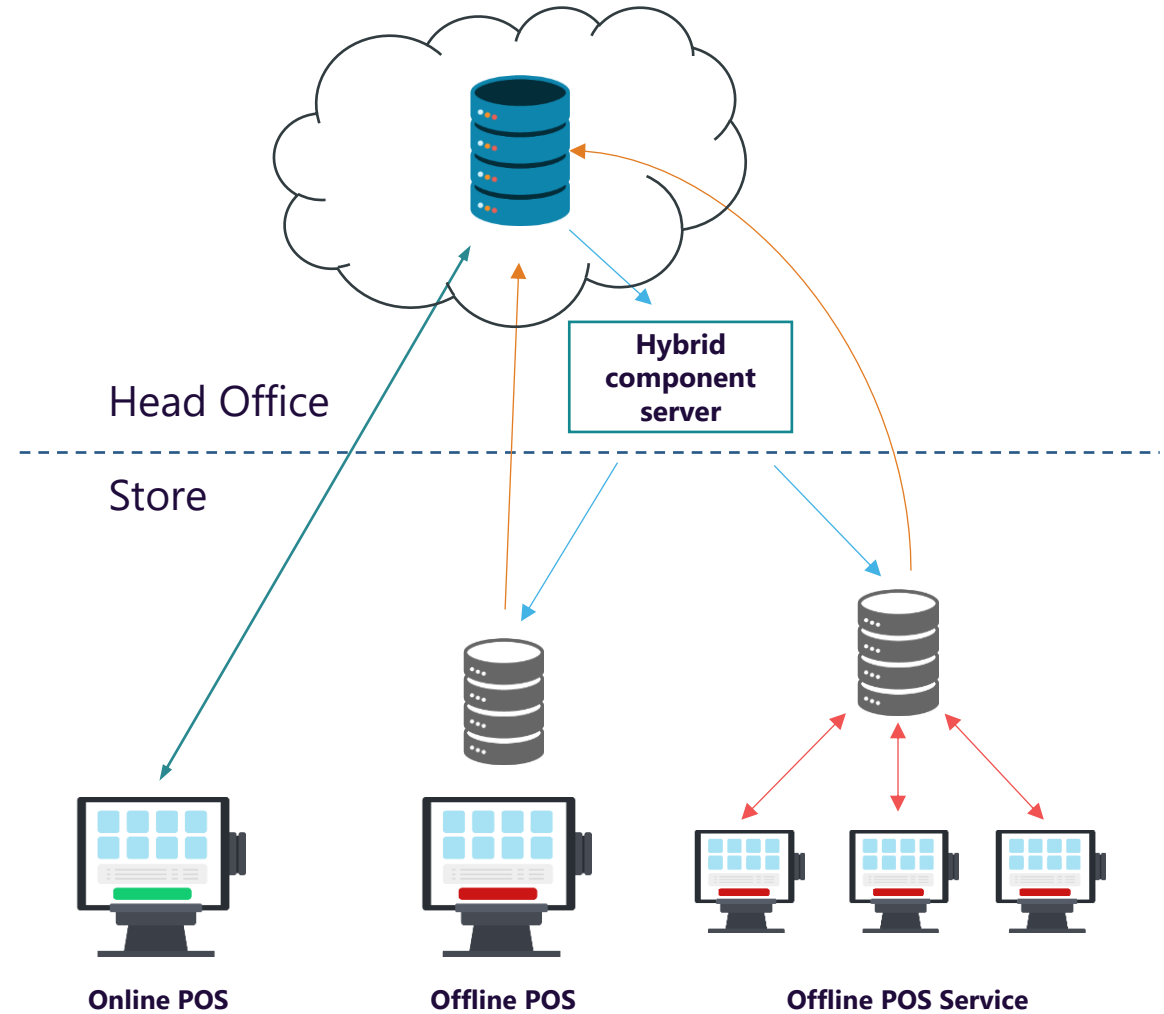

LS Central supports

- Online POS
- Offline POS
- Offline POS Service

Hybrid component Server

- Handles communication to offline POS and POS Services

SaaS and on-premise head office supported

# Extensibility framework

New modular development environment

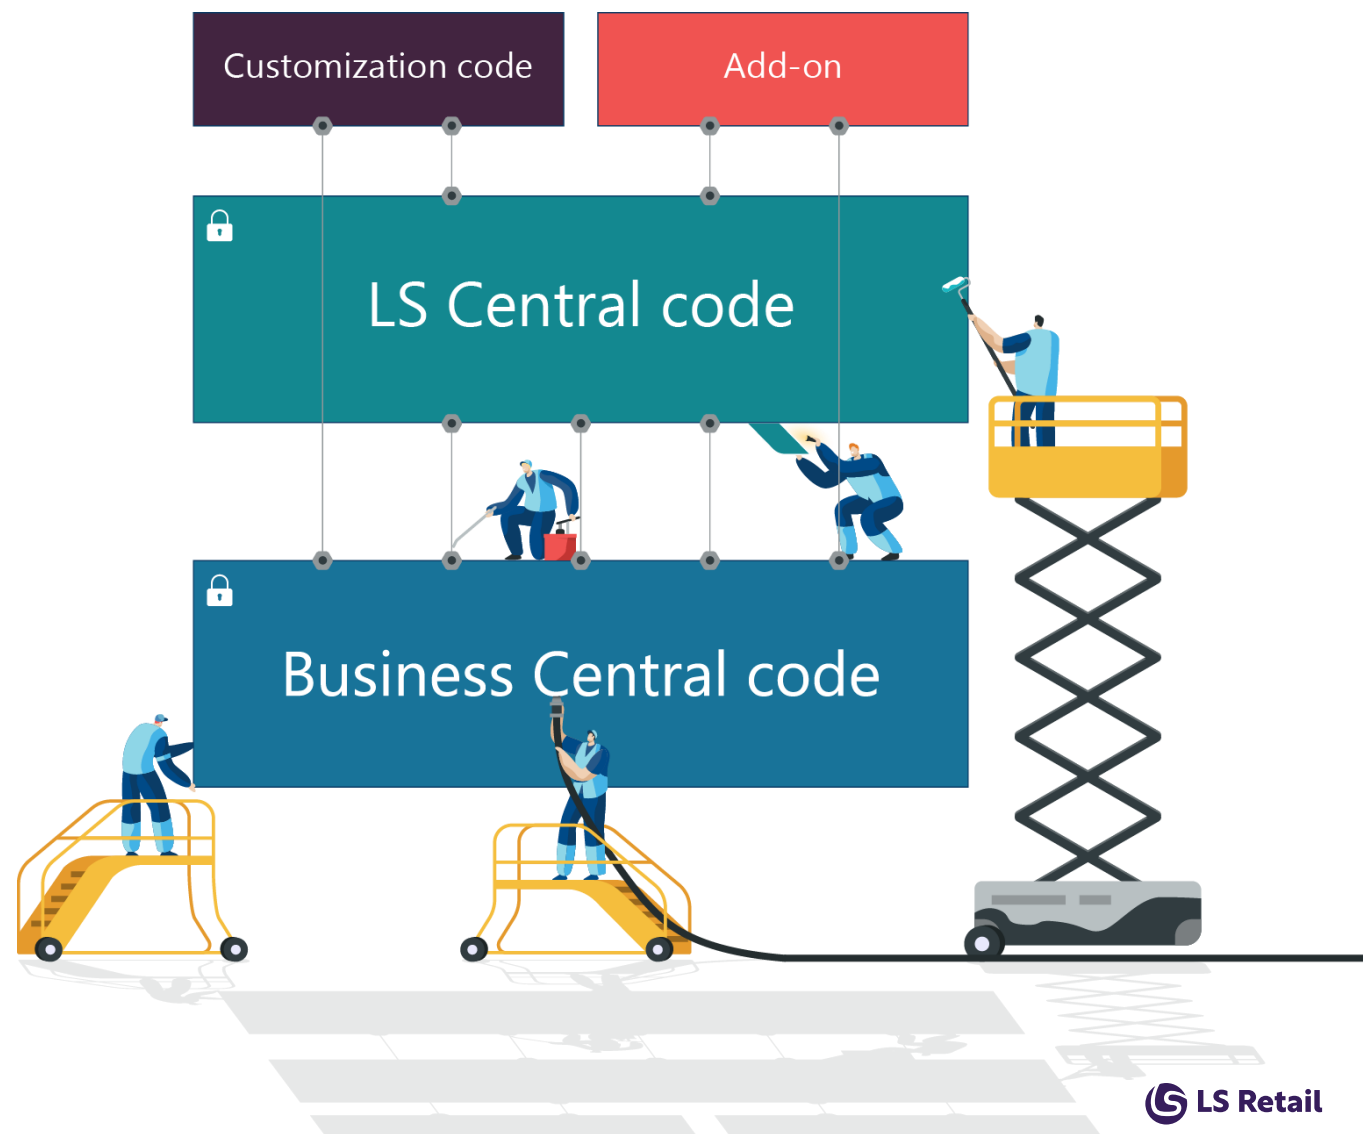

Built for upgradability

Makes migration easier, simpler and faster

Still keeping the ability to extend functionality

This technology has ability to stay current without projects

Coding with Events & Extensions

# Lego methodology

The Microsoft Dynamics Business Central platform facilitates the Lego methodology

