COMPANY DESCRIPTION

Boomtown Fair is an organisation with unrivalled artistic output, cutting edge production and cultural comments. Founded in 2009, the organisation sets about giving people the most immersive and creatively driven, truly independent arts festival. A place that inspires people to go forward and create positive societal change beyond the event itself.

Headquartered in the heart of Bristol, Boomtown Fair is an annual five-day music festival held at the Matterley Estate (Nr. Winchester, Hampshire) in the rolling hills of the South Down National Park. For more than a decade, the organisation has offered its audience extraordinary experiences through the programming of visual arts, mind-bending set designs, a multitude of music styles and site-specific theatrical performance.

Charity, Education, Environment and Social Awareness is an integral part of the ethos of Boomtown Fair with the festival being a driving force and platform for challenging societal norms and raising awareness on key issues that face the world today. In 2019, the organisation took unprecedented steps by partnering with TreeSisters, a global network of women passionate about achieving restoration of our tropical forests, to plant a tree for every attendee of its Festival that year (c.70,000 trees). This is just one example of the numerous charities and partnerships the festival and company engages with frequently to influence positive change in the world.
