Flexible Laboratory Systems

Innovative Designs

Ultimate Flexibility for Laboratories

Kewaunee's Alpha family of products is designed to meet the needs of the modern laboratory where flexibility and adjustability are essential. Alpha uses fixed modules and carts to support Worksurfaces, casework, shelving, carts, and accessories. Components allow for customization of each workstation. The Alpha system integrates with horizontal and vertical services including plumbing, power, and data. The Alpha family offers a complete offering of interchangeable components.

Modular Workstations

- Self-supporting tables
- Double-sided or single-sided
- Adjustable height workstations
- Integrated shelving systems
- Pre-plumbed services

Mobile Carts

- Convenient and mobile
- Available in standard lengths
- Large diameter, heavy duty casters or glides available
- Accepts many standard components

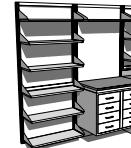

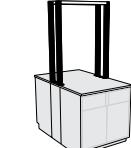

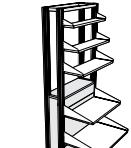

Service Carriers

- Ceiling Panels
- Overhead Service Enclosures
- Overhead Service Manifolds

Wall Hanging System

Features:

- Wall Hanging System provides support for a broad combination of accessories, including:
 - adjustable Worksurface frames
 - hanging cabinets — upper and lower
 - adjustable shelving
 - lighting
 - tackboards and markerboards
 - pegboards
- Double Slotted Vertical Uprights match uprights of Alpha modules allowing component interchangeability.
- Available full-height or may be used above floor mounted furniture.
- System design allows shelving to be suspended both above and below the Worksurface.
- Wall Hanging System provides support where no plumbing services are required.
- Vertical Uprights mount easily on 8 foot support rails at 6" intervals. Rails may be easily cut to required lengths.
- Available with easy to remove cover panels — either painted steel or fabric covered.

SEFA 10 | Class 2 – Configuration 1 – Category 1

Wall Hanging System Uprights & Rails

Specifications:

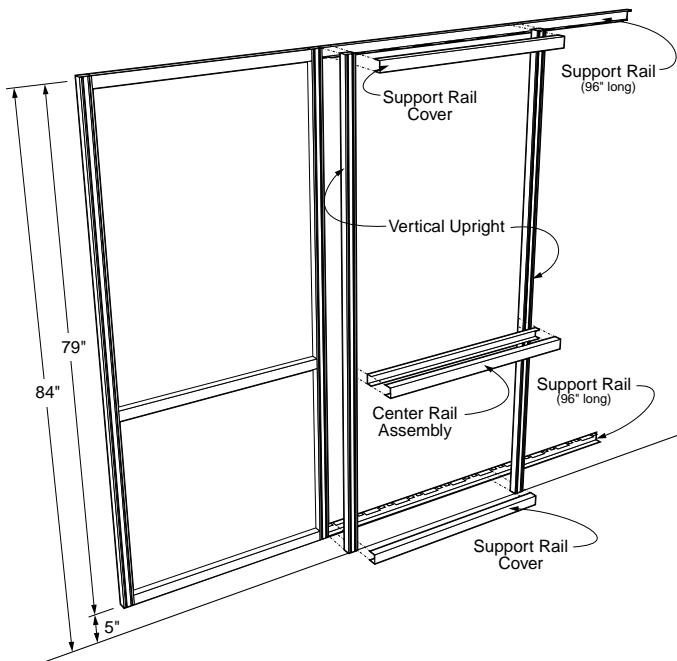

Vertical Uprights are 1/4" deep and either 79" or 42" high. They are manufactured with a double-slotted face with slots on 1" centers. They are designed to be mounted between two Support Rails to hold accurate spacing.

Support Rails are available in 8 foot lengths and may be cut to the required length. Support Rails are notched on 6" centers to accept the Vertical Uprights.

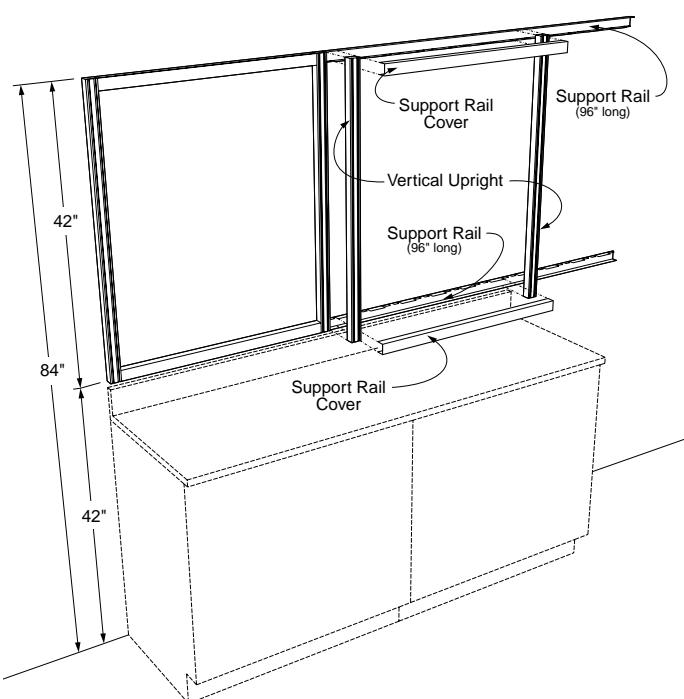

Support Rail Covers are required to finish the assembly and must be ordered in pairs to match the Vertical Upright spacing.

Optional Center Rails may be ordered to provide a horizontal member at counter top height. They should be sized to match the Vertical Upright spacing.

Wall Hanging System Cover Panels

Specifications:

Cover Panels are available in either painted steel or fabric covered cellulose board. They are designed to mount flush with the face of the Vertical Uprights to provide a smooth, even wall surface. Each panel is furnished complete with mounting brackets and hardware to allow it to easily snap into place without use of tools.

Cover Panels for the Full Height Wall Suspension System are separated into Upper and Lower Panels and require the Optional Center Rail Assembly. They may be used individually or as a pair. The Above Countertop Wall Suspension System uses a single Cover Panel. Size Cover Panels to match the Vertical Upright spacing.

Wall Hanging System Peninsula Modules

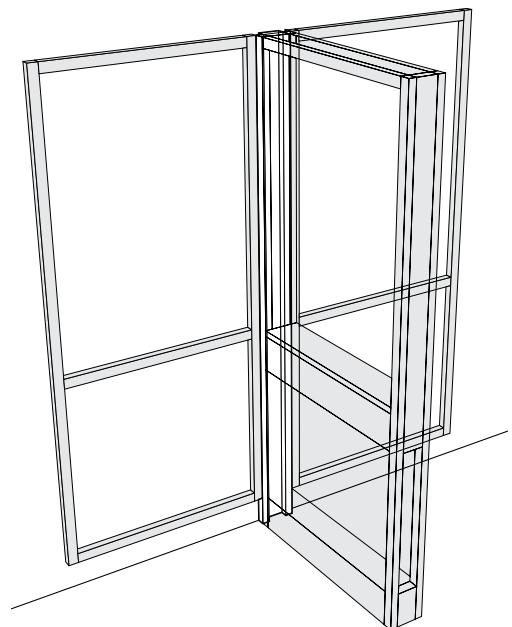

Specifications:

Peninsula Modules allow 6" and 12" Island Modules to be joined to the Wall Hanging System. They are available in three heights, 36", 46", or 84" to match the 6" and 12" Island Structural Modules. Peninsula Modules are formed from cold rolled steel and are finished to match the adjacent modules, uprights and rails.

12" Island Peninsula Module

6" Partition Peninsula Module

12" Peninsula Module

| Height | Part Number |
|--------|--------------------|
| 36" | F42M360112N |
| 46" | F42M460112N |
| 84" | F42M840112N |

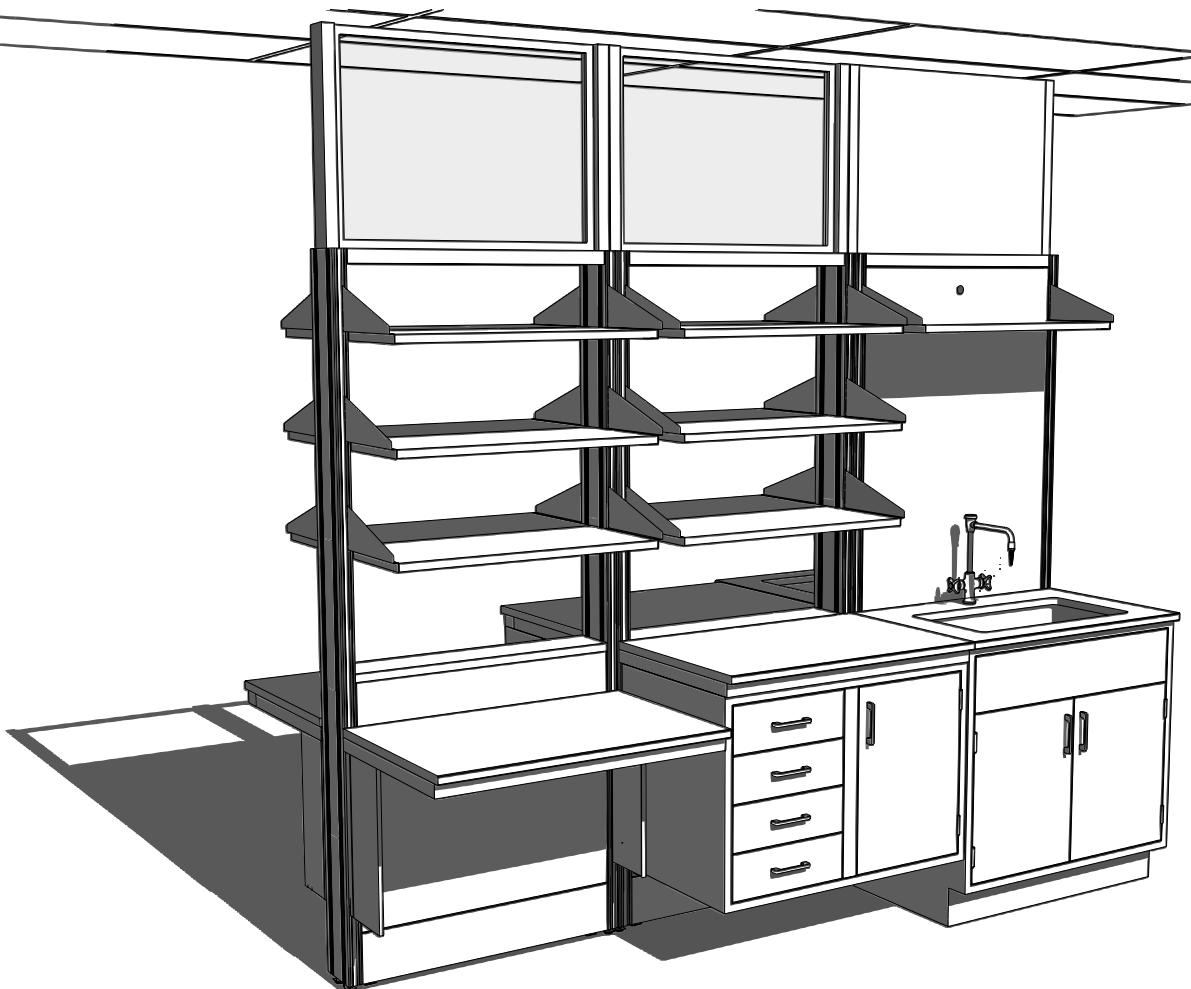

6" Peninsula Module

| Height | Part Number |
|--------|--------------------|
| 36" | F46M360106N |
| 46" | F46M460106N |
| 84" | F46M840106N |

6" Partition Modules

Features:

- 6" Partition Modules can be used as Island Modules, or as a Partition System
- 6" Partition Modules provide support for a wide combination of accessories, including:
 - adjustable Worksurface frames
 - adjustable tables
 - hanging cabinets — upper and lower
 - floor mounted cabinets
 - adjustable shelving
 - lighting
 - electrical and plumbing raceway
 - service drops
 - tack boards and marker boards
- 6" Partition Modules provide 3½" of service space and are built to receive standard pipe hangers for ease of installing service piping and electrical conduit.
- System design allows shelving to be suspended both above and below the Worksurface.
- Easy and positive structural alignment and attachment to adjacent modules.
- Available with easy to remove access panels. May be ordered without access panels for use with floor mounted base cabinets.

SEFA 10 | Class 5 – Configuration 2 – Category 2

6" Partition Modules

Specifications:

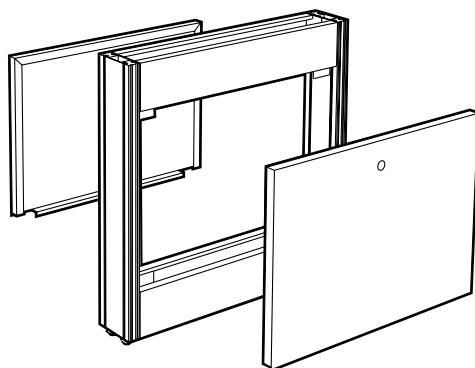

6" Partition Modules are 37" high, with Upper Carriers, 84" high. Both are 6" deep and available in lengths shown.

Modules are available with or without Access Panels. Order without when used with floor mounted base cabinets.

Each module is furnished with hardware for attaching adjacent modules.

Ceiling Support and Module Ledge must be ordered separately.

6" Partition Modules

Specifications:

Partition Modules with Paneled Upper Carrier are the same as standard Partition Modules; except, they are furnished with easy to remove panels to close off the area between the upper carrier uprights. They may be used as a service drop, to hide piping or tubing, or as a room divider.

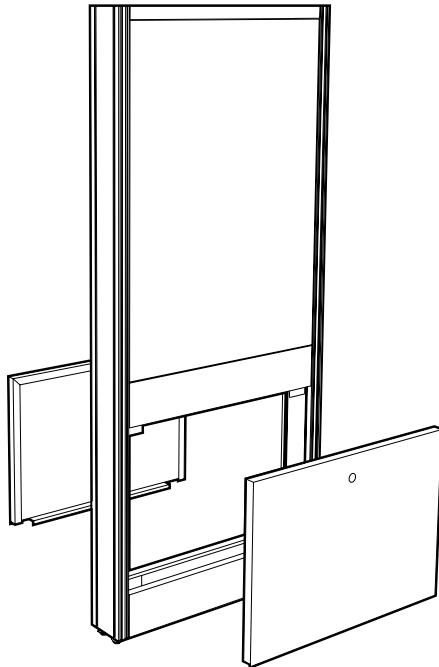

When ordered with electric cutouts, 24" and 30" long modules

have two single-gang electric box cutouts, all other sizes have three.

Each module furnished with hardware for attaching adjacent modules.

**Ceiling Support must be ordered separately.
Module Ledge is not required.**

6" Partition Modules

Specifications:

Service Riser Partition Modules with Paneled Upper Carrier are the same as standard Service Riser Partition Modules; except, they are furnished with easy to remove panels to close off the area between the upper carrier uprights. They may be used as a service drop, to hide piping or tubing, or as a room divider.