Each component in the system is like a Lego brick

These can be exchanged more or less independently

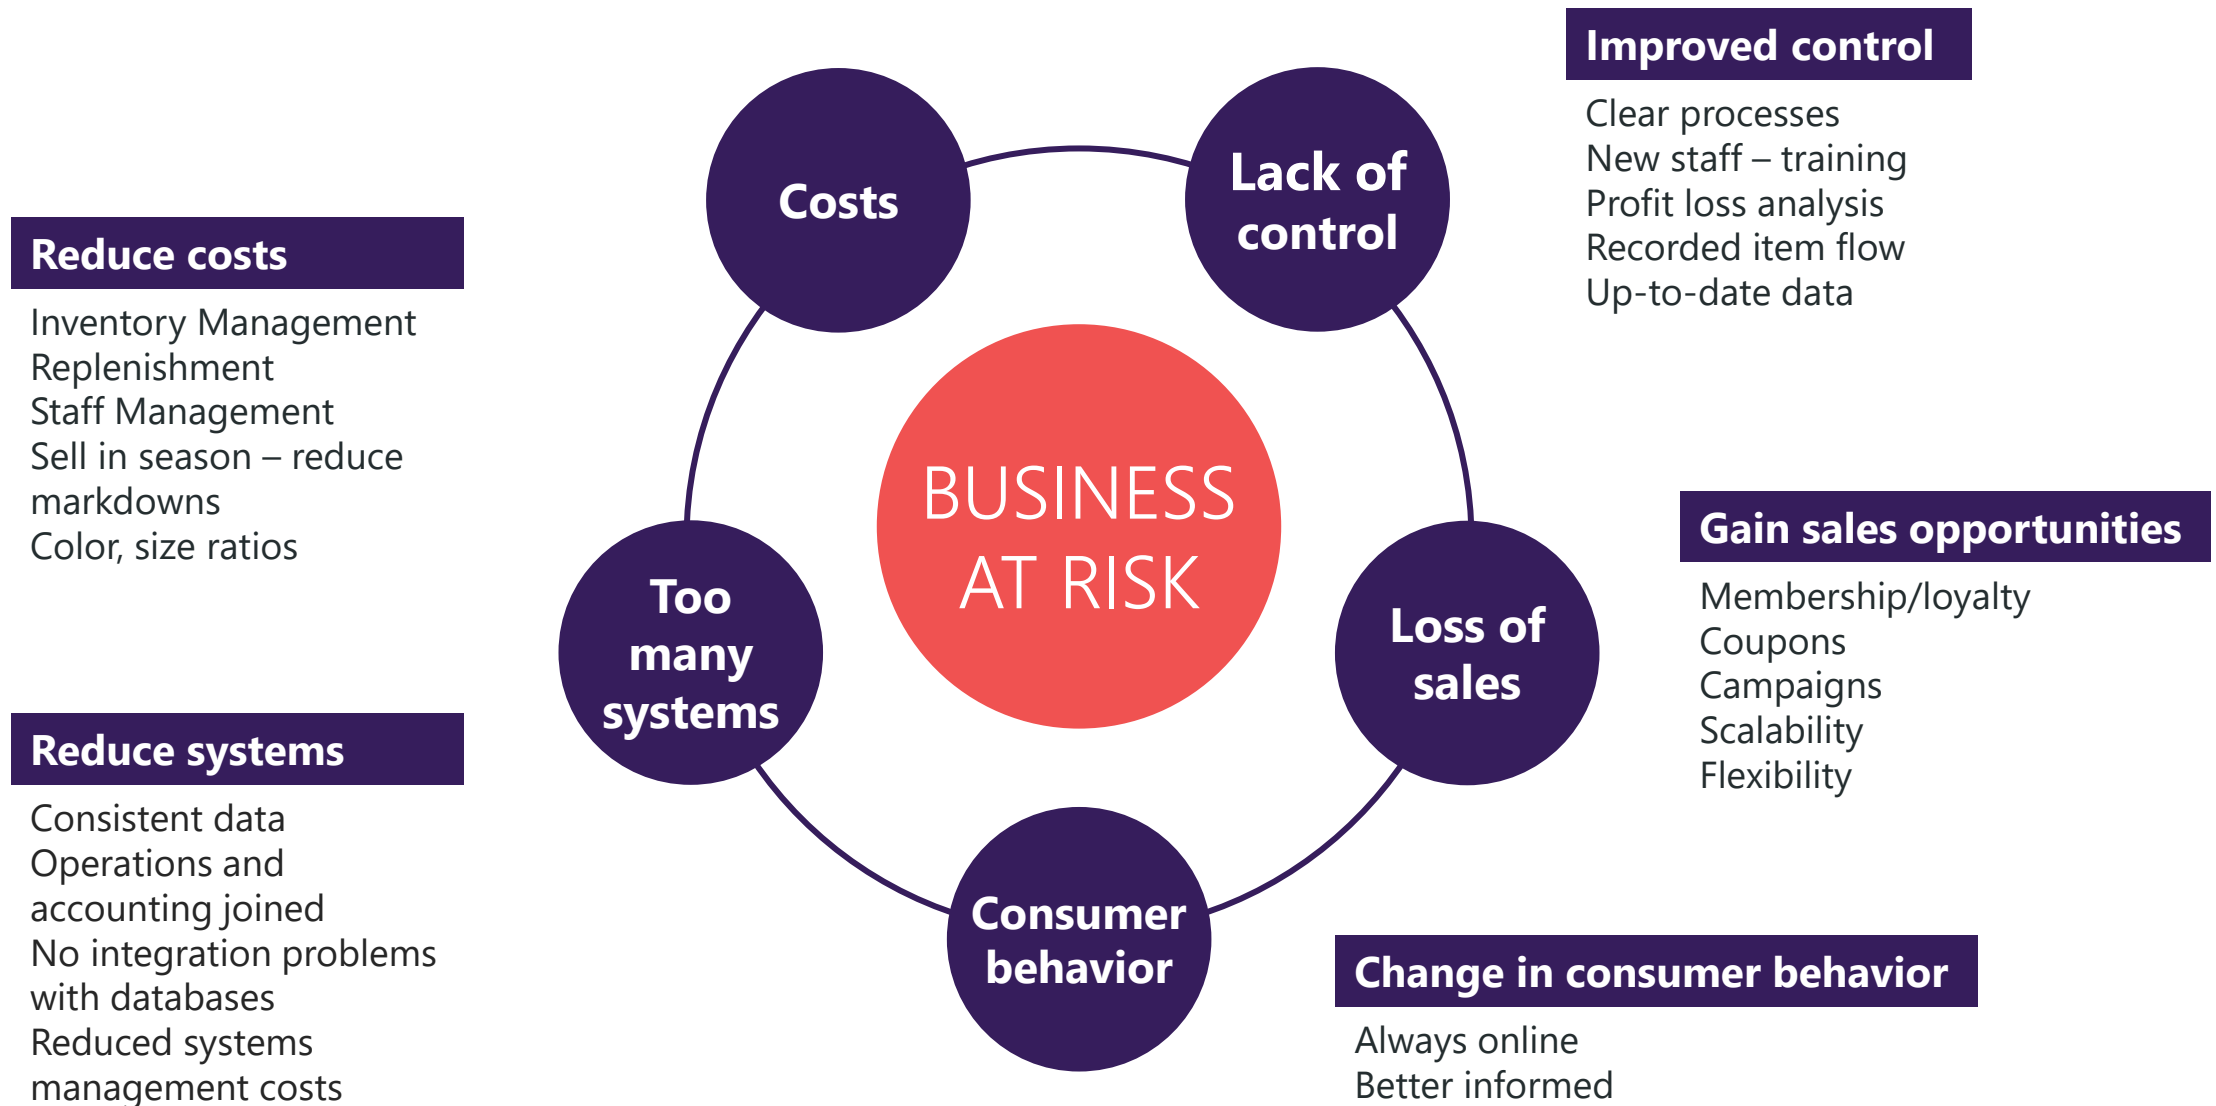

For customers, this provides flexibility meaning that it is possible to add new functionality extensions without affecting the current installation

