

Heads and Tails

Description

Heads and Tails is a super simple yet exciting casual game. The purpose is to flip the coin and try to guess which side will show face up.

RTP is 99%

How to Play

1. Go to **Settings** and choose your bet value
2. Make your choice: heads or tails?
3. Our “gravity generators” will start flipping the coin
4. If your guess was correct - you win times 1.98 the amount of your bet!

Malfunction voids all plays and pays! All unfinished rounds will be terminated every other day. If the game requires “Collect” - “Collect” will take place and the win from the round will be added to the player balance. If the game requires action from a player, the result is counted assuming that the player has chosen the action with no risk without raising the initial bet.

The Game Rules as published on this website are in English. Translations into other languages are provided as a service in good faith. In the event of ambiguity between an English version and a translation, the English version always retains priority.
