

About the game

The slot is devoted to Halloween, and all the attributes of this famous holiday are present here - pumpkins with lights inside, ghosts, witches, and so on. There is no shortage of dreadful creatures – excellent for extreme lovers. Symbols in the slot pay anywhere on the screen. The winnings are determined by the number of the same symbols dropped in one spin. And there are many pleasant features that in spite of all ghosts and dark powers will make your way to winnings easier. They are Scatter symbols, Free Spins, a Refilling feature that can give you consecutive wins on every spin, and a Multiplier symbol that appears in Free Spins and takes a random multiplier from x2 to x100.

How to play

Winnings are formed depending on the number of symbols. Choose the bet size using the buttons in the Total bet field. Higher bets will increase a total win. The bet value chosen is displayed in the corresponding field. To start the reels spinning, click the Spin button.

Auto play

Click the Auto spins settings (A) button to choose the number of rounds to auto play. Autoplay starts when you click the number of rounds and Autoplay button shows the amount of remaining spins.

You can choose additional settings for the Stop of auto spins:

- on any win - autospin will stop after you win
- if bonus game is won - autospin will stop when the bonus game is won
- if single win exceeds - autospin will stop when a single win is above the written sum in the field
- if cash balance increases by - autospin will stop when the current balance is above the sum written in this field
- if cash balance decreases by - autospin will stop when the current balance is below the sum written in this field

To stop the spins click Stop Autospins button

Features

Symbols pay anywhere on the screen. The total number of the same symbol on the screen at the end of a spin determines the value of the win.

Refilling. Now the Refilling can give you many consecutive wins on every spin. Refilling means that after every spin, all combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty cells are filled with symbols coming from above. Refilling will continue until no more winning combinations appear as the result of a Refill. There's no limit to the number of possible Refills. All wins are added to the player's balance after all of the Refills resulting from a base spin have been played.

Free Spins feature is awarded when 4 or more Scatter symbols hit anywhere on the screen or a Free Spins round has been purchased. If 4 Scatter symbols drop on the reels you get 10 Free Spins, 5 Scatters - 20 Free Spins, 6 Scatters - 30 Free Spins. Whenever 3 or more Scatter symbols hit during the Free Spins Round, 5 additional free spins are awarded.

Multiplier symbol appears on the reels only during the Free Spins Round and it stays on the screen until the end of the refilling sequence. Whenever the symbol hits it takes a random multiplier value from x2 to x100. When the Refill sequence ends, the value of all multiplier symbols on the screen are added together and the total win of the sequence is multiplied by the final value.

Scatter symbol appears on all reels. Scatter pays on any position in the main game. During the Free Spins Round, they only re-trigger Free Spins.

Buy Bonus. A player can buy Free spins during the game. A player can buy a bonus at the price pictured above the button. If the player increases the bet, the buy bonus price will be automatically increased. Spins start after buying the bonus. The next spin triggers a bonus game. During the bonus round, the button is disabled.

Chance x2 feature. There is a possibility to buy the Chance x2 feature in the game. It increases the bet and gives the player more chances to play bonus games. The Chance x2 feature is disabled if the Buy Bonus feature is active.

Spin Results

Payouts are made according to the number of symbols, the win amount is displayed in the Total Win field.

- Winnings are formed depending on the number of symbols.
- Payouts are made according to the payable.

Return to Player.

The overall theoretical Return to Player (RTP) is {RTP_VALUE}%.

RNG

The game is based on a certified random number generator. For more information, visit our BGaming site.

Additional information

Malfunction voids all plays and pays! All unfinished rounds will be terminated every six hours. If the game requires “Collect” - “Collect” will take place and the win from the round will be added to the player balance. If the game requires action from a player, the result is counted assuming that the player has chosen the action with no risk without raising the initial bet. This is the game rule version 1.1, December 16, 2021.