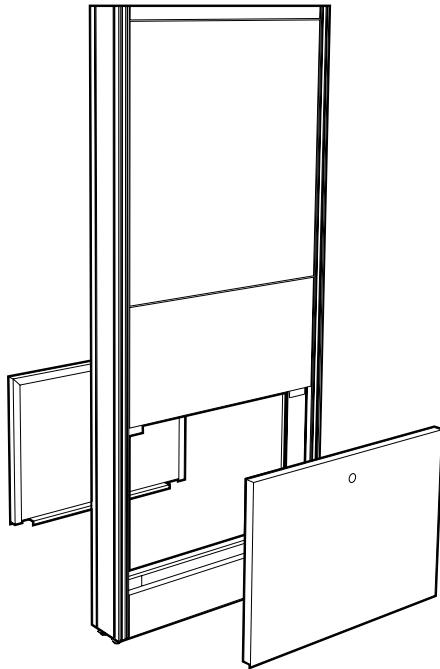

When ordered with electric cutouts, 24" and 30" long modules

have two single-gang electric box cutouts, all other sizes have three.

Each module furnished with hardware for attaching to adjacent modules.

Ceiling Support must be ordered separately.
Module Ledge is not required.

6" Partition Modules

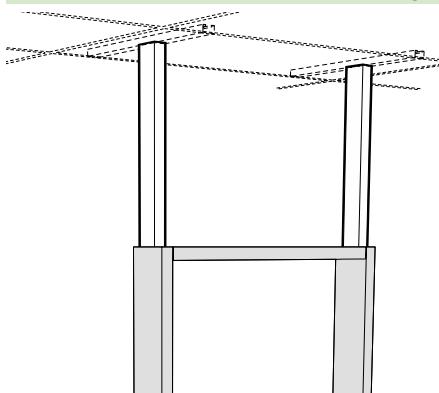

Specifications:

Partition Module Ceiling Supports consist of two cold rolled steel tube assemblies that telescope into the Partition Module Upper Carrier. They are designed to be fastened to channels (provided by others) attached to either the drop ceiling grid or to the roof supports.

Partition Module Ceiling Supports are required when the module is not adjacent to a fixed wall, or supported by a wing wall or fixed furniture.

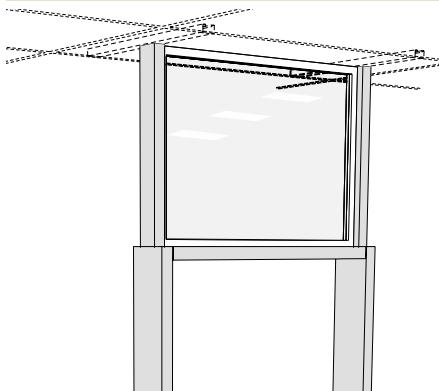

Ceiling Partitions are available to finish off the space between the Ceiling Supports above the Partition Module to form a continuous floor-to-ceiling divider. They are available in a number of heights and in either glass or with a solid steel panel. Solid partitions may be finished to match the Partition Module or in a contrasting color.

| 84" | F40M840606N |

Possible Alpha System Assembly configurations using 6" Corner Column Modules

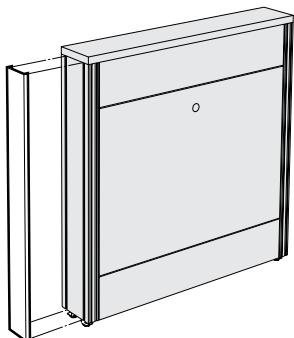

6" Partition Module End Filler

Specifications:

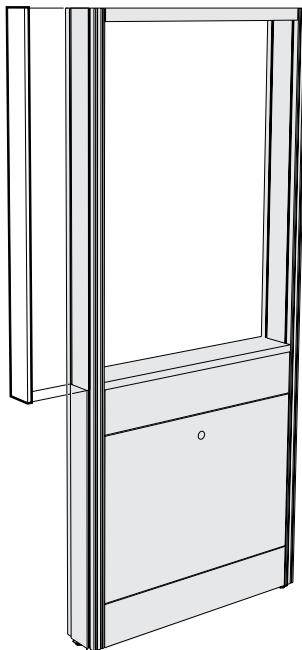

Partition Module End Fillers are designed to close off the end of Partition Modules to offer a more finished appearance. A single filler is used to finish Standard Partition Modules. Two fillers are used to finish Partition Modules with Paneled Upper Carriers.

Partition Module End Fillers are provided with all required installation hardware.

6" Deep Partition Module End Fillers

12" Island Structural Modules

Features:

- 12" Island Structural Modules provide support for a wide combination of accessories, including:
 - adjustable Worksurface frames
 - adjustable tables
 - hanging cabinets - upper and lower
 - floor mounted cabinets
 - adjustable shelving
 - lighting
 - electrical and plumbing raceway
 - service drops
 - tack boards and marker boards
 - pegboards
- 12" Island Structural Modules provide 6" of service space and are built to receive standard pipe hangers for ease of installing service piping and electrical conduit.
- System design allows shelving to be suspended both above and below the Worksurface.
- Easy and positive structural alignment and attachment to adjacent modules.
- Available with easy to remove access panels. May be ordered without access panels for use with floor mounted base cabinets.

SEFA 10 | Class 5 – Configuration 2 – Category 2

12" Island Structural Modules

Specifications:

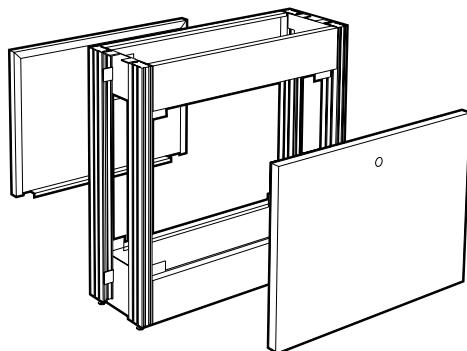

Island Modules are 37" high, with Upper Carriers, 84" high. Both are 12" deep and available in lengths shown.

Modules are available with or without Access Panels. Order without when used with floor mounted base cabinets.

Each module is furnished with hardware for attaching adjacent modules.

Module Ledge must be ordered separately.

The Horizontal Service Tunnel combines a 6" deep by 8" high steel enclosure with two G-3000 wire raceways to form a horizontal tunnel that can handle most laboratory service needs. The enclosure allows service fittings to be mounted on either side or on the bottom while providing a 6" x 5" area to run piping. The wire raceways are provided with either two or three 120 volt AC duplex receptacles on each side. The top is designed to be closed with a Module Core Shelf or by adding Service Tunnel Enclosure Panels.

Horizontal Service Tunnels are for use with 12" Island Module Upper Carriers only.

Module Core Shelf for use with Service Tunnels, Manifolds, and Wire Raceways

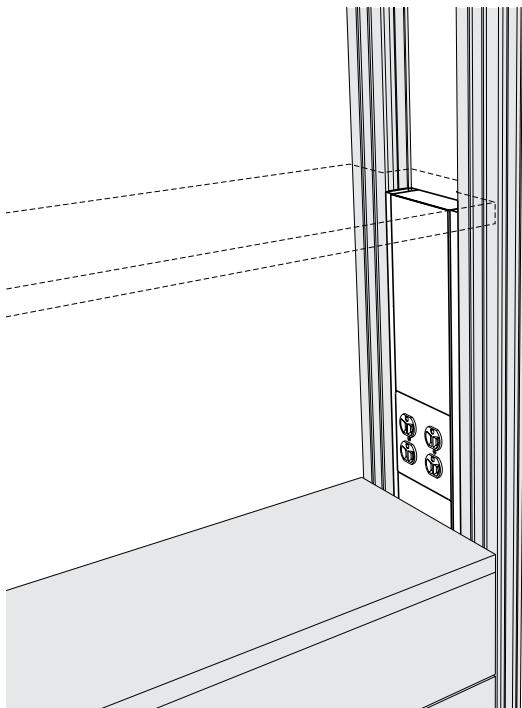

| Length | Part Number |
|--------|--------------------|
| 24" | F69M120124N |
| 30" | F69M120130N |
| 36" | F69M120136N |
| 42" | F69M120142N |
| 48" | F69M120148N |
| 54" | F69M120154N |
| 60" | F69M120160N |
| 66" | F69M120166N |
| 72" | F69M120172N |

The Module Core Shelf may be used to close the top of a Horizontal Service Tunnel or be mounted on top of 18" high Vertical Wire Raceways or Vertical Service Manifolds. They are formed of 16 gauge cold rolled steel and are available in all module lengths.

Vertical Service Distribution

Vertical Wire Raceway

| Height | Part Number | Duplex Outlets |
|--------|--------------------|----------------|
| 18" | F43M180212N | 2 |
| 38" | F43M380212N | 4 |
| 48" | F43M480212N | 4 |

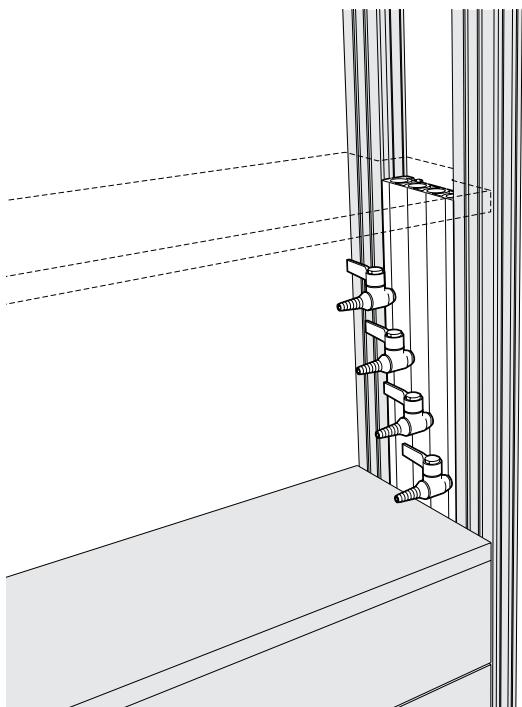

The Vertical Wire Raceway uses a G-4000 wire raceway to form an assembly that snaps into place between the uprights of Island Upper Carriers. The raceway is furnished with 120 volt AC duplex receptacles and is designed to connect to power from below.

Vertical Wire Raceways are available in three heights, 18" for use below a Module Core Shelf (as shown), 48" to run full height on a standard Upper Carrier and 38" for use with a Service Riser Upper Carrier.

The raceway may be divided to form two separate compartments to allow running power and communications cabling in the same assembly.

Vertical Wire Raceways are for use with 12" Island Module Upper Carriers only.

Vertical Service Manifold

| Height | Part Number | Service Outlets |
|--------|--------------------|-----------------|
| 18" | F77M060218F | 4 |
| 18" | F77M060218N | 0 - No Outlets |

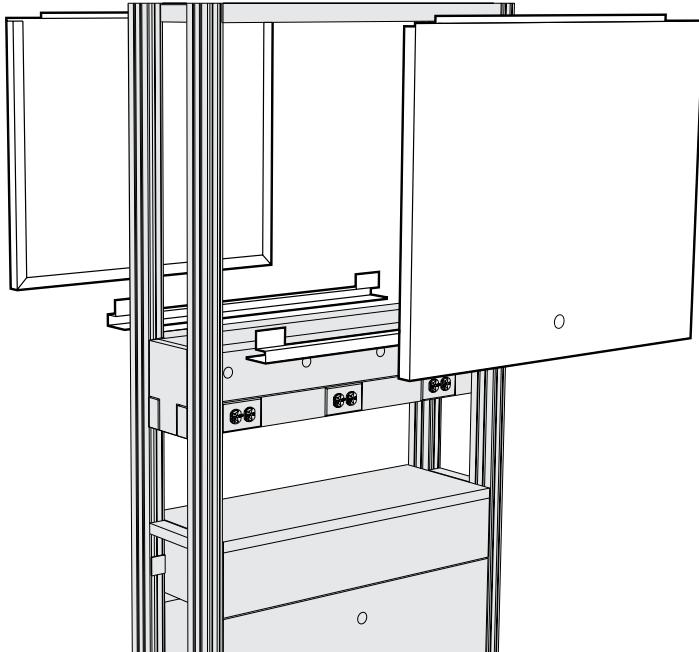

The Vertical Service Manifold is a one piece extruded aluminum assembly, designed to carry up to four separate services, that slides into place between the uprights of 12" Island Upper Carriers. It is furnished complete with four Laboratory Ball Valves. Services may be piped from either above or below. (Specify services required)

Vertical Service Manifolds are available in other lengths and configurations. Contact your Kewaunee sales representative for further information.

The Vertical Service Manifold is designed for use with 12" Island Module Upper Carriers only.

Enclosure Panels

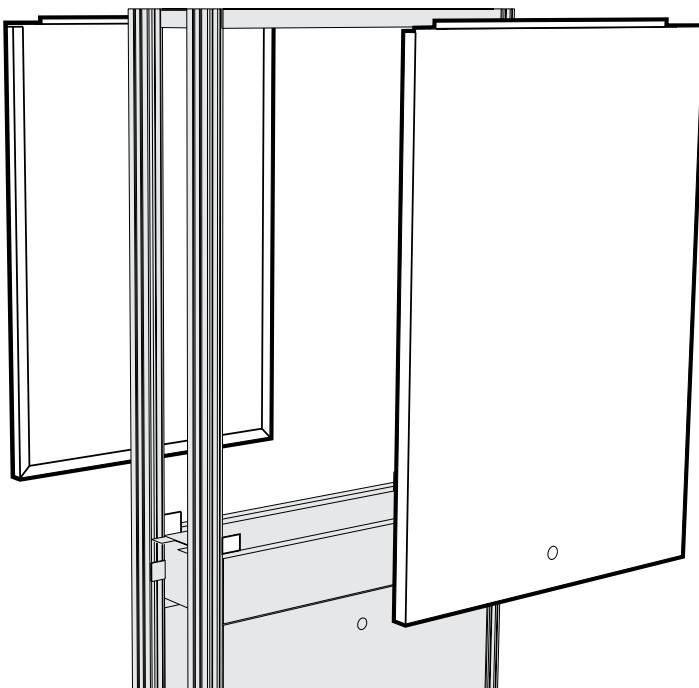

Upper Carrier Service Tunnel Enclosure Panels

| Length | Part Number |
|--------|--------------------|
| 24" | F78M300224N |
| 30" | F78M300230N |
| 36" | F78M300236N |
| 42" | F78M300242N |
| 48" | F78M300248N |
| 54" | F78M300254N |
| 60" | F78M300260N |
| 66" | F78M300266N |
| 72" | F78M300272N |

Service Tunnel Panels enclose sides of the Upper Carrier above a Horizontal Service Tunnel to hide piping and wiring. Panels are fabricated of cold rolled steel. All necessary hardware is included.

