Features

Wild symbol substitutes for all symbols in the winning line, except Scatter and Disk symbols.

Free spins. 3 Scatter symbols on reels 1-3-5 in one spin in the main game trigger the Free Spins round. During the round all the symbols except low ones are present on the reels. The round consists of 8 spins. If during the round 3 Scatters appear on the reels, the feature is retriggered. A retrigger gives 8 spins. The number of retriggers is unlimited.

Disk Respin Feature. This is an additional game that involves only Disk symbols, the more a player collects - the greater will be the win. The feature is triggered by 6 or more Disk symbols appeared on the reels in a single spin in the main game or in Free Spins. The possible Disk symbol value can be x1, x2, x3, x4, x5, x6, x8, x10, x12, x15, x20 of the bet. The Disk symbols that triggered the feature stay on their positions until the end of the bonus game. If Disk symbols drop on the reel during the feature, the feature is retriggered. In this feature there is a Collect symbol. If it drops on the reels, it sums up the values of all the Disk symbols present on the screen. If the feature was triggered in the Free Spins round, after the end of all the spins within the feature the player is returned to the Free Spins round.

Mega Jackpot. In the Disk Respin Feature a player can win Mega Jackpot. It is won when all the cells are filled with Disk symbols. The Jackpot is equal to x1000 of the bet.

Multiplier feature. It is present in the Disk Respin feature. It is activated when a line or a column is filled with Disk symbols. After the end of a spin, if there is a line or a column filled with Disk symbols, a question sign appears next to it. After the end of all the spins a random multiplier (it can be x2, x3, x5, x7, x8, x10, x15, x20, x25, x50 and x100) appears in the figure, and it is applied to the sum of the values of the Disk symbols of this line/column.

Buy Bonus. There is a possibility to buy a bonus in the game: round of Free spins or Disk Respin Feature. A player can buy a bonus at the price pictured on the button. If the player changes the bet, the buy bonus price will be changed automatically. If the player changes the bet in the pop-up of the Buy Bonus feature, the bet in the main game is also changed automatically. The next spin after the purchase triggers the chosen bonus game. During the bonus round the button is deactivated. The Buy Bonus feature is disabled if the Chance x2.5 feature is active.

Chance x2.5 feature. There is a possibility to buy the Chance x2.5 feature in the game. It slightly increases the bet and gives the player more chances to hit Free spins or Disk Respin Feature. The Chance x2.5 feature is disabled if the Buy Bonus feature is active.