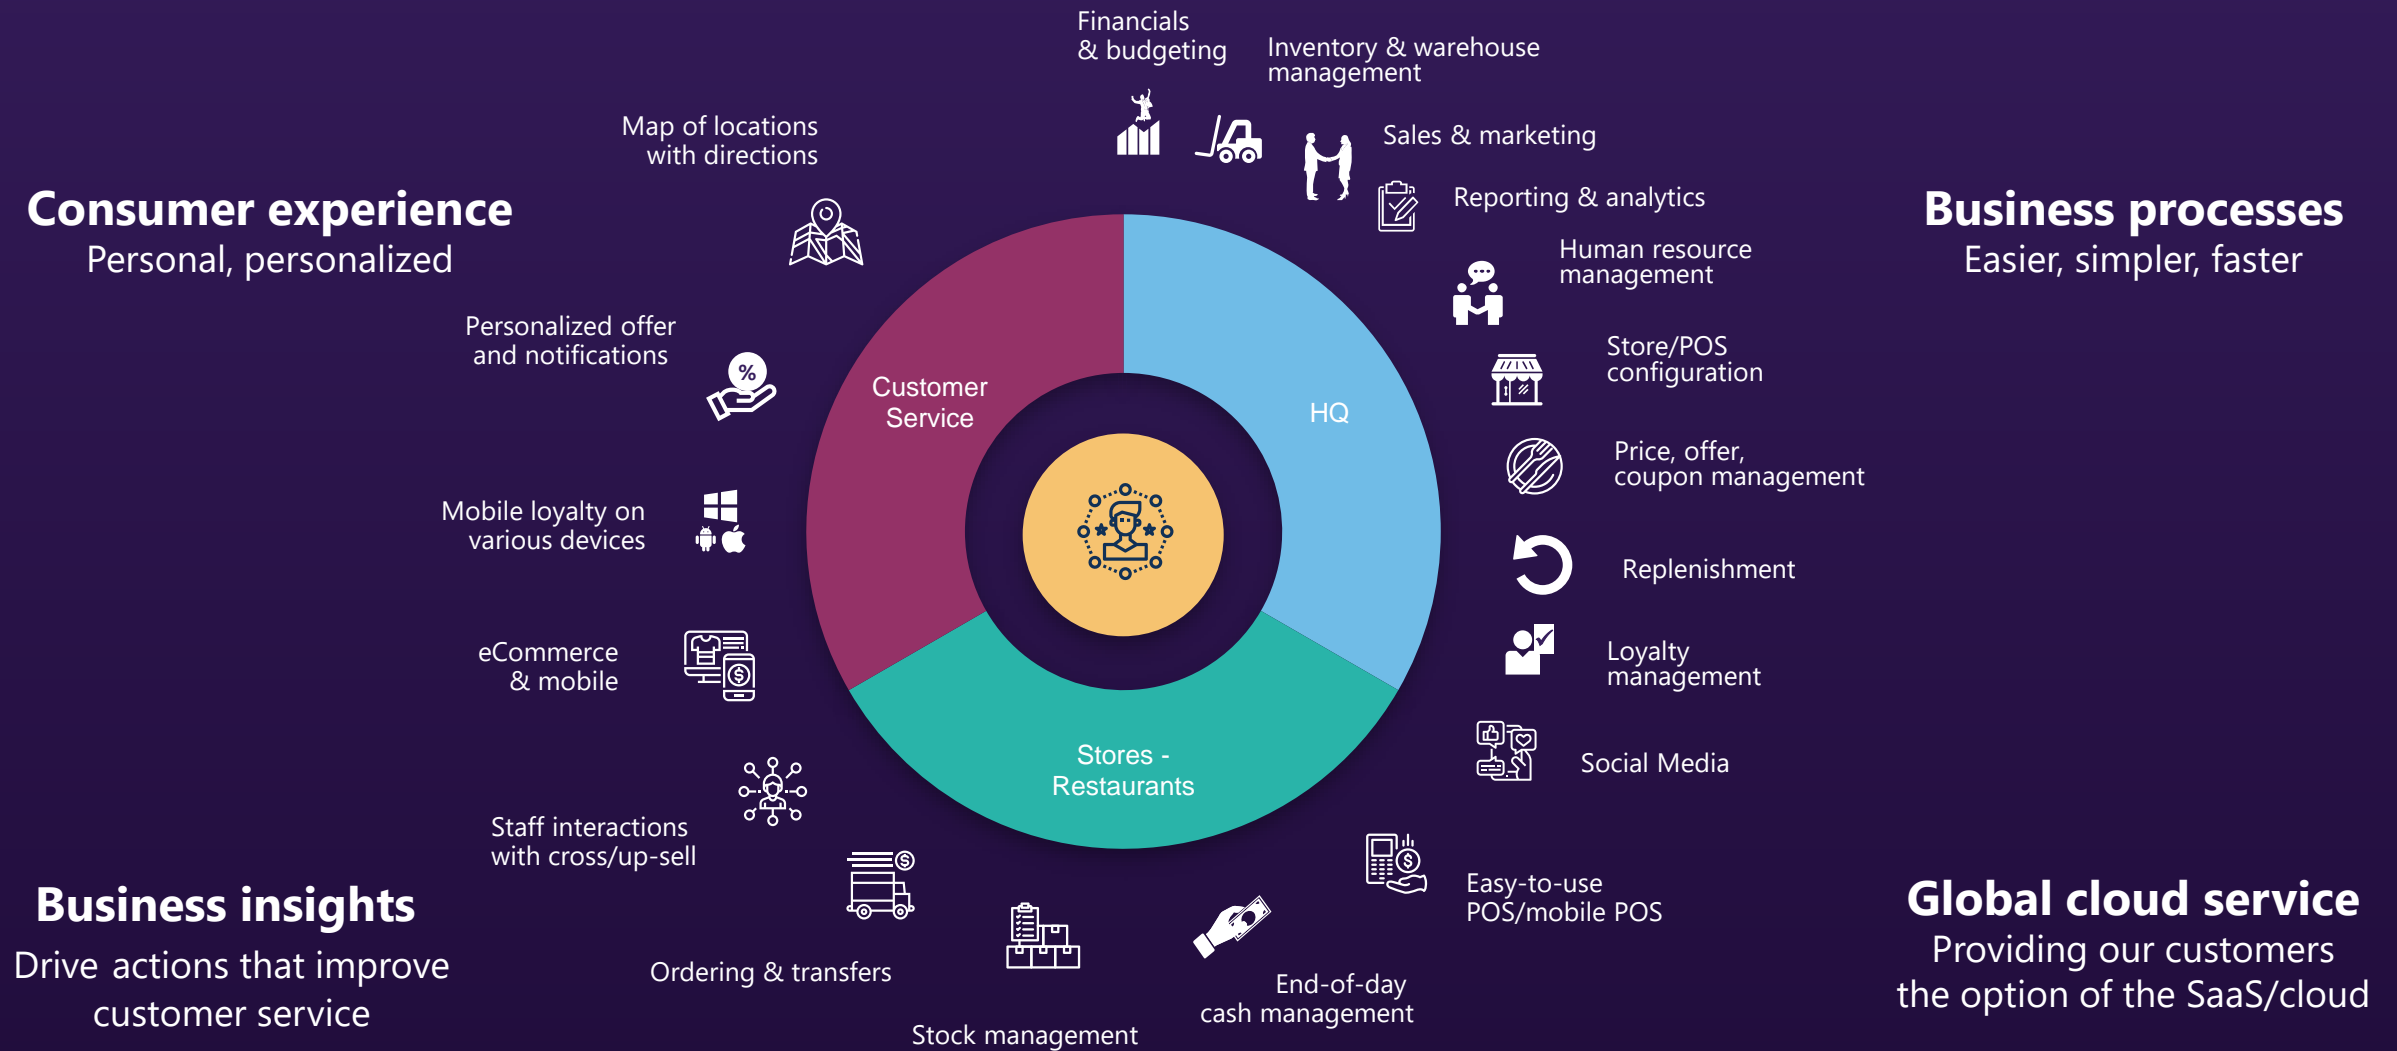

# Reaching out to the customer

# Retail challenges

# Our product strategy is Unified Commerce

# Unified commerce

LS Central and Microsoft Dynamics 365 Business Central are completely integrated into one solution

One solution for the company

- All data for items, customers, vendors, offers, POS layout and more are set in the LS Central back office