Upper Carrier Enclosure Panels

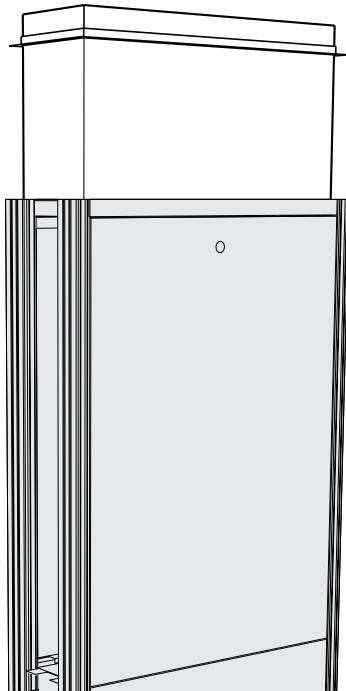

| Length | Standard | Service Riser |
|--------|--------------------|--------------------|
| 24" | F78M480224N | F78M380224N |
| 30" | F78M480230N | F78M380230N |
| 36" | F78M480236N | F78M380236N |
| 42" | F78M480242N | F78M380242N |
| 48" | F78M480248N | F78M380248N |
| 54" | F78M480254N | F78M380254N |
| 60" | F78M480260N | F78M380260N |
| 66" | F78M480266N | F78M380266N |
| 72" | F78M480272N | F78M380272N |

Upper Carrier Enclosure Panels may be used to convert an open Upper Carrier to Paneled Upper Carrier. Panels are fabricated of cold rolled steel. All necessary hardware is included.

Designed to fit inside the top frame on the Module Upper Carrier and hide piping, conduit and wiring routed from the ceiling. Fabricated of cold rolled steel panels. Furnished complete with angles for ceiling attachment.

Note: Field modification of Module Top Frame is required to accommodate service piping.

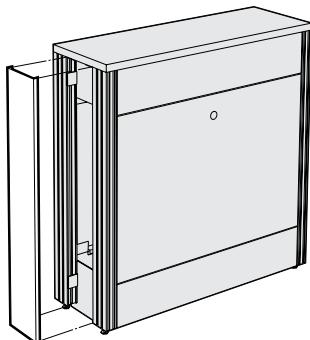

12" Island Structural Module Fillers

Specifications:

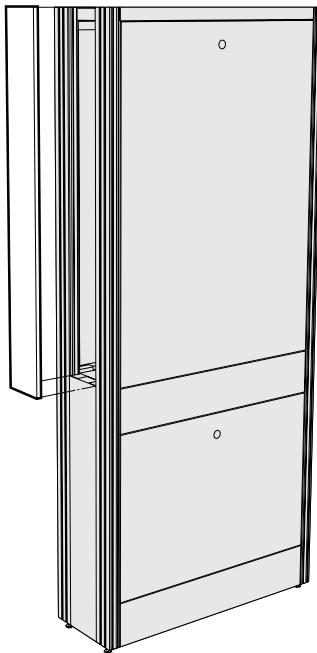

Island Module End Fillers are designed to close off the end of Island Modules to offer a more finished appearance. They are available in a variety of sizes that may be combined to cover the entire end of the assembly or just a portion.

Island Module End Fillers are provided with all required installation hardware.

12" Deep Island Module End Fillers

| Height | Lower Filler |
|--------|--------------------|
| 35" | F00M360112N |
| 45" | F00M460112N |

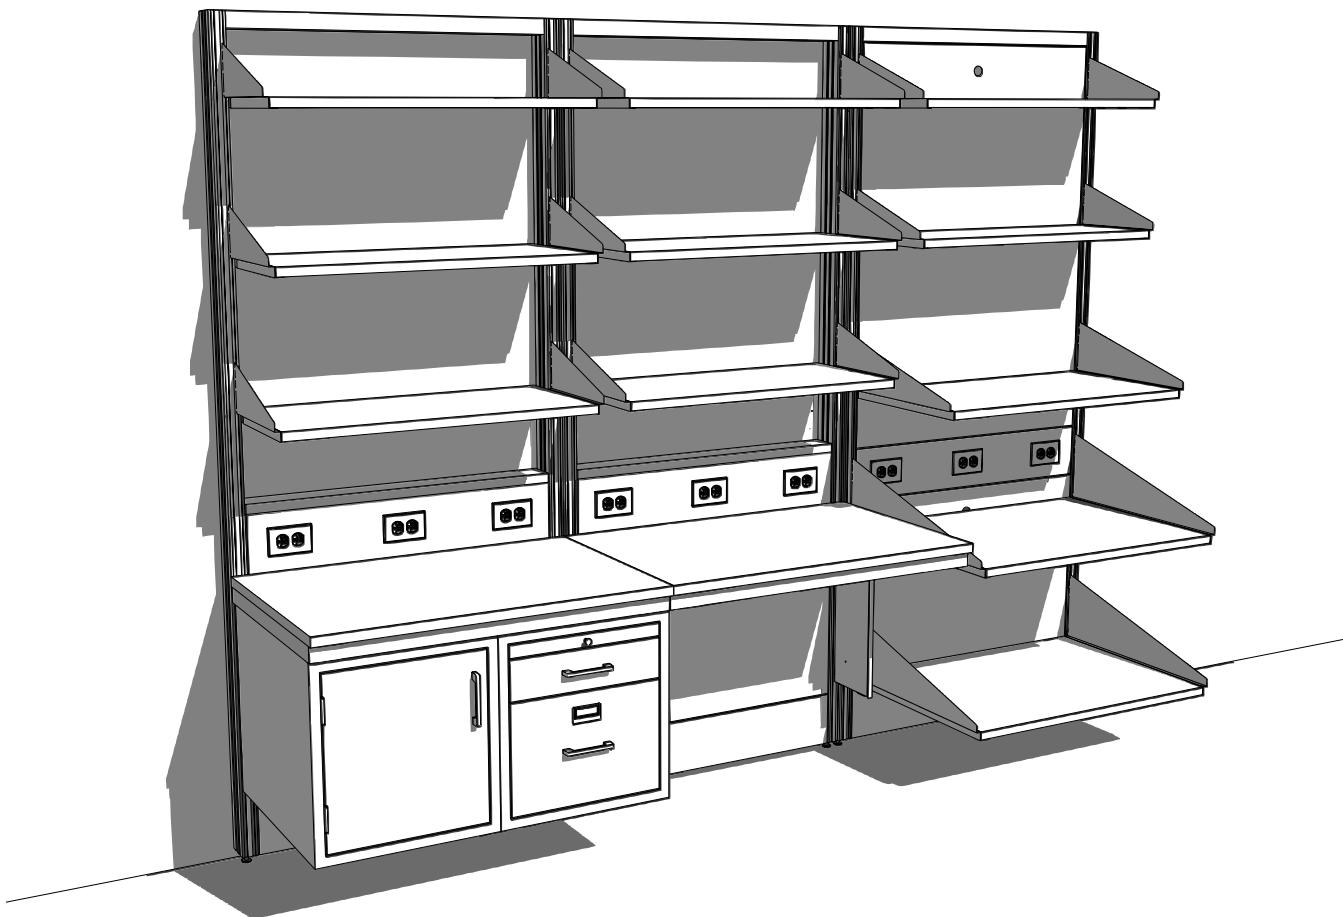

| Height | Upper Filler |
|--------|--------------------|
| 24" | F00M240112N |
| 30" | F00M300112N |
| 38" | F00M380112N |
| 48" | F00M480112N |

3" Wall Structural Modules

Features:

- 3" Wall Structural Modules provide support for a broad combination of accessories, including:
 - adjustable Worksurface frames
 - adjustable tables
 - hanging cabinets - upper and lower
 - floor mounted cabinets
 - adjustable shelving
 - lighting
 - electrical raceway
 - electrical drops
 - tackboards and markerboards
 - pegboards
- 3" Wall Structural Modules provide support where no plumbing services are required.
- System design allows shelving to be suspended both above and below the Worksurface.
- Easy and positive structural alignment and attachment to adjacent modules.
- Available with easy to remove access panels. May be ordered without access panels for use with floor mounted base cabinets.
- Provided with floor mounting bracket and anchors.

SEFA 10 | Class 5 – Configuration 1 – Category 2

3" Wall Structural Modules

Specifications:

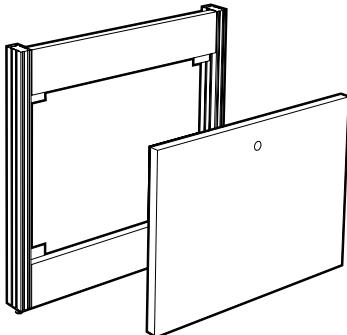

3" Wall Modules are 37" high, with Upper Carrier, 84" high. Both are 3" deep and available in lengths shown.

Modules are available with or without Access Panels. Order without when used with floor mounted base cabinets.

Each module is furnished with hardware for attaching adjacent modules. Wall anchors are not included.

Module Ledge must be ordered separately.

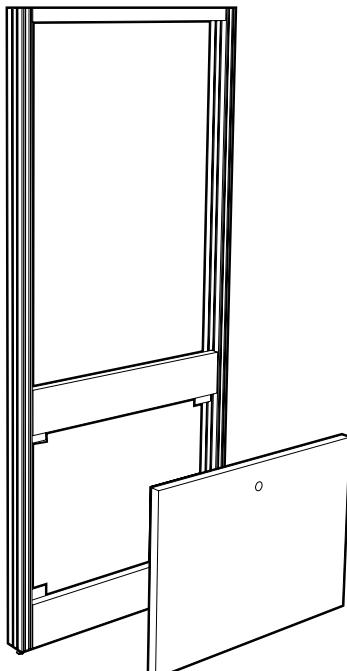

3" Deep Standard Wall Module – 37" High

| Length | with Access Panel | without Access Panel |

| 72" | F32M370372N * | F32N370372N |

* Modules 48" long and over are provided with two half-length Access Panels.

3" Wall Structural Modules

Specifications:

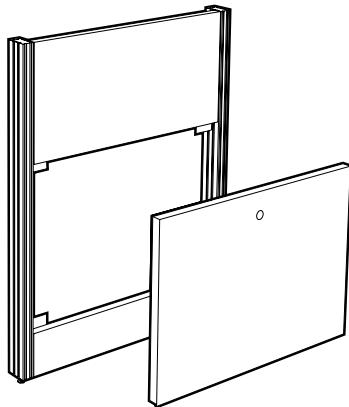

Service Riser Wall Modules are 47" high, with Upper Carrier, 84" high. Both are 3" deep and in lengths shown.

Modules are available with or without Access Panels. Order without when used with floor mounted base cabinets.

Each module furnished with hardware for attaching adjacent modules. Wall anchors are not included.

Module Ledge must be ordered separately.

* Modules 48" long and over are provided with half-length removable panels.

Fixed Cabinetry Attachment

Specifications:

The Fixed Furniture Attachment Kit allows Wall or Island Structural Modules to be solidly fastened to Floor Mounted Base Cabinets. This assembly provides support for the Structural Module and Upper Carrier when it is impractical or undesirable to anchor the Structural Module to the wall or floor.

The kit includes bracing, a pair of steel filler panels, and attachment hardware.

Kit for Attaching Fixed Furniture to Structural Modules

Kit for 30" Deep Worksurface Tops

| Height | Part Number |
|--------|--------------------|
| 31" | F09M310207N |
| 37" | F09M370207N |

Kit for 24" Deep Worksurface Tops

| Height | Part Number |
|--------|--------------------|
| 31" | F09M310201N |
| 37" | F09M370201N |

9" Wall Structural Modules

Features:

- 9" Wall Structural Modules provide support for a wide combination of accessories, including:
 - adjustable Worksurface frames
 - adjustable tables
 - hanging cabinets - upper and lower
 - floor mounted cabinets
 - adjustable shelving
 - lighting
 - electrical and plumbing raceway
 - service drops
 - tackboards and markerboards
 - pegboards
- 9" Wall Structural Modules provide 6" of service space and are built to receive standard pipe hangers for ease of installing service piping and electrical conduit.
- System design allows shelving to be suspended both above and below the Worksurface.
- Easy and positive structural alignment and attachment to adjacent modules.
- Available with easy to remove access panels. May be ordered without access panels for use with floor mounted base cabinets.

SEFA 10 | Class 4 – Configuration 1 – Category 2

9" Wall Structural Modules

Specifications:

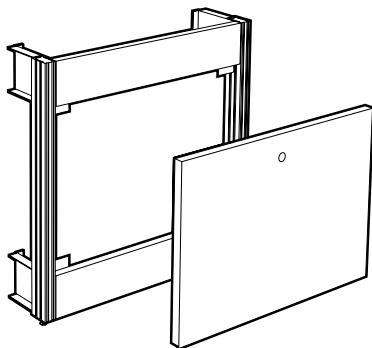

9" Wall Modules are 37" high, with Upper Carrier, 84" high. Both are 9" deep and available in lengths shown.

Modules are available with or without Access Panels. Order without when used with floor mounted base cabinets.

Each module is furnished with hardware for attaching adjacent modules. Wall anchors are not included.

Module Ledge must be ordered separately.

Add-On Fixed Furniture Upper Carriers

Specifications:

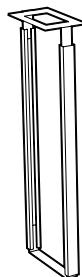

Add-on Fixed Furniture Upper Carriers are designed to add Upper Carriers to existing floor mounted center benches. Each assembly consists of upright extensions and a top frame. They are 12" deep with four upright extensions.

Each assembly is furnished with mounting brackets but no fastener. Fasteners must be furnished in field depending on top material.

Upper Carrier Support Struts are especially designed to provide added support to the upper carriers while allowing space for connection of plumbing or electrical connections.

Corner & Peninsula Column Modules

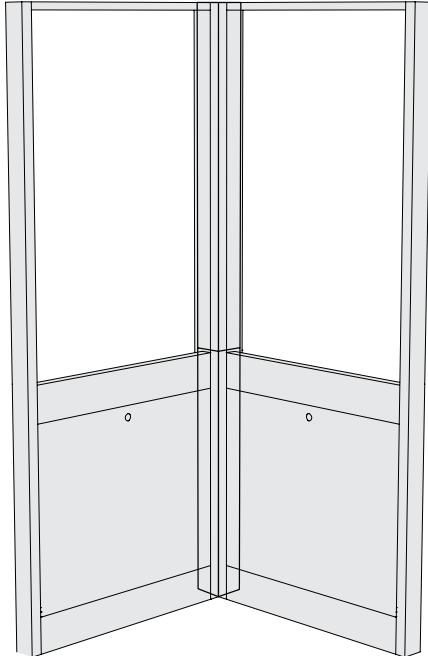

Specifications:

Corner and Peninsula Column Modules allow multiple configurations of Island and Wall Structural Modules to form a variety of assemblies. In addition they may be used as a plumbing or electrical drop.

