

High-strength protection for interior jobsite surfaces

This versatile, reusable, multi-surface cover helps protect interior job-site surfaces from dust, debris, spills, foot traffic, and more.

Get the job covered™

Product features:

- **Excellent Slip Resistance** — Patented GripSpot™ technology offers great traction.
- **Absorbent** — Polyolefin construction helps protect against spills from paint, food, drinks, and more.
- **Strong** — High tensile and tear strength to help withstand busy foot traffic.
- **Reusable** — Heavy-duty design for multiple uses.
- **Versatile** — Suitable for temporary protection of interior wood, tile, hardwood, and more.

GripSpot™ technology provides an embossed surface to enhance traction.

SurfaceSafe™ offers excellent temporary protection over many interior workspace surfaces, including tile, hardwood, and more.