Customers do their shopping wherever it fits them

- In store, eCommerce and loyalty apps

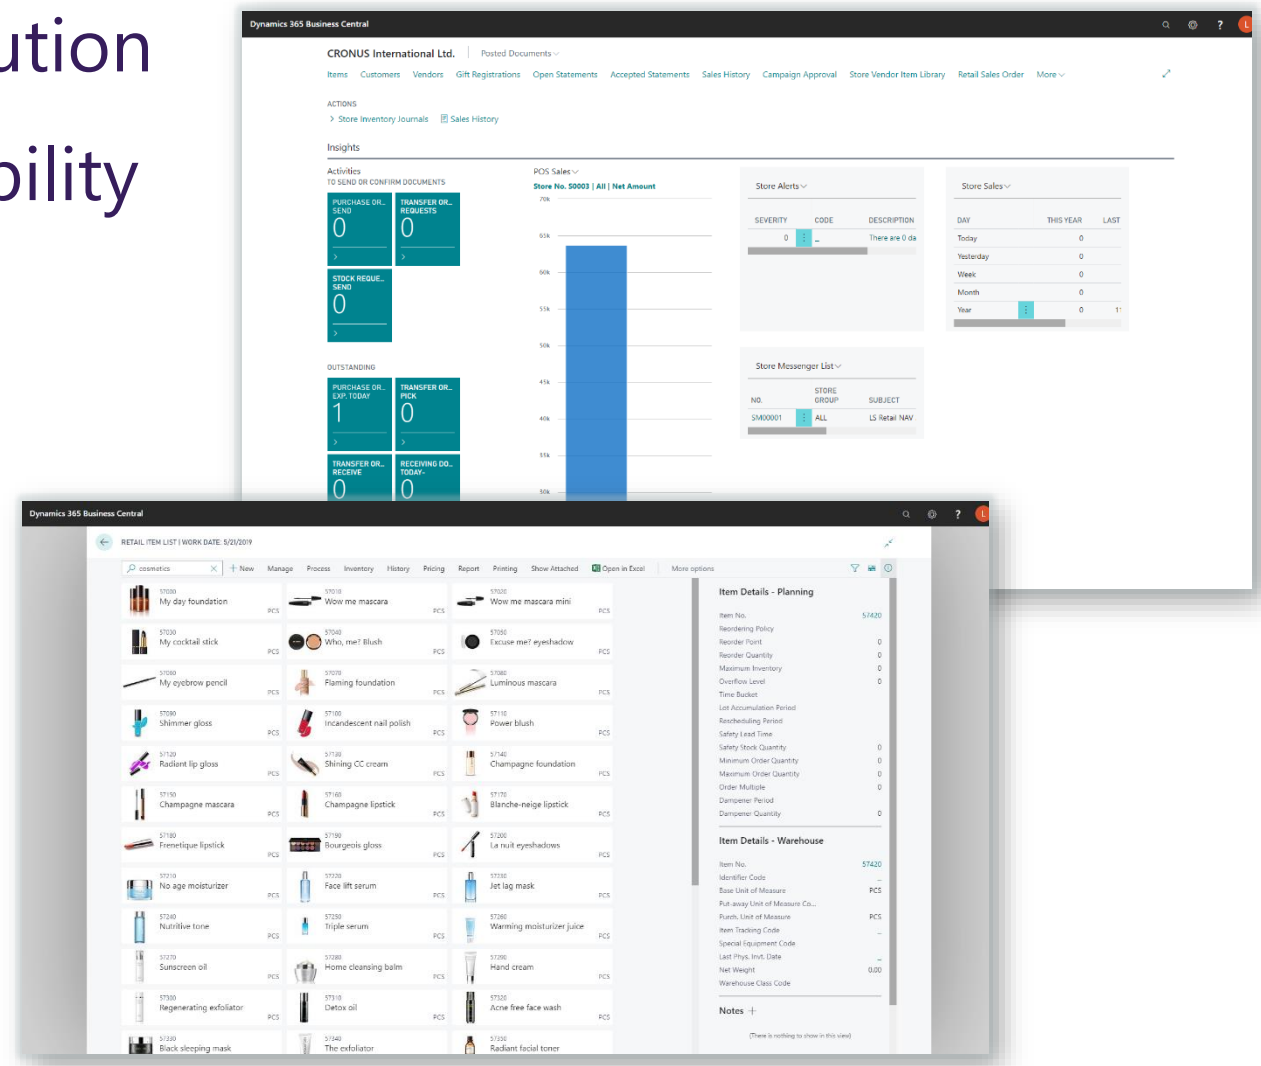

# Manage your whole business from one software platform

Complete, end-to-end retail solution

Centralized management & visibility

- Integrated sales distribution and e-Commerce to order fulfillment
- Purchasing and inventory management
- Price, promotion, offers
- Customer loyalty
- Accounting
- Machine learning
- Analytics

# All data is setup in LS Central Back Office

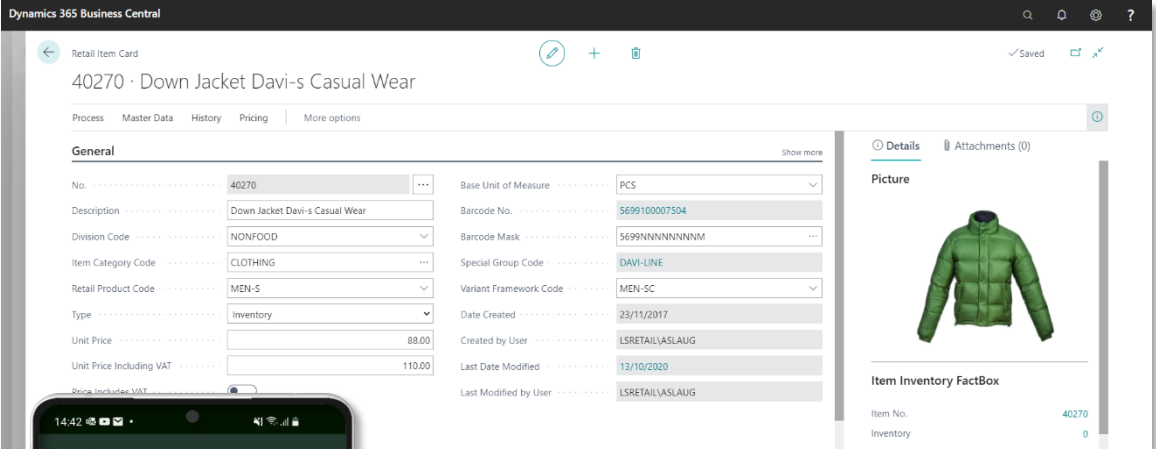

## Content management in one system

### Example:

Item is created once and used in all platforms

- LS Central POS
- Mobile Inventory
- eCommerce
- ScanPayGo

Offers, marketing and campaign management – all in LS Central

# LS Central POS – Self Ordering/Checkout

LS Central POS offers the functionality and flexibility to for self-checkout

Self ordering for restaurants

Utilizing the HTML templating technology to achieve the look and feel needed

# 3<sup>rd</sup> party Self Checkout integration

LS Retail is working on integration to 3<sup>rd</sup> party self-checkouts

LS Central POS will provide business logic

- All Item information, Prices and offers

- Basket calculation

- Result in standard LS Central transactions

## 3<sup>rd</sup> Party Self Checkout

- User Interface with process flow

- Security system

# LS Central

for pharmacies

## LS Central for pharmacy manages various types of:

- prescriptions, handle drugs effectively and keep track of the levels of pharmaceutical stock across all stores.
- retail items (including pricing, replenishment, campaigns/promotions, loyalty, etc.)
- appointments and reservations and finalize sales at the POS.