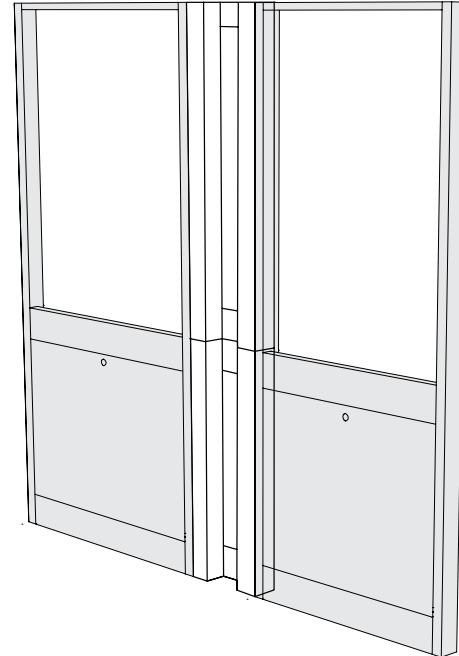

The Column Modules are available in heights to match the Structural Modules. Each module is furnished with removable access panels and attachment hardware.

Module Ledge must be ordered separately.

Possible Alpha System Assembly configurations using Island Corner Column Modules

Shelving - Worksurface & Table Frames

Features:

- Adjustable Module Shelving
 - available in five depths
 - available in steel, wood, and phenolic resin
 - available with and without retaining lips
 - adjustable on 1" increments
 - may be mounted above or below Worksurface frames
- Adjustable Core Shelving
 - infinitely height adjustable
 - available in steel only
- Adjustable Height Cantilevered Worksurface Frame
 - supports Worksurface Top and Suspended Base Cabinets
 - fabricated of 1 $\frac{5}{8}$ " steel channels
 - easily positioned on 1" increments
- Adjustable Height Mobile Table Frame

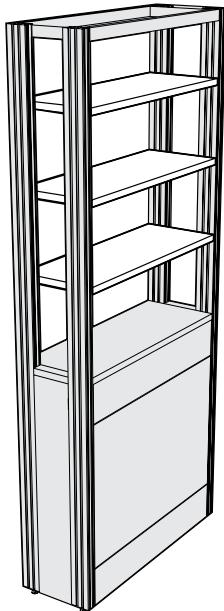

Adjustable Module Shelving

Specifications:

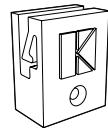

Upper Carrier Module Adjustable Core Shelves are formed of 16 gauge cold rolled steel. They are supported by four Support Clips that engage the side slots on the Module Uprights making the shelves infinitely adjustable. Available for 12" Island Module Upper Carriers only.

Adjustable Top Shelves are formed of 16 gauge cold rolled steel and are supported from below by 11 gauge steel brackets that engage the outer slot of the double slotted Structure Module Upright. Designed to be used at the top of the Module Upper Carrier.

To specify Veneer Plywood Species replace blank at end of part number with number that indicates material required.

Veneer Plywood Material Options

| | | |
|-----------------|----------------------|------------------------|
| 1 = Red Oak | 5 = FSC® Red Oak | 7 = Steamed Beech |
| 2 = White Maple | 6 = FSC® White Maple | 8 = FSC® Steamed Beech |

Adjustable Module Shelf Assembly

Specifications:

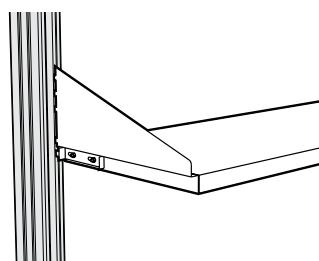

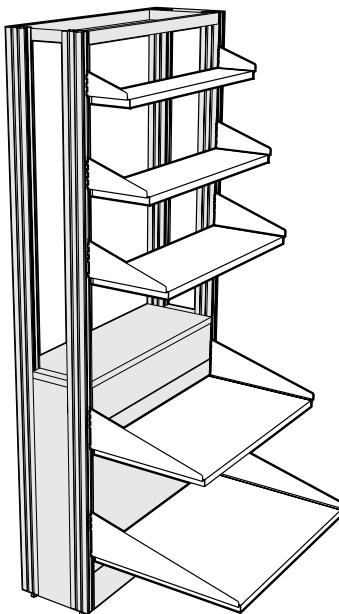

Adjustable Module Shelf Assemblies consist of a pair of 11 gauge steel Shelf Brackets and a Shelf. The Shelf Bracket engages the inner slot of the double slotted Structural Module Upright and is adjustable on 1" centers. Shelves are available in Painted Steel, Veneer Plywood, or Phenolic Resin.

Painted Steel Shelves - 1" thick, formed from 16 gauge cold rolled steel.

Veneer Plywood Shelves - 1" thick hardwood plywood with matching veneer on all exposed surfaces.

Phenolic Resin - 1" thick black phenolic resin.

Open Front Adjustable Module Shelves

Optional Shelf Locking Tab

Sliding tab mounted on Shelf Bracket locks Shelf into Module Upright to keep it from being accidentally removed.

To specify, add an **-K** to the end of the Shelf Assembly part number.

Example: **F21M051236N-K**

Adjustable Pass-thru Shelf Assemblies

Specifications:

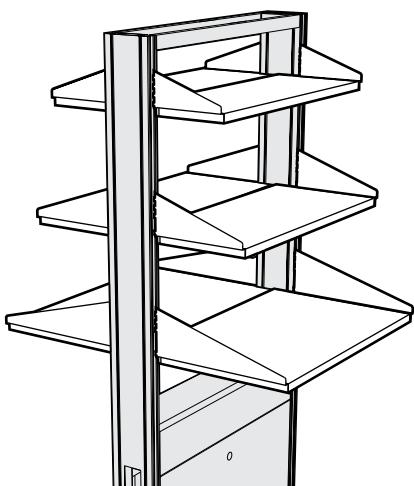

Pass-thru Module Shelf Assemblies for 6" Partition Modules have Shelves three inches deeper than the Shelf Bracket to allow the shelf to pass through the module core and form a continuous surface. These shelves may also be moved forward and mounted to form a 2" cord gap between the shelves. Shelf Brackets are 11 gauge steel, adjustable on 1" centers.

Painted Steel Shelves - 1" thick, formed from 16 gauge cold rolled steel.

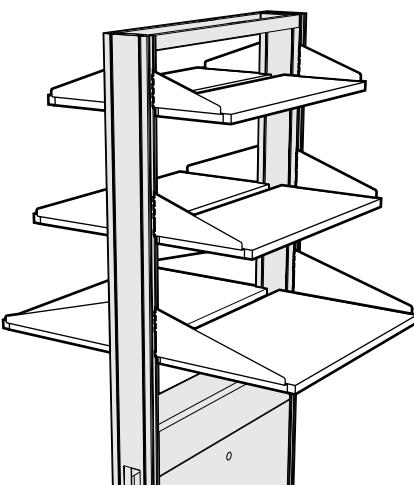

Veneer Plywood Shelves - 1" thick hardwood plywood with matching veneer on all exposed surfaces.

Phenolic Resin - 1" thick black phenolic resin.

Shelves Retaining Lips & Light Fixtures

Specifications:

Shelf Retaining Lips are designed to be added to Adjustable Core Shelves, Module Shelves, Adjustable Module Shelf Assemblies, and Adjustable Pass-Thru Shelf Assemblies. Steel Shelf Lips may be mounted to steel, wood or phenolic resin shelves with supplied screws. Lips are 1½" in height

Under Cabinet Light Fixtures are thin-profile, specification grade, with white, painted steel housing, 1" high by 3½" deep in lengths shown. UL listed and furnished with rocker switch, single outlet, lamp, and six foot cord.

Shelf Retaining Lips

Designed to be added to Adjustable Core Shelves, Module Shelves, Adjustable Module Shelf Assemblies, and Adjustable Pass-Thru Shelf Assemblies. Steel Shelf Lips may be mounted to steel, wood or phenolic resin shelves with supplied screws.

Designed to be used with Adjustable Module Shelving Assemblies to create wall mounted shelving.

Adjustable Height Worksurface Frames

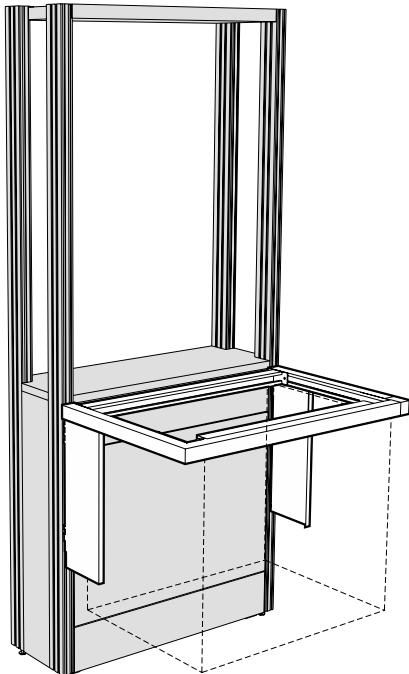

Specifications:

Adjustable Height Cantilevered Worksurface Frames engage the outer slot of the double slotted Structural Module Upright and adjusts in height on 1" increments. Fabricated from steel channels and an 11 gauge steel hanging bracket.

The Optional Adjustable Height Support Legs may be added to any Worksurface Frame to add strength. Fabricated from aluminum tubing with an adjustable glide at the bottom of the leg, they may be added or removed as required

Worksurface Top must be ordered separately.

Adjustable Height Cantilevered Worksurface Frame - 23 $\frac{1}{4}$ " Deep

| Length | 23 $\frac{1}{4}$ " Deep Frame |

Adjustable Height Worksurface Frames

Specifications:

Adjustable Height Cantilevered Corner Worksurface Frame, same as standard Worksurface Frame except designed to be used when two Structural Modules meet to form an inside corner. Frame supports Worksurface Top and can also support a Suspended Cabinet mounted 45 degrees to the module.

Worksurface Top must be ordered separately.

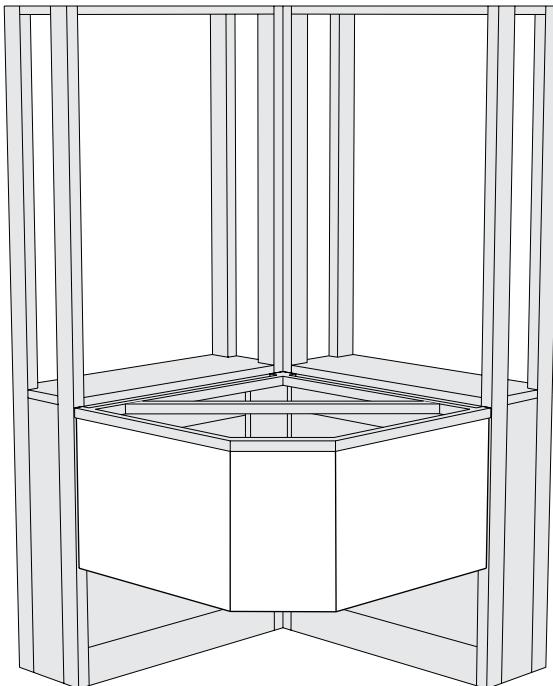

The Corner Worksurface Frame Filler may be used to fill the space below the Corner Worksurface Frame when a suspended base cabinet is not used. The filler is fabricated from cold rolled steel and is finished to match the frame.

Worksurface & Module Tops

Features:

- Module Ledges and Worksurface Tops available in three laboratory proven materials:
 - Kewaunee Kemresin®
 - Phenolic Resin
- Module Ledges and Worksurface Tops available in all Module and Worksurface Frame sizes.
- Modular Worksurface Tops available with 1" wide "Cord Gaps".
- Custom cutout and fixture hole arrangements available.
- Custom Worksurface Top sizes and styles available.

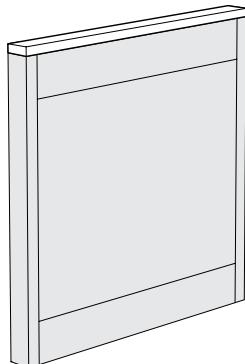

Module Ledges

Specifications:

Module Ledges are required to cover the open top of Wall and Island Structural Modules. They are 1" thick with all edges finished square and are most commonly ordered in the same material and color as the Worksurface Tops, but it is not required.

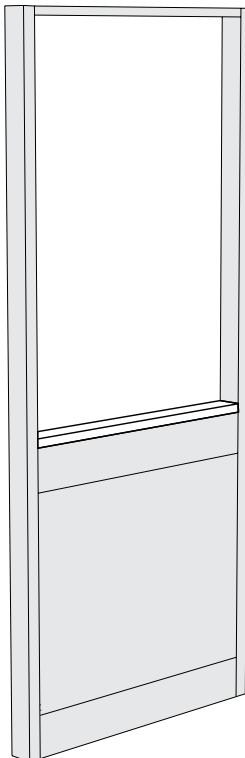

F92 Module Ledges are designed for use on Modules without Upper Carriers and match the Module length. **F90** Module Ledges are for use on Modules with Upper Carriers, and are 3¼" less in length than the Module.

3" Deep Module Ledges for 37" & 47" High Wall Modules

| Length | Kemresin® | Phenolic Resin |
|--------|--------------------|--------------------|
| 24" | F92R010324N | F92T010324N |
| 30" | F92R010330N | F92T010330N |
| 36" | F92R010336N | F92T010336N |
| 42" | F92R010342N | F92T010342N |
| 48" | F92R010348N | F92T010348N |
| 54" | F92R010354N | F92T010354N |
| 60" | F92R010360N | F92T010360N |
| 66" | F92R010366N | F92T010366N |
| 72" | F92R010372N | F92T010372N |

3" Deep Module Ledges for 84" High Wall Modules with Upper Carriers

| Length | Kemresin® | Phenolic Resin |
|--------|--------------------|--------------------|
| 24" | F90R010324N | F90T010324N |
| 30" | F90R010330N | F90T010330N |

| 42" | F90R010342N | F90T010342N |
| 48" | F90R010348N | F90T010348N |
| 54" | F90R010354N | F90T010354N |
| 60" | F90R010360N | F90T010360N |
| 66" | F90R010366N | F90T010366N |
| 72" | F90R010372N | F90T010372N |

Color Option Code

Kemresin

BK = Black **GR** = Grey **PT**=Putty **SL** = Slate

Kemresin is available in four standard colors. To specify Kemresin color, place a dash and the two-letter code at the end of the part number.

Example: F92R010324N-BK for Black

If no color is specified, Kemresin will be furnished in Black.

Phenolic Resin

Phenolic Resin is furnished in Black standard.

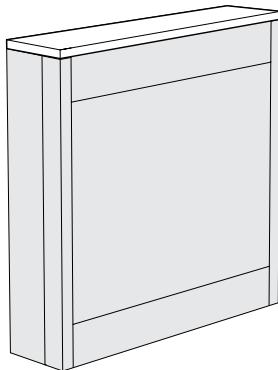

Module Ledges

Specifications:

Module Ledges are required to cover the open top of Wall and Island Structural Modules. They are 1" thick with all edges finished square and are most commonly ordered in the same material and color as the Worksurface Tops, but it is not required.

