Features

Wild symbol substitutes any symbol in a line to complete a winning combination. It can drop on the central reel only. Wild symbols trigger the Respin Bonus.

Respin Bonus triggers if the Wild symbol drops on the central reel and completes the winning combination. 27 pay lines are available during the Respin Bonus. The feature provides from 1 to 6 free respins increasing multiplier with every new respin: from x2 to x7. Symbols that complete winning combinations during Respin Bonus stay on the reels until the end of the free respin series. Symbols that don't complete winning combinations disappear for the next free respin.

Respins stop triggering if:

- there are no new winning combinations on the reels,
- there are no spaces for new symbols on the reels because all of them are filled with sticky symbols.

Respin Bonus round is played at the same bet as the round activating these spins.

Risk Game

If a player wins in the main game, the Risk Game becomes available. To enter the gambling room, click the Gamble button that appears next to the Spin button. Five cards will appear on the screen. The face-up card is the dealer's card. A player should choose 1 of 4 of the face-down cards. If the chosen card is higher than the dealer's one, the player wins. The current win is the stake for the Risk Game.

- The deck includes 54 cards. There are 2 jokers in the deck.

- Joker beats any card. Jokers can drop for players only.
- If the player beats the dealer the winning doubles. A player can collect your winning amount or risk to increase it again. It's possible to double the winning up to 10 times. To collect your win and return to the main game, click on the cash-bag.
- If the player's and the dealer's cards are equal, there is a draw. The round of the risk game starts again.
- If a player loses, the gambling round will stop automatically and you will return to the main game.