This means pharmacies can use just one software solution to manage all their product sales, from pharmaceuticals to health to beauty, as well as bookings within the same software solution

# LS Central

for hotels

LS Central for hotels **unites** the typical functionality of a traditional hotel Property Management System (PMS) with the deep retail- and hospitality-specific features that the LS Retail solutions are known for.

The system will cover all the main processes required in hotels and resorts, ranging from accommodation, to services such as spa bookings and reservations, to retail sales and restaurant management, all within a single system.

# eCommerce for LS Central

## Out-of-the-box integration to your e-commerce site

- LS Central offers out-of-the box integration with **Magento**, **Avensia** and **Dynamicweb**, some of the best-known global eCommerce platform providers.

## Deliver a unified experience

- With a unified commerce system your business information is always consistent in all channels

## Click and collect

- Let your customers decide how to receive their purchases, either collect it in a selected store or have it delivered

# Analytics for LS Central

Reports and visualization built in PowerBI

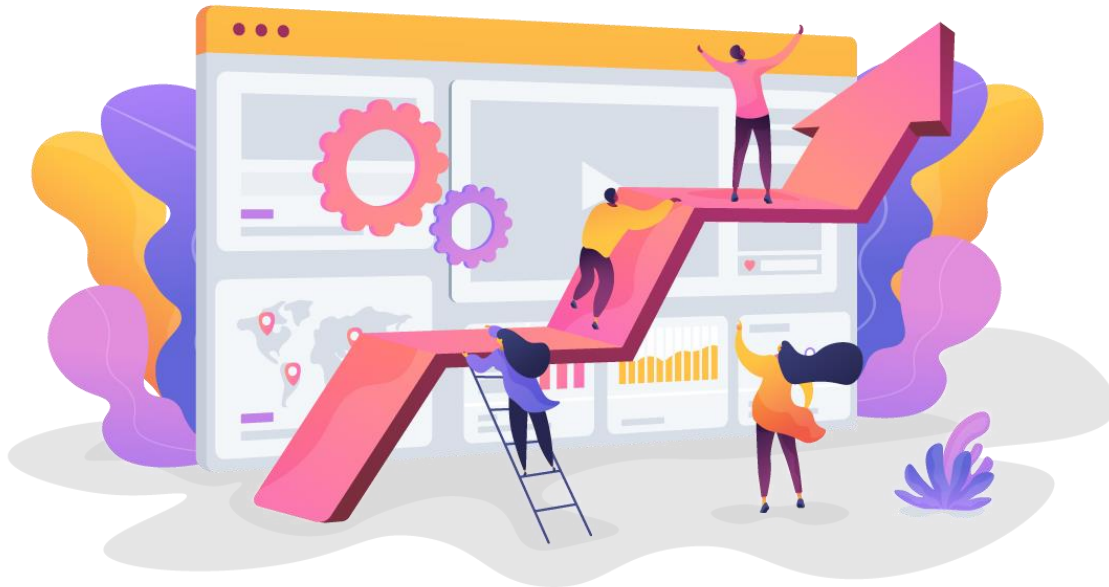

Access to your KPIs on any device

Customizable dashboards and reports

Data extraction layer

Data warehouse hosted in Azure

Free for partners and customers

# Bookings for LS Central

For general appointments, courses, classes, rentals and events.

Reserving related resources, duration-based pricing and finalizing on point of sale.

Sample of use:

- Reserving experts & equipment  
Pharmacy & retail

- Reserving therapists and location  
Spas, saloons, fitness centers

- Reserving classes, rides and trips  
Resorts, transport and leisure

# Staff Management for LS Central

## Workforce management system

- Easy to maximize your staff productivity and satisfaction
- Plan and distribute staff rosters, oversee and approve work hours, and gain a clear overview of timetabling, costs, and budget requirements

## Includes

- Staff roles
  - Assignment
  - Budget
- Roster planning
- Time registration

## Benefits

- Accurate and easier planning
- Accurate hours
- Accurate salary
- Accurate statistics and better analysis

**Maximize your staff  
productivity and satisfaction**

# LS Pay

**With LS Pay you can sell easily and securely across all your channels**

Handles core EFT functions with terminals and services, like: Purchase; Void; and Refund.

It gives the POS/ECR an opportunity to manage multiple payment service providers (PSPs) with one way of work.

LS Pay gives access to multiple PSPs and various devices (PEDs) in different plugins, handling communication through USB, Ethernet and Bluetooth, all depending on the end system.

LS Pay encapsulates the complexity with the communication protocols and has one interface supporting all plugins.

# Why LS Central?

End-to-end solution

Can be customized using extensibility framework

Built on Microsoft Dynamics 365 Business Central

Low cost of ownership

On-prem – SaaS - hybrid

A man in a red and white plaid shirt and light-colored shorts is hanging off the side of a green train car. He is holding onto a metal bar with his right arm and a grey bag with his left. His legs are sticking out horizontally. The background shows the train tracks and other train cars.

Don't  
miss  
the train