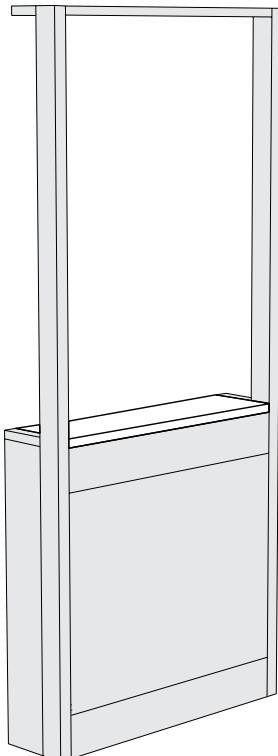

F92 Module Ledges are designed for use on Modules without Upper Carriers and match the Module length. **F90** Module Ledges are for use on Modules with Upper Carriers, and are 3¼" less in length than the Module.

9" Deep Module Ledges for 37" & 47" High Wall Modules

| Length | Kemresin® | Phenolic Resin |

Kemresin is available in four standard colors. To specify Kemresin color, place a dash and the two-letter code at the end of the part number.

Example: F92R011224N-BK for Black

If no color is specified, Kemresin will be furnished in Black.

Phenolic Resin

Phenolic Resin is furnished in Black standard.

Module Ledges

Specifications:

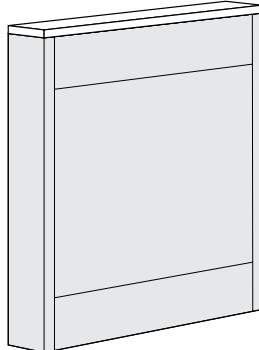

Module Ledges are required to cover the open top of Wall and Island Structural Modules. They are most commonly ordered in the same material and color as the Worksurface Tops, but it is not required.

Module Ledges are 1" thick with all edges finished square. They should be ordered to match the module size on which they

are to be used. The actual ledge is 3 1/4" less in length than the module. The remaining space is covered by the Module End Caps and/or Upper Carrier Uprights which are supplied with the Structural Module.

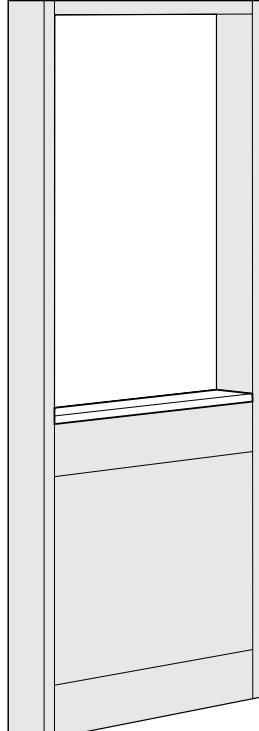

Additional Module End Caps may be purchased for future reconfiguring, but they are not required.

6" Deep Module Ledge for 37" & 47" High Partition Modules

| Length | Kemresin® | Phenolic Resin |
|--------|--------------------|--------------------|
| 24" | F92R010624N | F92T010624N |
| 30" | F92R010630N | F92T010630N |
| 36" | F92R010636N | F92T010636N |

| 12" x 12" | F90R011212N | F90T011212N |

Color Option Code

Kemresin

BK = Black **GR** = Grey **PT**=Putty **SL** = Slate

Kemresin is available in four standard colors. To specify Kemresin color, place a dash and the two-letter code at the end of the part number.

Example: F92R010624N-BK for Black

If no color is specified, Kemresin will be furnished in Black.

Phenolic Resin

Phenolic Resin is furnished in Black standard.

Worksurface Tops

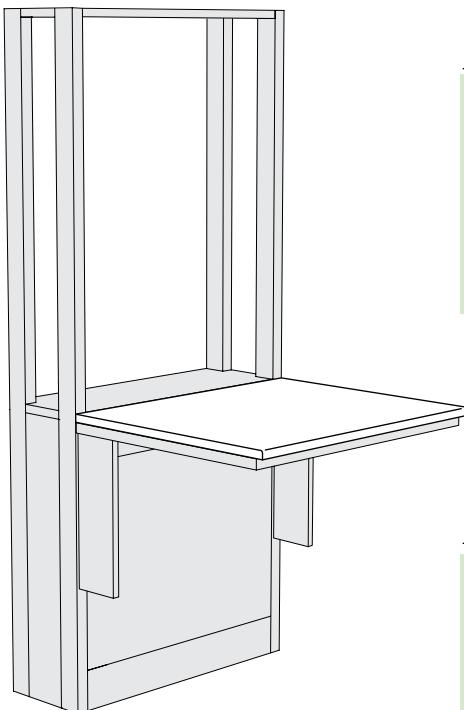

Specifications:

Worksurface Tops are available in modular sizes to match the length and depth of the Worksurface Frames. They are also available in depths 1" less than the Worksurface Frames to create a "Cord Gap" behind the top. This gap allows cords, cables and flexible tubing to be routed below the Worksurface, and out of the way of ongoing work.

Worksurface Tops are 1" thick. Front edges are treated as shown on page 70. All other edges are finished square.

When Worksurface Tops spanning more than one frame are desired or when cutouts are required, custom tops are available. See page 71 and 72 for more information.

Modular Worksurface Tops

| Length | Kemresin® | Phenolic Resin |
|--------|--------------------|--------------------|
| 24" | F95R012424N | F95T012424N |
| 30" | F95R012430N | F95T012430N |

Kemresin is available in four standard colors. To specify Kemresin color, place a dash and the two-letter code at the end of the part number.

Example: F96R012336N-BK for Black

If no color is specified, Kemresin will be furnished in Black.

Phenolic Resin

Phenolic Resin is furnished in Black standard.

Worktop and Ledge Materials

Specifications:

Worksurface Top and Ledge material selections are among the most critical of the laboratory furniture decisions. The intended applications of your worktops dictate material choice. Surfaces could be exposed to reagents and caustic substances. Heavy equipment may need to be supported or only light duty tasks may be performed.

Kewaunee offers three basic worktop materials for use on the Alpha System. They are Kewaunee's exclusive Kemresin® and Phenolic Resin. All are available in standard sizes to match the Alpha System modules and are complimented with appropriate sinks, drains and accessories.

Worktop and Ledge Material Comparison

| MATERIAL | APPEARANCE | COMPOSITION | CHEMICAL RESISTANCE | APPLICATIONS |
|----------------|--|---|--|--|
| KEMRESIN® | Black, Grey, Putty, or Slate, ultra-smooth, non-porous | 1" thick molded epoxy resin | Excellent resistance to practically all acids, alkalies and solvents | Use wherever optimum physical and chemical resisting properties are required |
| PHENOLIC RESIN | Hard, smooth surface, various colors | Cellulose fiber reinforced phenolic resin core with a highly crosslinked polyurethane copolymer surface | Excellent resistance to practically all acids, alkalies and solvents | Chemical and biological labs |
| | | | | |

Worktop Styles — Front Edge

Kewaunee KEMRESIN®

1/8" Chamfer

Phenolic Resin

1/8" Chamfer

Color Selection:

Kewaunee KEMRESIN®

Black
Grey
Putty
Slate

PHENOLIC RESIN

Phenolic Resin is furnished Black as standard. Other colors and patterns are available on special order. Contact your Kewaunee representative for current offerings.

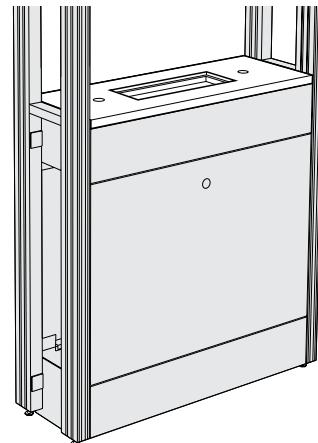

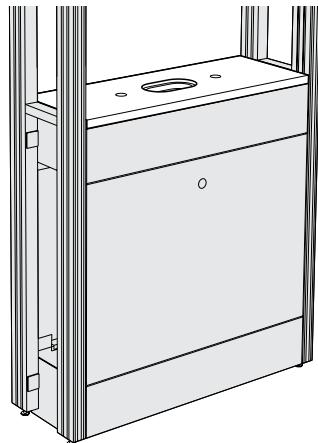

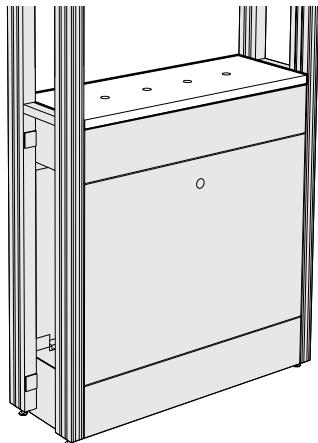

Custom Worksurface Tops and Ledges

Specifications:

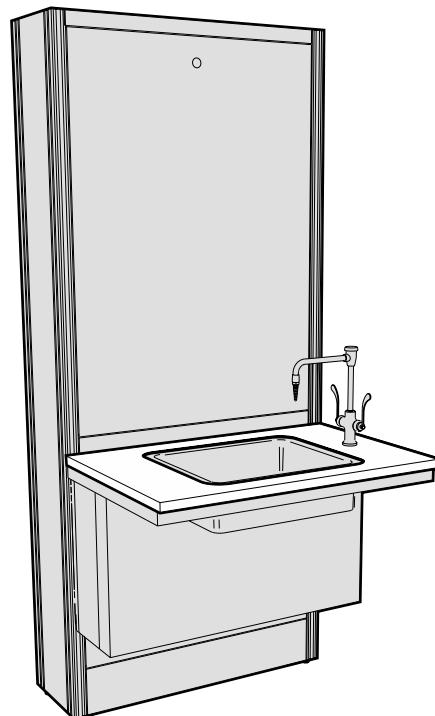

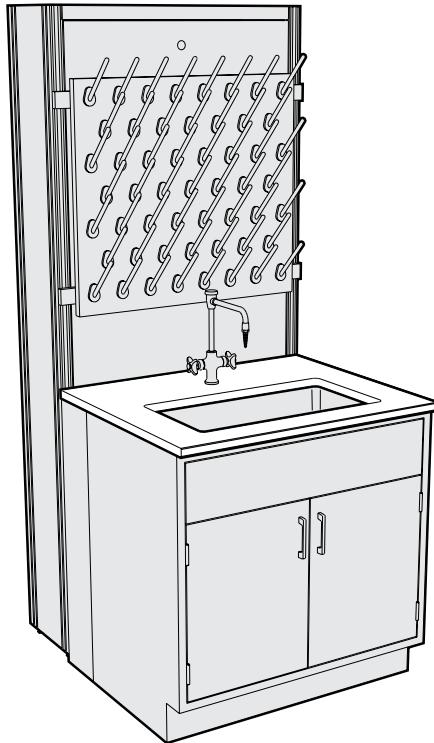

Recognizing that requirements for laboratory service fixtures and fittings is highly individualized, and that no one solution works in all cases, Alpha System Ledges and Worksurface Tops may be modified to accommodate fixture, fitting, sink, drain, and accessory cutouts as required.

Kewaunee's nationwide network of sales representatives and designers are available to help.

Worksurface Tops and Ledges with Holes and Cutouts

Module ledges may be ordered with cupsink cutouts and/or holes for mounting fittings and fixtures.

Worksurface tops may be ordered with sink cutouts, service fitting holes, specialty cutouts or other modifications.

Custom Worktops

Specifications:

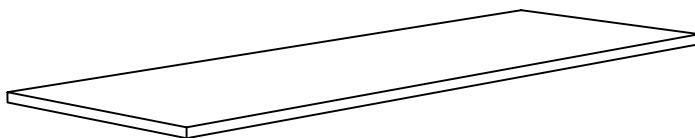

Continuous Worksurface tops are available in two basic styles for applications that require an uninterrupted surface. All three top materials, Kemresin and Phenolic Resin, may be fabricated into both flat tops, or flat tops with 1" thick applied curbs at the rear.

Fitting and fixture holes and cutouts can be incorporated in these styles to allow unlimited design options.

See charts below for material size and color options.

1" Thick Flat Worksurface Top

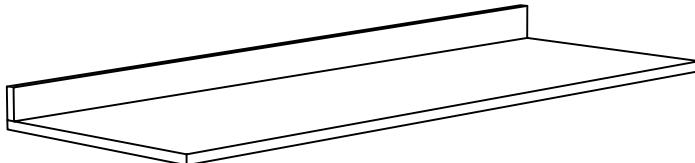

Standard Depths 24" 30"

| Available Materials | Maximum Length without Joint |
|---------------------|------------------------------|
| Kewaunee Kemresin® | 96" |
| Phenolic Resin | 120" |

1" Thick Worksurface Top with 1" x 4" Applied Curb

Standard Depths 24" 30"

| Available Materials | Maximum Length without Joint |
|---------------------|------------------------------|
| Kewaunee Kemresin® | 96" |
| Phenolic Resin | 120" |

Color Selection:

Kewaunee KEMRESIN®

Black
Grey
Putty
Slate

PHENOLIC RESIN

Phenolic Resin is furnished Black as standard. Other colors and patterns are available on special order. Contact your Kewaunee representative for current offerings.

Alpha System Carts

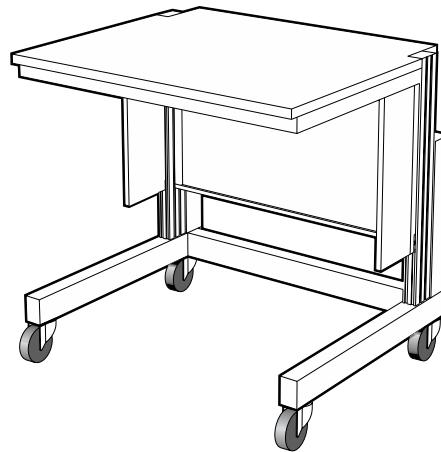

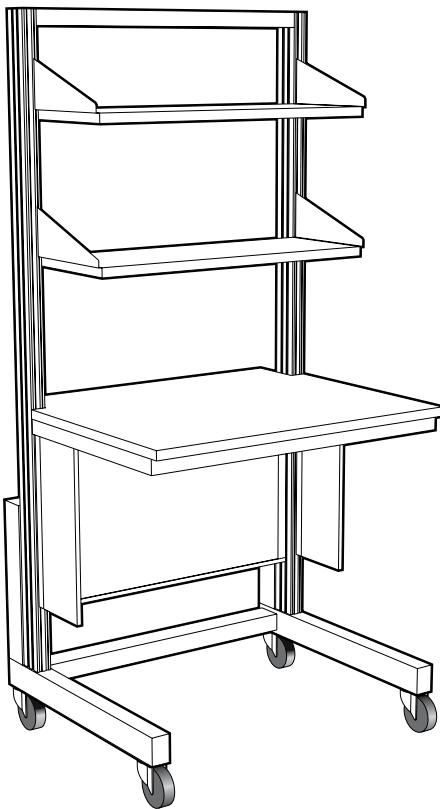

Features:

- The adaptability of the Alpha System and the convenience of mobility
- Standard double-slotted uprights mounted on heavy gauge steel frame
- Available with large diameter, heavy duty casters or glides
- Available with or without overhead carrier
- Available in all standard module lengths – from 24" to 72"

Accepts standard Alpha System components including:

- Adjustable Height Cantilevered Worksurface Frames
 - for supporting Worksurface Top and Suspended Base Cabinets
 - easily positioned on 1" increments
- Adjustable Module Shelving
 - available in five depths
 - available in steel, wood, and phenolic resin
 - available with or without retaining lips
 - adjustable on 1" increments

SEFA 10 | Class 8 – Configuration 1 – Category 1

See Table of Contents pages 5 and 6 for catalog sections relating to Alpha System Cart frame components, Worksurface Tops, and Adjustable Module Shelves.

