

# The financial operating system for healthcare

End-to-end automation for coding, prior authorization, eligibility, submissions, posting, and appeals.

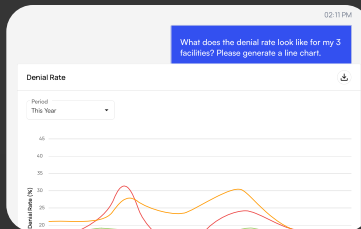

## An Intelligent RCM Engine

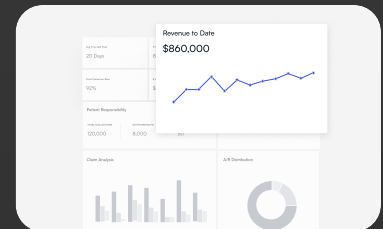

### Agentic AI Integrated Platform

Leverage AI agents to automate existing workflows, handling everything from claims processing to denials and resubmissions

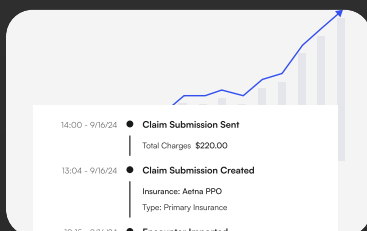

### Real-Time Data Analysis

Harness the power of AI to answer any business question within seconds by automatically summarizing large amounts of data into desired formats

### Intelligent Billing Rules

Customizable billing rules to support the unique needs of your patients, providers, and entire practice with our AI-powered Rules Engine

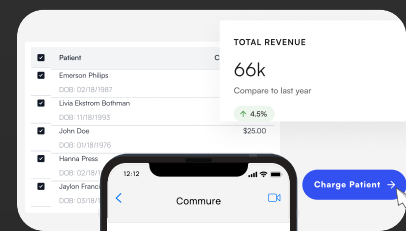

### Claim Submissions on Autopilot

Our AI engine analyzes every claim, enabling same-day submissions, as well as optimizes claim submissions payload to maximize reimbursement

CPT Code	Status	Dollar Amount
97102	Denied	\$125.00
97102	Denied	\$100.00
97106	Denied	\$100.00
97530	Denied	\$85.00
97540	Denied	\$85.00
97035	Denied	\$80.00
97012	Denied	\$45.00

### Denial Management in Bulk

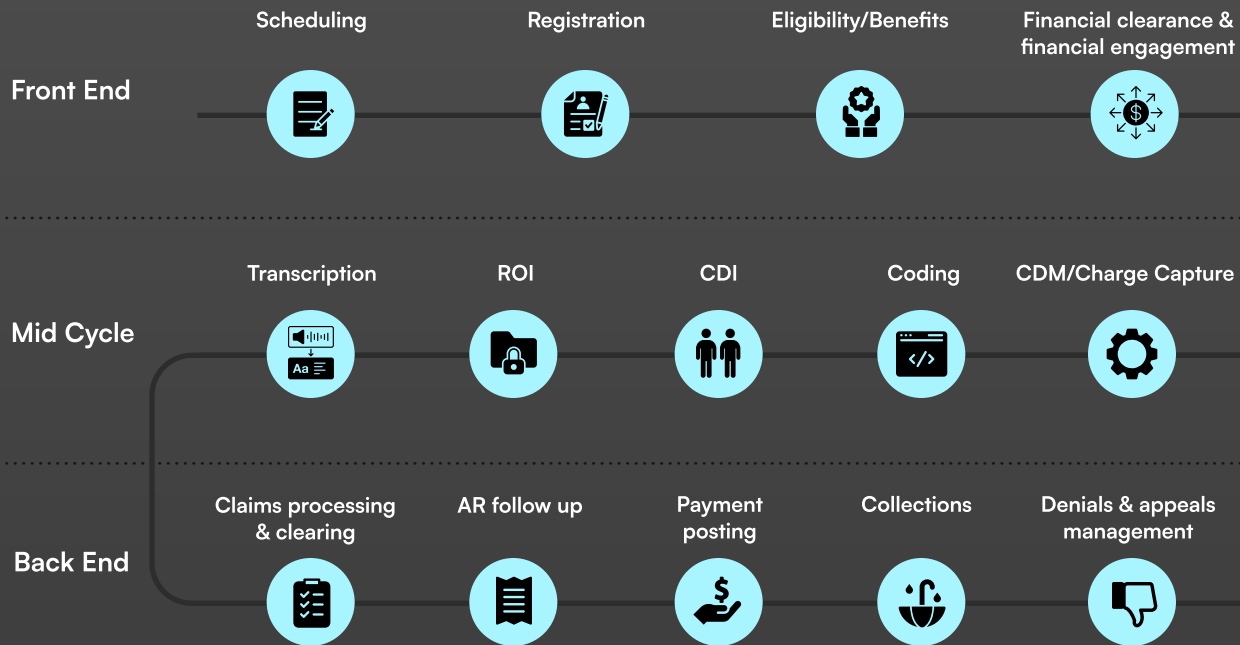

Resubmit denials and rejections in bulk with one-click rules and our Denial Copilot that learns from denials and auto-corrects future claims

### Automated Patient Payments

Send text, email, and physical mail reminders on pre-set cadences to patients, all from one unified dashboard

# Best-in-class RCM operations leveraging tech-based interventions at every stage
