commure

Healthcare's Intelligent Operating System for End-to-End Automation

Commure is redefining how healthcare works. Our AI-powered platform connects every part of the care and revenue cycle to unify access, documentation, and payment into one intelligent infrastructure.

From intake and documentation to claim and payment, we eliminate friction, streamline workflows, and return time and margin to care.

Intelligent Automation Across the Care Continuum

Front Cycle
Access to Intake

- Care Navigation
- Appointment Scheduling
- Intake and Readiness
- Check-In

Mid Cycle
Care Delivery to Claim

- Ambient AI Scribing
- Autonomous Coding
- Charge Capture & CDI
- Search and Summarization

Back Cycle
Claim to Payment

- Reconciliation
- Denial Management
- Appeal Automation
- Patient Responsibilities

Driving Transformation at Scale

100M+
annual patient interactions

400,000+
clinicians using AI and RTLS solutions

$25B
in healthcare payments processed

60+ EMR
integrations including MEDITECH, Epic, Cerner, athenahealth, and more

80+
enterprise health system customers, including

HCA Healthcare   Sutter Health   CommonSpirit

Tenet Health   Intermountain Health   Adventist Health

# Powering Healthcare's Intelligent Infrastructure

Our platform brings together advanced AI, connected data, and human-centered design to transform every stage of healthcare delivery.

Each solution reinforces the next—creating compounding value across access, care, and revenue.

Modular Solutions Built for Real-World Impact

30-90 minutes saved on average across specialities

25+ specialties supported across inpatient and outpatient settings

25% reduction in denials

97% first pass rate across all sites

Ambient AI

Clinical documentation, pre-integrated into MEDITECH Expanse, and enhanced by autonomous coding and AI co-pilots and care nudges.

Agents

Dynamic AI-driven automation to streamline complex tasks in real-time, enhancing clinical and administrative workflows.
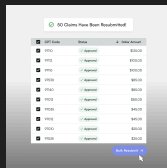

Patient Experience

AI-powered platform to personalize and automate every patient journey across any channel.

Revenue Cycle Management

End-to-end automation for coding, prior auth, eligibility, submissions, posting, and appeals.

Commure Strongline

A connected safety platform, powered by Canopy, for real-time duress alerting and asset tracking.

PatientKeeper

Offers all-in-one AI-powered rounding, charting, and coding, seamlessly integrated into the EHR.

50%+ reduction in patient no-show rates

84% of messages were fully resolved without triggering a provider alert

20% increase in billable charge volume

20M+ inpatient orders annually

Let's build the future of healthcare—together.