Alpha System Carts

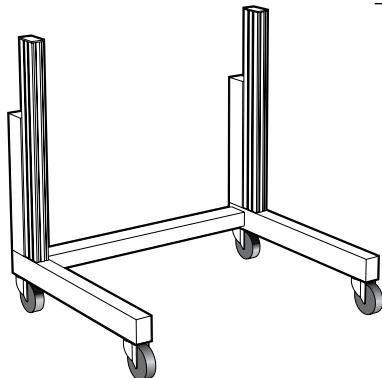

Specifications:

Alpha System Carts incorporate the same double slotted uprights used in the Alpha System Structural Modules. The uprights are mounted to a base fabricated of steel tubing and mounted on 4" diameter casters or glides. This creates a mobile system designed to support both the same Cantilevered Worksurface Frames and Adjustable Shelves used on the Structural Support Modules.

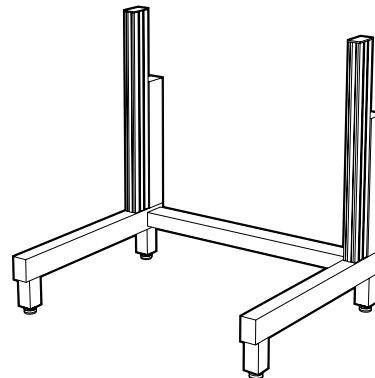

The Alpha System Cart is 37" high, with Upper Carrier 78" high. Both are 30" deep and available in lengths shown.

Worksurface Frame, Top and Adjustable Shelves must be ordered separately.

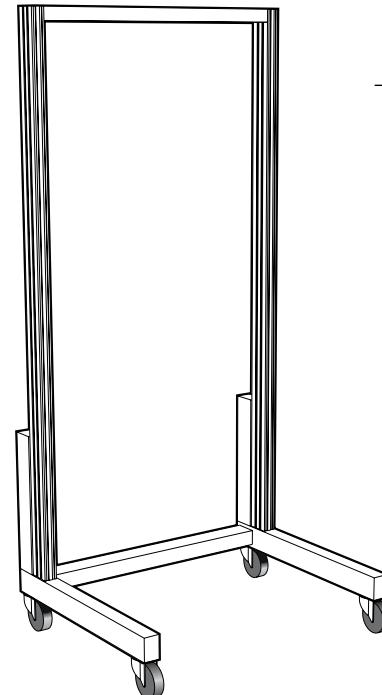

Alpha System Cart

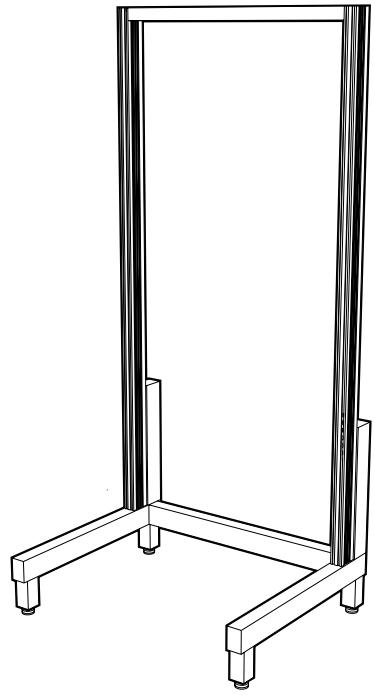

| Length | with Caster | with Glides |

Heavy Duty Alpha System Cart

Heavy Duty Alpha System Cart Assembly

SEFA 10 | Class 8 – Configuration 1 – Category 4

Features:

- 3000 pound load capacity
- Two adjustable height, half-length, Kemresin Worktops with locking frames
- Worktops individually adjustable on 1" centers from 33" to 40"
- Four 15" deep, half-length, adjustable height, steel locking shelves with retaining lips on front and rear
- Shelves adjustable on 1" centers
- One 24" deep fixed, Kemresin shelf at base of bench
- One switched, adjustable height, power strip with four duplex receptacles and 10 foot pigtail
- Four heavy duty casters, with locking brakes on front casters
- Overall dimensions: 30" deep x 79½" high

Heavy Duty Alpha System Cart Assembly

Length

| | |
|-----|-------------|
| 48" | F98M792448C |
| 60" | F98M792460C |
| 72" | F98M792472C |

Worksurface Color Option Code

Kemresin

BK = Black GR = Grey PT=Putty SL = Slate

Kemresin is available in four standard colors. To specify Kemresin color, place a dash and the two-letter code at the end of the part number.

Example: F98M792448C-BK for Black

If no color is specified, Kemresin will be furnished in Black.

Free-Standing Adjustable Height Table

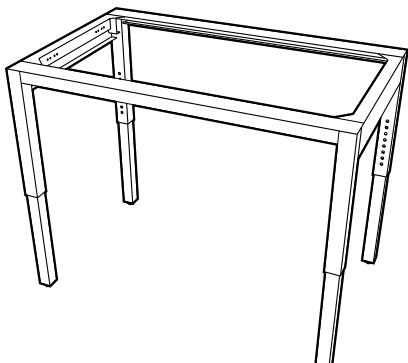

Specifications:

Free-Standing Adjustable Height Tables are available for either 24" deep or 30" deep Worksurface tops in lengths as shown. Telescoping tubular steel legs allow the table to be height adjustable from 30" to 37" high on one inch increments. The table is furnished with a cold rolled steel frame and four adjustable legs with glides. Adjustable Height Tables will accommodate Suspended Cabinets.

Worksurface Top must be ordered separately.

Worksurface Tops are 1" thick. Front and side edges are treated as shown on page 70. Rear edge is finished square.

Free-Standing Adjustable Height Table Frame

22" Deep Table Frame

| Length | Part Number |
|--------|--------------|
| 34" | FC50M362234N |
| 40" | FC50M362240N |

Alpha Columns

Features:

- Moveable, freestanding bench design integrates with other Alpha products.
- 6" wide support column utilizes Alpha's unique double slotted design.
- Can create individual self-supported workstations, or be designed with a shared structural "column" for multiple workstation applications.
- Is available both double and single-sided for use as either center island or wall benches.
- Available with either 27" or 30" deep Worksurfaces.
- Designed to integrate with mobile or floor mounted cabinetry.
- Worksurfaces and shelving are adjustable in height on 1" increments.
- Integrated shelving system with shelves available in depths from 6" to 24".
- Columns can be pre-plumbed or pre-wired for both power and data for use with overhead service carriers or panels.

SEFA 10 | Class 7 – Configuration 4 – Category 3

Alpha Column Double-Sided Modules

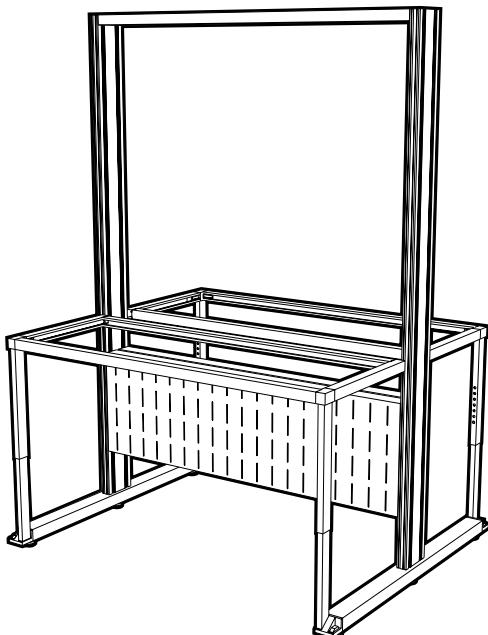

Specifications:

Double-Sided Starter Modules may be used as stand-alone workstations, or as the first module in a multi-module assembly. The six-inch column is 84" high and slotted on 1" centers to accept the Worksurface Frame or Shelving. Each Starter Module contains two column end posts, two modesty panels, and a top rail. Modules may be ordered either with or without Worksurface Frames.

Modules are available in lengths from 36" to 72" in 6" increments. Lengths are based on distance from the center of the first post to the center of the second post. Actual module length is 1½" longer than cataloged length.

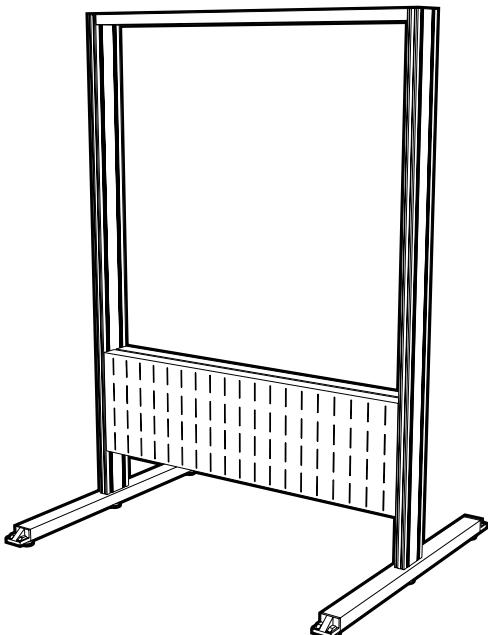

Worksurface Tops, Shelves, and Service Fittings must be ordered separately.

Double-Sided Starter Module with Worksurface Frames

| Module Length | Actual Length | for 23" Deep Frames | for 26" Deep Frames |
|---------------|---------------|---------------------|---------------------|
| 36" | 37½" | FC30M845436N | FC30M846036N |
| 42" | 43½" | FC30M845442N | FC30M846042N |

Alpha Column Double-Sided Modules

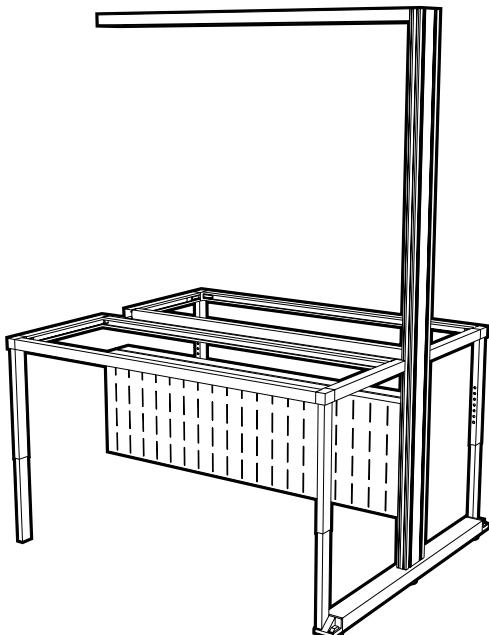

Specifications:

Double-Sided Add-On Modules are designed to be used in addition to a Starter Module to make multi-module assemblies. The six-inch column is 84" high and slotted on 1" centers to accept the Worksurface Frame or Shelving. Each Starter Module contains one column end post, two modesty panels, and a top rail. Modules may be ordered either with or without Worksurface Frames.

Modules are available in lengths from 36" to 72" in 6" increments. Lengths are based on distance from the center of the first post to the center of the second post. Actual module length is 1½" longer than cataloged length.

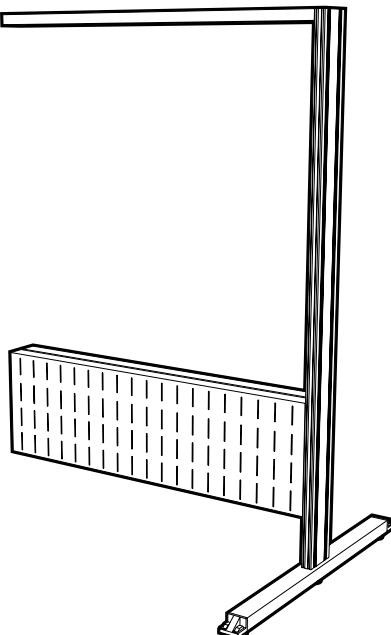

Worksurface Tops, Shelves, and Service Fittings must be ordered separately.

Double-Sided Add-On Module with Worksurface Frames

Alpha Column Single-Sided Modules

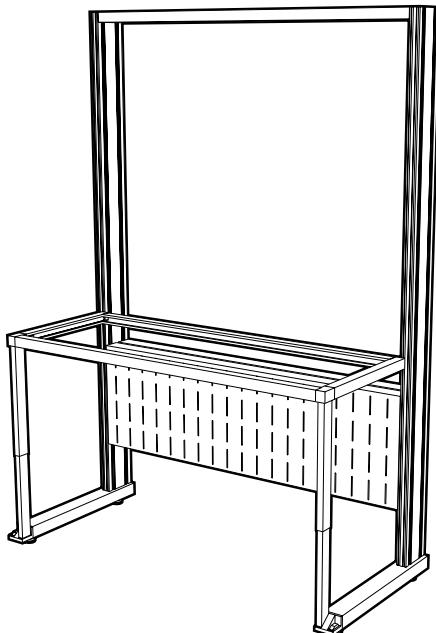

Specifications:

Single-Sided Starter Modules may be used as stand-alone workstations, or as the first module in a multi-module assembly. The six-inch column is 84" high and slotted on 1" centers to accept the Worksurface Frame or Shelving. Each Starter Module contains two column end posts, two modesty panels, and a top rail. Modules may be ordered either with or without Worksurface Frames.

Modules are available in lengths from 36" to 72" in 6" increments. Lengths are based on distance from the center of the first post to the center of the second post. Actual module length is 1½" longer than cataloged length.

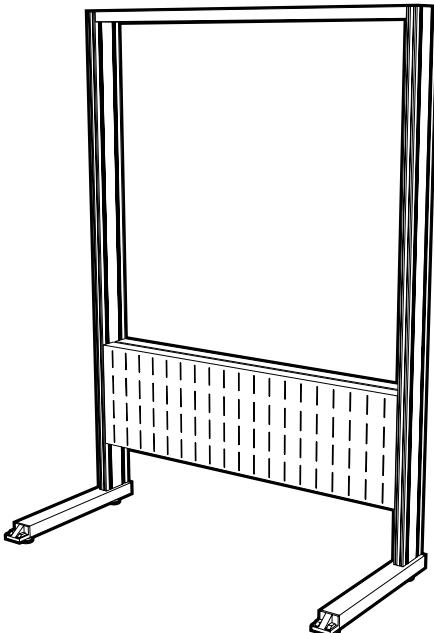

Worksurface Tops, Shelves, and Service Fittings must be ordered separately.

