

CTM360

AGENTIC AI

AI-Driven Intelligence Across CTM360

CTM360 leverages Artificial Intelligence, automation, and intelligent analysis across the platform to enhance threat detection, phishing analysis, attack surface intelligence, and incident investigations. These capabilities help organizations detect external cyber threats, enrich incidents faster, reduce manual effort, improve visibility, and accelerate response workflows across DRP, EASM, and Threat Intelligence operations.

AI-Powered Capabilities Across CTM360

AI-Driven Threat Detection

Detect brand, executive, domain, phishing, fraudulent infrastructure, and social media abuse across surface, deep, and dark web sources

Phishing Analysis & Incident Enrichment

AI agents crawl phishing pages, identify targeted data fields, extract relationships, and map phishing workflows.

Incident Curation

Enrich, classify, prioritize, and investigate large volumes of incidents while keeping human validation in the loop.

Asset Labeling

Label discovered assets, identify high-risk technologies, and prioritize the external exposures that matter most.

🔗 Ask AI

Ask AI Assistance

Conversational AI helps users ask questions, receive contextually guided responses, and accelerate analysis across supported CTM360 platforms.

AI Summary

Concise incident summaries highlight: fraud type, key indicators, potential impact on victims impact, observed behavior, and investigation context. across supported CTM360 platforms.

Operational Benefits

Designed to improve speed, visibility, prioritization, and analyst efficiency.

- **Faster Detection**
(Threats surfaced earlier)
- **Efficient Investigation**
(Less manual triage effort)
- **External Visibility**
(Assets and fraud context)
- **Better Prioritization**
(Focus on high-risk items)
- **Reduced Operational Overhead**
(Automates repetitive tasks)
- **Centralized Threat Intelligence**
(Connects insights platform-wide)

Business Value

Combines AI-driven analysis, intelligent automation, and human intelligence to strengthen external cyber defense operations.

About Us

CTM360 is an external security platform that seamlessly integrates External Attack Surface Management, Digital Risk Protection, Third Party Risk Management, Cyber Threat Intelligence, Takedowns, and more. For any queries or assistance please contact us at info@ctm360.com.
