Features

Wild symbol. Substitutes any symbol in a winning combination except Scatter symbol. Appears only on reels 2-5 and extra (top) reel. Wild symbols always double the win amount of the winning combination it participates in.

Refilling. After every spin winning combinations pay and all winning symbols disappear. The remaining symbols fall to the bottom of the screen, and the empty positions are replaced with new symbols coming from above. New symbols have the same size as the initial symbols of the spin. Refill will continue until no more winning combinations appear as a result of a Refill. All wins are added to the player's balance.

Scatter symbol. Can appear on any reels. 3 and more Scatter symbols trigger Free Spins.

Free Spins. 3 and more Scatter symbols trigger Free Spins round. Before the round starts a random number of Free Spins (from 5 to 15) and a multiplier (from x2 to x25) are determined for all the winning combinations during the round. If 3 and more Scatter symbols drop during Free Spins, the feature is retriggered. Every retrigger a random number of Free Spins and a random multiplier, the values of which are summed up with the current values, are awarded anew. The number of retriggers is unlimited. The winning limit in the Free Spins round is 6000x of the bet. When it is achieved, the round stops and the win is paid to the player.

Extra reel. The slot has an additional horizontal reel on top of the reels. It gives more ways and increases a chance to get a win. The reel is filled with symbols right-to-left in contrast to the main reels.

Buy Bonus. A player can buy Free Spins at the price pictured on the button. If a player changes the bet, the Buy Bonus price will be automatically changed. After buying the Bonus a random number of spins and a random multiplier for the round are determined. The feature is available only in the main game. The feature is deactivated if the feature "Chance x2" is active.

Chance x2. A player can buy a Chance x2 of Free Spins fallout at the price pictured on the button. If a player changes the bet, the purchase price will be changed automatically. The feature is deactivated if the feature "Buy Bonus" is active.
