

# WELCOME ON BOARD

Kick back and enjoy your well-deserved sailing holiday in Greece. Here are our top tips to make your time on the water as sustainable as possible

## COME CLEAN: PREVENT POLLUTION

Take care to minimize contamination when refuelling and emptying bilges. Use marine-friendly sunscreen, shampoos and cleaning products.

## BUY LOCAL & BUY SUSTAINABLE

Support local producers and buy from small local shops and markets. Choose sustainable seafood at tavernas.

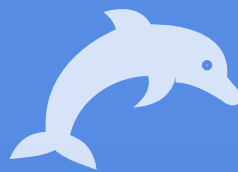

## LOWER YOUR SPEED

Reducing speed from full throttle by 10% reduces your fuel usage by 20%.

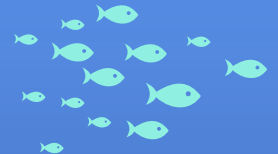

## GET TO KNOW NATURE

When viewing wildlife, remain at least 100 metres away and limit your viewing time to 30 minutes.

## MOORING SAFELY

Use mooring buoys, or if you anchor use sand and mud and avoid seagrass beds. Use rocks for long lines, not trees.

## LEAVE NO TRACE

Keep a tidy boat, leave your rubbish and recycling at designated areas in marinas and do not leave it at all on smaller islands.

SUSTAINABLE  
SAILING GREECE

Read more on all of these tips in the Sustainable Sailing Guide