Alpha Column Worksurface Tops

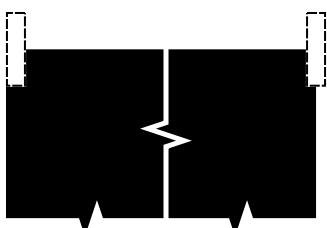

Kemresin Color Option Code

BK = Black **GR** = Grey
PT = Putty **SL** = Slate

Kemresin is available in four standard colors. To specify Kemresin color, place a dash and the two-letter code at the end of the part number.

Example:

FC97R012736N-BK for Black

Kemresin Color Option Code

BK = Black **GR** = Grey
PT = Putty **SL** = Slate

Kemresin is available in four standard colors. To specify Kemresin color, place a dash and the two-letter code at the end of the part number.

Example:

FC97R012736L-BK for Black

Specifications:

Worksurface Tops are available in modular sizes to match the Worksurface Frames and are available in four configurations.

- With no overhang on either end (flush with Worksurface rails) for use on center section of assembly runs.

- Flush with Column Posts on either left or right end for use against walls or other tables or equipment.
- Flush with Column Posts on both ends for use on stand alone workstations.

Alpha Column Worksurface Tops

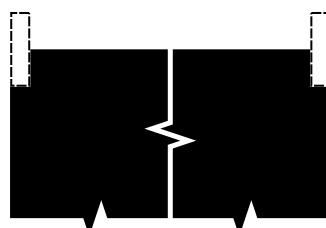

Kemresin Color Option Code

BK = Black **GR** = Grey
PT = Putty **SL** = Slate

Kemresin is available in four standard colors. To specify Kemresin color, place a dash and the two-letter code at the end of the part number.

Example:

FC97R012736R-BK for Black

Kemresin Color Option Code

BK = Black **GR** = Grey
PT = Putty **SL** = Slate

Kemresin is available in four standard colors. To specify Kemresin color, place a dash and the two-letter code at the end of the part number.

Example:

FC97R012736B-BK for Black

Specifications:

Worksurface Tops are available in modular sizes to match the Worksurface Frames and are available in four configurations.

- With no overhang on either end (flush with Worksurface rails) for use on center section of assembly runs.

- Flush with Column Posts on either left or right end for use against walls or other tables or equipment.
- Flush with Column Posts on both ends for use on stand alone workstations.

Alpha Column Adjustable Shelf Assemblies

Specifications:

Adjustable Shelf Assemblies with no rear overhang are designed for use in front of the Modesty Panels or when it is desired to leave the six inch column space open. Each Shelf Assembly consists of two 11 gauge steel Shelf Brackets and a 1" thick Shelf, formed from 16 gauge cold rolled steel.

The Shelf attaches to the shelf brackets without the use of screws, bolts, or other hardware using a unique tab and slot system. The system allows the shelf to be mounted with a 1" cord gap at the rear by simply turning the shelf around. The shelf brackets engage the slots in the column and are adjustable in 1" increments.

Optional Shelf Locking Tab

Sliding tab mounted on Shelf Bracket locks shelf into Module Upright to keep it from being accidentally removed.

To specify, add an **-K** to the end of the Shelf Assembly part number.

Example: **FC21M051236N-K**

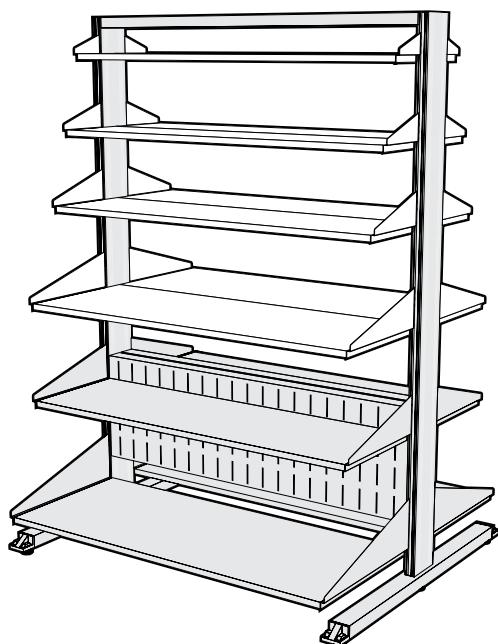

Alpha Column Adjustable Shelf Assemblies

Specifications:

Adjustable Shelf Assemblies for Double-Sided Alpha Columns are three inches deeper than the Shelf Bracket to allow the Shelves on opposite sides of the column to form a continuous surface. Each Shelf Assembly consists of two 11 gauge steel Shelf Brackets and a 1" thick Shelf, formed from 16 gauge cold rolled steel.

The Shelf attaches to the Shelf Brackets without the use of screws, bolts, or other hardware using a unique tab and slot system. The system allows the shelf to be mounted with a 1" cord gap at the rear by simply turning the shelf around. The shelf brackets engage the slots in the column and are adjustable in 1" increments.

Alpha Column Adjustable Shelf Assemblies

Specifications:

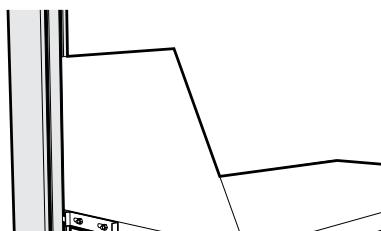

Adjustable Shelf Assemblies for Single-Sided Alpha Columns are six inches deeper than the Shelf Bracket to allow the shelf to pass through to the rear of the column. Each Shelf Assembly consists of two 11 gauge steel Shelf Brackets and a 1" thick Shelf, formed from 16 gauge cold rolled steel.

The Shelf attaches to the Shelf Brackets without the use of screws, bolts, or other hardware using a unique tab and slot system. The system allows the shelf to be mounted with a 1" cord gap at the rear by simply turning the shelf around. The shelf brackets engage the slots in the column and are adjustable in 1" increments.

Service Tunnels & Worksurface Frames

Specifications:

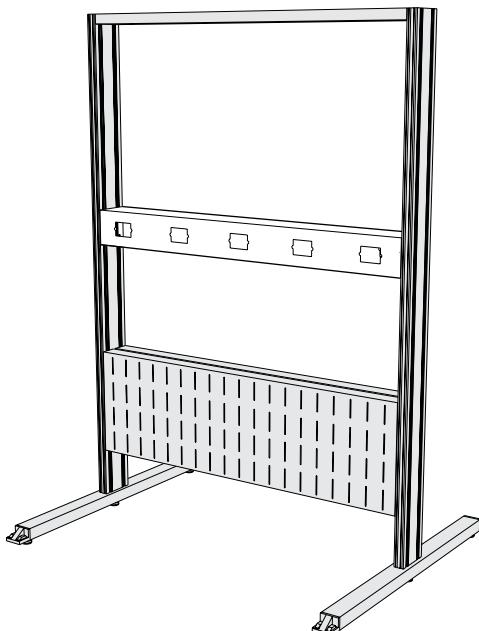

Service Tunnels may be added to any Alpha Column Module to create an electrical panel for both power and data. Tunnels are 6" high and 6" deep and contain standard electrical cutouts as shown below.

Electrical Devices must be ordered separately.

Worksurface Frames may be added to any Alpha Column Module to create Worksurface from 30" to 37" high, adjustable on 1" centers. Alpha Column Modules may be ordered with the Worksurface Frames included, or they may be ordered separately for reconfiguration.

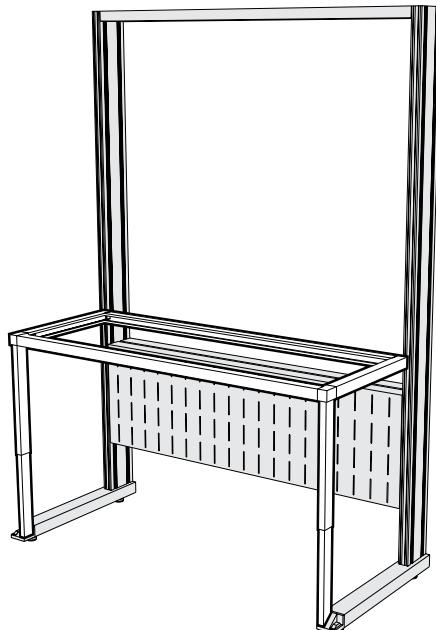

Worksurface Tops must be ordered separately.

Service Options

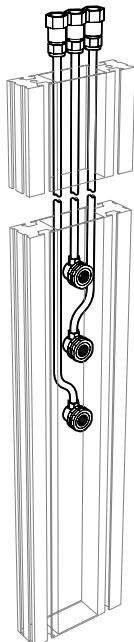

Specifications:

Internal Service Tubes are required to mount services on the Alpha Column Legs. They are factory installed and consist of either copper or stainless steel $\frac{1}{4}$ " tubing with a female $\frac{3}{8}$ " IPS outlet escutcheon, mounted in the leg, and a female $\frac{3}{8}$ " IPS inlet, at the top of the leg. They are available in three lengths that correspond to the three mounting locations in the leg.

Ball Valves are chrome plated brass and provide on/off control of gas, air, or vacuum at pressures up to 75 PSI.

Needle Point Cocks are chrome plated brass with a brass floating cone and integral brass seat. They provide metering control of laboratory gases at pressures up to 60 PSI.

Service Accessories

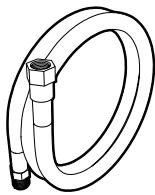

Specifications:

Service Hoses are required to carry services from overhead service carriers to the top of the Support Frame. They are available in reinforced PVC, polyurethane, or braided stainless steel.

Power Cords are required to carry electrical power from the overhead service carriers to the top of the Support Frame. The SJ 12/3 cord is available in various configurations.

Keyed Quick-Connect Fittings are available for Hoses and Internal Service Tubes to ease service connection and disconnection during bench relocation. They are available in eight sizes (keys) which keeps service outlets from being connected to the wrong service.

Steel and Wood Cabinets

Storage cabinets can be found in their own catalogs.

Research Collection Steel Furniture and Signature Series Wood Furniture

Steel Base Cabinets

- Electrostatically applied, chemical resistant, powder coat finish available in colors to compliment any laboratory environment
- Heavy gauge formed and welded steel cabinet body construction provides strength and durability
- One piece drawer body, radiused all four sides
- Furnished standard with 100 lb. load rated, full-extension, soft-close drawer slides
- One-piece case bottom and horizontal front rail
- Furnished standard with finished back
- Exclusive positive door catch option
- Five-knuckle, semi-concealed, and concealed hinges available

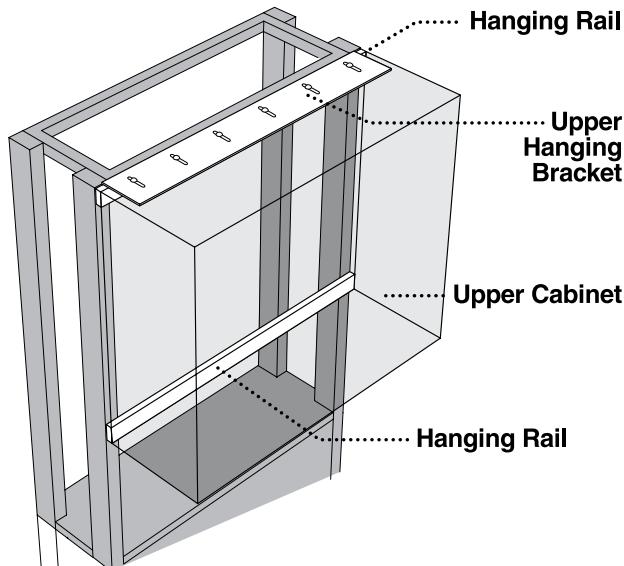

Wood Base Cabinets

- Multiple coat, chemical resistant finish system formulated to highlight the natural grain patterns
- Dovetailed drawer construction with nine-ply hardwood plywood drawer sides
- $\frac{3}{4}$ " seven-ply hardwood plywood end panels, bottom and shelf, with solid hardwood facing
- Full extension, ball bearing, 100 lb. load rated, drawer slides, standard on all drawers and pullboards.
- $\frac{3}{4}$ " seven-ply hardwood plywood finished back dadoed into end panels and bottom
- Institutional type five-knuckle offset door hinges rated for 150 pound loads

Upper & Full Height Storage Cabinets

Upper Cabinet Hanging System

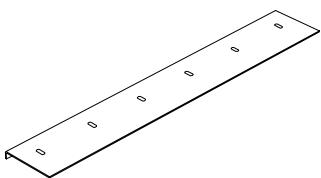

With the use of an Upper Hanging Bracket and a pair of Hanging Rails, Kewaunee's standard Wall Cabinets can be mounted on Alpha System's Structural Module. Two Hanging Rails are snapped into the Upper Carrier upright slots. The Upper Hanging Bracket bolts to the top of the upper cabinet which then hangs on the upper Hanging Rail. The lower Hanging Rail allows the bottom of the cabinet to be securely fastened to the module. This system allows the Upper Cabinet to be moved both vertically and horizontally on the Structural Module.

Hanging Rails and Upper Hanging Brackets, are finished to match the Structural Module and furnished with all required hardware.

Hanging Rails are furnished in pairs.

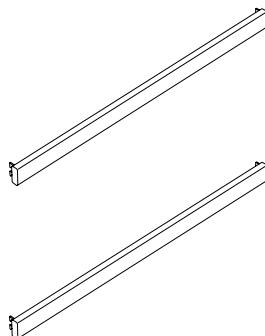

Order the appropriate Upper Hanging Bracket in the same length as the Upper Cabinet. The Hanging Rails must be the same length as the Structural Module.

Overhead Service Carriers

- **Service Enclosures**

Suspended sheet metal enclosure able to accommodate most laboratory plumbing, electrical, data, and localized exhaust requirements. May be pre-plumbed and pre-wired for easy single-point connection at jobsite.

