Features

Golden symbols. In the main game a player can choose the number of symbols that can become golden and pay more than their standard versions (the number of these symbols can be from 1 to 5). Only high symbols can be golden. The choice of more than 1 Golden symbol

gives a possibility to get a jackpot round. The increase of the number of Golden symbols increases the bet.

Wild symbol. Substitutes for any symbol except Scatter. Appears on reels 2, 3, 4. In case the number of Golden symbols chosen by a player is 2 or more Wild symbols with coins start to appear on the reels. Every time a Wild with a coin appears it adds a coin to the progress bar.

Jackpot. There are four types of jackpots depending on the number of chosen gold symbols: mini jackpot (2 symbols), minor jackpot (3 symbols), major jackpot (4 symbols), grand jackpot (5 symbols).

Jackpot round. After 12 coins are collected in the progress bar every next coin can activate a jackpot round. In this round 12 coins appear on the screen. A player chooses a coin, it spins around and becomes a coin of one of the available jackpots. As soon as the player gets 3 coins of one jackpot this way, he/she wins this jackpot. There is an autopick option - the coins are opened themselves until the jackpot is won. The option can be activated at any moment of the round.

Scatter symbol. Can appear on any reel. Pays on any position according to the paytable. 3 and more Scatters in the main game trigger the Free Spins round.

Free Spins. The round consists of 10 spins. If 3 and more Scatters drop during the round the player gets 10 additional Free Spins. The maximum number of Free Spins during a round is 300. During the Free Spins round only High symbols, Scatters and Wild symbols can appear.

Buy Bonus. A player can buy a Free Spins round with a particular number of Golden symbols. After buying the next spin will draw 3 and more Scatters to the reels.
