Features

Scatter symbol. Can appear on any reels. 4, 5 or 6 Scatters trigger Free Spins.

Free Spins are triggered if 4, 5 or 6 Scatter symbols appear on the reels. The number of Free Spins depends on the number of the dropped Scatter symbols: 4 Scatters – 12 Free Spins, 5 Scatters – 15 Free Spins, 6 Scatters – 20 Free Spins. If during the Free Spins round 3 and more Scatters drop on the reels additional Free Spins are awarded to the player. In this case 3 Scatters give 5 additional spins, 4 Scatters - 12 additional spins, 5 Scatters - 15 additional spins, 6 Scatters - 20 additional spins.

Wild symbol. Substitutes for all the symbols in the winning combination except for Scatter symbols. Can appear only on reels 2, 3, 4 and 5. During the Free Spins every Wild has a multiplier – x2, x3 or x5. The multipliers of every spin are summarized, and the total multiplier is applied to all the winning combinations.

Coin Respin feature. There is a special Coin symbol in the game that drops on the reels alongside with the other symbols. 6 and more Coin symbols appeared on the reels in one spin in the main game trigger Coin Respin feature. This is an additional game that involves only Coin symbols, the more a player collects – the greater will be the win. The possible Coin values can be x1, x2, x3, x4, x5, x6, x8, x10, x12, x15, x20, x100 of the bet. The round starts with 3 respins. The Coin symbols that triggered the feature stay on their positions. The size and the number of the remaining positions is the same as in the spin that triggered the feature, and these positions are empty. All the Coin symbols that appear on the reels during the round stay on their positions till the end of the round. Every time a Coin symbol or a lightning symbol appears on the reels the number of respins is increased to 3. The round continues till the number of respins ends or till the moment when all the positions on the reels are filled with Coin symbols. When the round ends, all the Coin values are summarized, and the total amount is paid to the player.

Lightning symbol. Appears only in the Coin Respin Feature. Can drop in big, middle and small units. The unit, in which the symbol drops, is divided into two empty units: a big unit is divided into two middle ones, and a middle – into two small ones. The newly formed units are empty, and the new symbols can appear in them starting from the next spin. If the symbol drops in a small unit, the division is impossible, and one of the filled big or middle units is randomly selected on the reels and is divided into two retaining the win on each of them.

Jackpots. There is a possibility to win a Jackpot in the Coin Respin feature. There are three kinds of Jackpots – Mini Jackpot, Major Jackpot and Mega Jackpot. In order to catch Mini and Major Jackpots corresponding coins must appear on the reels. To win Mega Jackpot all 48 positions must be filled with coins.

Buy Bonus. During the game a player can buy a round of Free Spins or a Coin Respin feature at the pictured price. If the player changes the bet, the Buy Bonus price will be automatically changed. The next spin after the purchase triggers the round of Free Spins or the Coin Respin feature depending on what was bought. The feature is disabled if the Chance x2 feature is active.

Chance x2. There is a possibility to buy Chance x2 in the game. It slightly increases the bet and gives the player more chances to get Free Spins or the Coin Respin feature. The feature is disabled if the Buy Bonus feature is active.