- **Ceiling Service Panels**

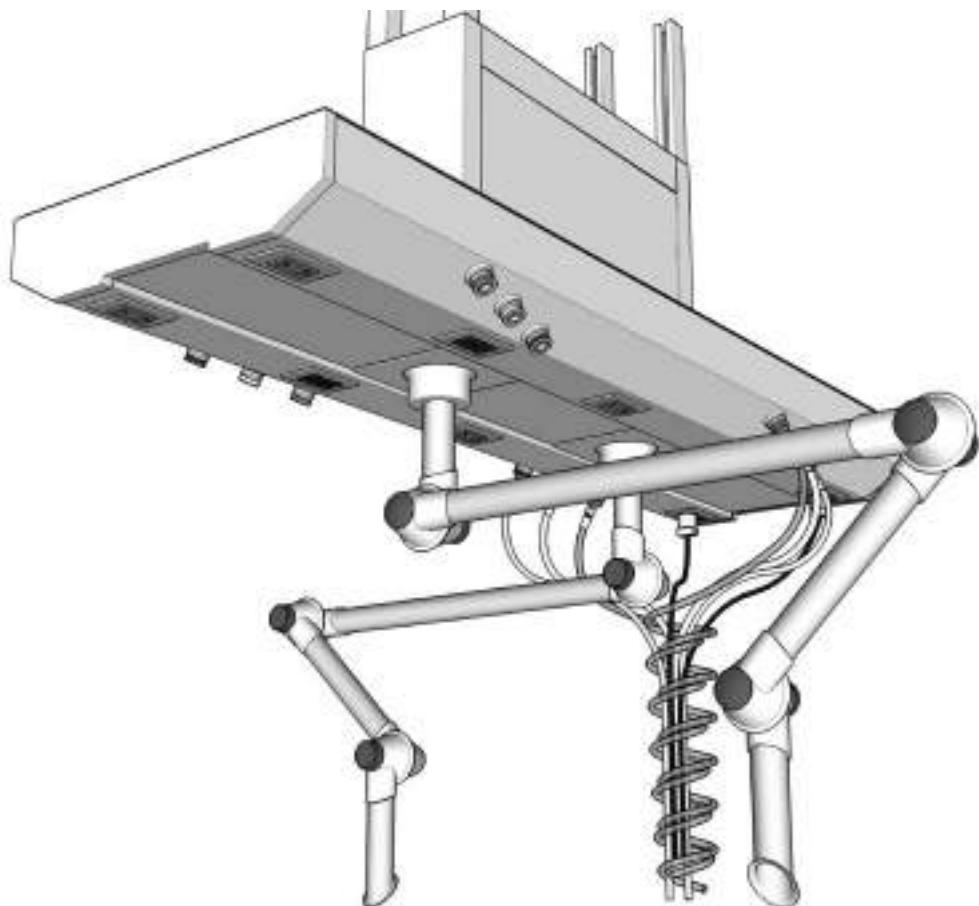

Designed to integrate into a standard ceiling grid providing a low cost method of delivering plumbing, electrical, and data to today's laboratory bench.

Service Enclosures

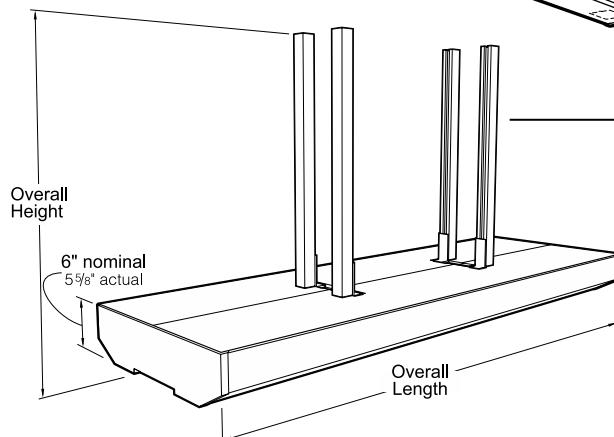

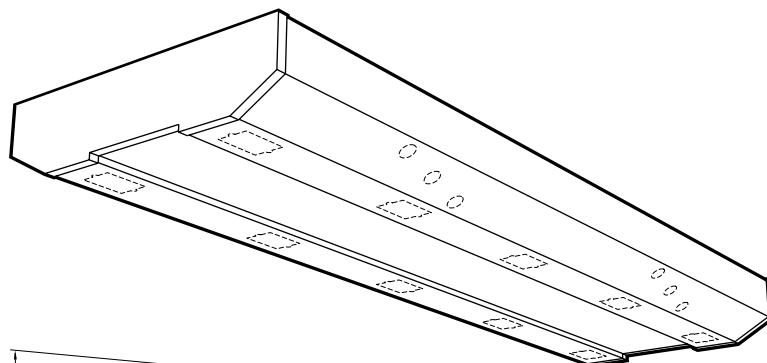

Features:

- Compact design able to integrate multiple plumbing, power, lighting, data, and localized exhaust elements
- Available pre-plumbed and pre-wired
- Power components are UL listed, and pre-wiring is available
- Accommodates localized fume extraction devices
- Accommodates light fixtures
- Sections may be assembled in the field for continuous runs
- Mounts to standard strut components and hardware
- Available in all standard powder finish colors
- Customized to meet your project requirements
- Accommodates all lab services including:
 - Common gases, air, vacuum, and water
 - High purity and special gases
 - Power and data
 - Lighting
 - Exhaust
- Accepts multiple fitting options including:
 - Standard or fine control valves
 - Pressure gauges and regulators
 - Quick-connect valves
 - Quick-connect fittings and hoses
 - Communication and data outlets
 - Electrical service outlets
 - Shut-off valves

Ceiling Service Panels

Features:

- Designed to integrate into common ceiling grids providing a low cost method of delivering plumbings, electrical, and data services to the lab bench
- Fits in standard 2' x 2' and 2' x 4' ceiling grids
- Power components are UL listed
- Available in standard powder coat finish colors
- May be customized to meet your project requirements
- Accommodates multiple lab services including:
 - Common gases, air, vacuum, and water
 - High purity and special gases
 - Power and data
- Accepts multiple fitting options including:
 - Standard or fine control valves
 - Pressure gauges and regulators
 - Quick-connect valves
 - Quick-connect fittings and hoses
 - Communication and data outlets
 - Electrical service outlets

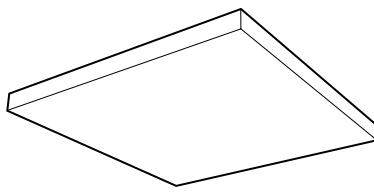

Ceiling Service Panels and Accessories

Ceiling Service Panels are fabricated from powder coated 16 gauge steel in two sizes to fit standard ceiling grid. They can be punched to accept most electrical, data, or service fittings. **Fittings and Fixtures must be ordered separately.**

Electrical Fixtures are furnished complete with device, box and cover plate. They may be supplied loose or installed.

Keyed Quick-Connect Fittings are available for Hoses to ease service connection and disconnection during bench relocation. They are available in eight sizes (keys) which keeps service outlets from being connected to the wrong service.

Technical Information

Load Ratings – Assembly Load Maximums

12" Island Module Assembly.....3400 lbs.

Includes two Cantilevered Frames with or without Suspended Cabinets at 600 lbs. total each and any combination of shelves, suspended upper cabinets and service tunnels.
(Load must be balanced)

6" Partition Module Assembly.....2800 lbs.

Includes two Cantilevered Frames with or without Suspended Cabinets at 600 lbs. total each and any combination of shelves and/or suspended upper cabinets.
(Load must be balanced)

9" Wall Module Assembly2600 lbs.

Includes Cantilevered Frame, Suspended Cabinet and any combination of shelves, and suspended upper cabinets.

3" Wall Module Assembly2600 lbs.

Includes Cantilevered Frame, Suspended Cabinet and any combination of shelves, and suspended upper cabinets.

Wall Hanging System (per pair of Vertical Uprights).....2000 lbs.

Includes Cantilevered Frame with or without Suspended Cabinets at 600 lbs. total and any combination of shelves and/or suspended upper cabinets.
(Frame must be firmly attached to the building structure)

Alpha Column Assembly2800 lbs.

Includes Leg Supported Frame with or without Suspended Cabinets at 1000 lbs. total and any combination of shelves and/or suspended upper cabinets.

Alpha System Cart900 lbs.

Includes Cantilevered Frame with or without Suspended Cabinets at 400 lbs. total and any combination of shelves and/or suspended upper cabinets.

Heavy Duty Alpha System Cart.....3000 lbs.

Includes Bottom Shelf at 2000 lbs., (2) Half-Length Cantilevered Frames with or without Suspended Cabinets at 600 lbs. total and any combination of shelves and/or suspended upper cabinets.

Floor Mounted Cabinets

| | |
|---------------------------------------|----------|
| Base Cabinets (per lineal foot) | 500 lbs. |
| Cabinet drawer (each) - Steel | 150 lbs. |
| Cabinet drawer (each) - Wood | 100 lbs. |

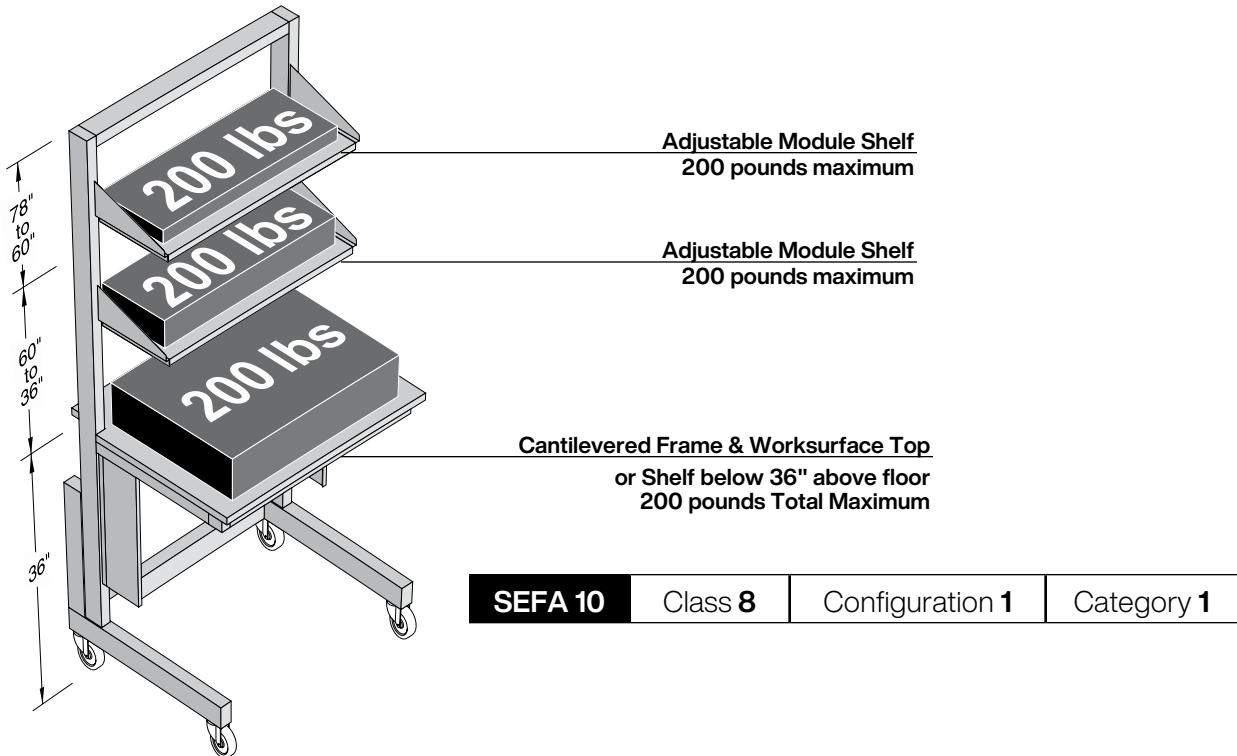

- Maximum load ratings refer to live loads and include loads applied to top of Worksurface and shelves, as well as total weight of suspended cabinetry and accessories.
- Island Module Assembly load maximums are based on assembly being attached to 4" concrete floor using Hex Head, 1/2" x 4", Lok-Bolts. (www.powers.com)
- Partition Module Assembly load maximums are based on assembly being attached to ceiling and to 4" concrete floor using Hex Head, 1/2" x 4", Lok-Bolts. (www.powers.com)
- Wall Module Assembly load maximums are based on assembly being attached to walls with blocking at appropriate heights, using fasteners capable of withstanding applied load.
- Wall Hanging System load maximums are based on assembly being attached to walls with blocking at appropriate heights, using fasteners capable of withstanding applied load.
- Maximum load ratings are based on load being evenly distributed along the entire length of the assembly or component.

Recommended Supply Line Pressures

| | |
|-------------------------------------|--------------------------|
| Gas | 0.216 psi |
| Air (Ordinary) | 15 psi |
| Air (Air Powered Stirrer Operation) | 40 psi |
| Vacuum (Ordinary) | 18"-22" of Mercury |
| Vacuum (High) | 28.5" of Mercury |
| Hot or Cold Water | Local Pressure |
| Steam (Low Pressure) | 0-15 psi as required |
| Steam (High Pressure) | 15-30 psi as required |

Service & Rough-In Abbreviations

| | |
|----------------------|----------------------|
| A - Air | V - Vacuum |
| E - Electric-120 VAC | CW - Cold Water |
| G - Gas | DW - Distilled Water |
| N - Nitrogen | HV - Hood Vent |
| O - Oxygen | HW - Hot Water |
| S - Steam | WV - Waste Vent |

Recommended Pipe Size and Material

| Service | Number of Outlets | Pipe Size | Pipe Material |
|---------------|------------------------|----------------------|------------------------------------|
| STEAM | 1-8 9-16 17-24 | 3/8" 1/2" 3/4" | In accordance with governing codes |
| WATER | 1-10 11-18 19-24 | 1/2" 3/4" 1" | Hard Drawn Type L Copper Tubing |
| GAS | 1-12 12-18 19-24 | 3/8" 1/2" 3/4" | In accordance with governing codes |
| AIR or VACUUM | 1-8 9-16 17-24 | 3/8" 1/2" 3/4" | Hard Drawn Type L Copper Tubing |

Designing Your Service Enclosure

The following points should be used as guidelines in designing your Service Enclosure

Contact local plumbing, electrical, or mechanical contractor or engineer to be sure of meeting all local codes and regulations.

General Options

- Plumbing, Electrical, Data, and Mechanical cutouts and fittings are provided per specifications and drawing based on needs of individual projects.
- Service Enclosures are available up to 10 ft. in length in a single section. Multiple sections may be combined for longer lengths.

Plumbing Service Options:

- Service Enclosures may be pre-plumbed for single point of connection.
- Pre-plumbed service lines are cleaned, tested and capped unless otherwise specified.
- Specify piping material to meet local codes.

Electrical Service Options:

- Pre-wiring available for single point connection.
- UL listing available when factory pre-wired and specified.
- Specify NEMA configurations.
- Specify type and quantity of circuits and terminations.

Data Channel Options:

- Specify data outlet types required. Wiring is by others.

Light and Fume Extraction Support Enclosure Options:

- Contact factory for lighting options.
- Contact factory for Fume Extraction options and airflow requirements.
- Custom sized Service Enclosures are available.

ALPHA

Flexible Systems

Kewaunee Scientific Corporation is dedicated to manufacturing high quality products for the laboratory marketplace. We offer **Total Laboratory Solutions, Innovative Designs, and Technological Expertise** with a worldwide distribution network to provide laboratories that are truly World Class.

Laboratory Products from Kewaunee®:

- ALPHA® – Adaptable Casework System
- ALPHA Columns – Expandable Workstations
- ALPHA Overhead Carrier Systems
- BasikBench® – Simple 4-Leg Benches or Tables
- Element Bench – Efficient Benches with Plumbed Posts
- Enterprise® – Free-Standing Workstations
- Evolution® – Column Based Workstations
- Kemresin® – Epoxy Resin Counters & Sinks
- Kewaunee Matrix® – Educational Stations
- Research Collection® – Steel Casework
- Signature® Series – Wood Casework
- Supreme Air® – Fume Hoods

For our complete product offering, specifications, catalogs, brochures, case studies, and dealer list, go to kewaunee.com, or contact your local sales representative directly.
