

Welcome to Ascot-Travel.com!

The website has been designed as both an **external presence** (showcasing Ascot Travel's history, expertise, and service scope) and an **internal operations hub** (providing resources and tools for advisors, staff, and partners). It blends marketing, directory, and workflow functions in a single portal.

What We Had

Public-Facing Sections

- **About:** Background on Ascot, highlighting its legacy since 1963 and its positioning as a leading U.S. entertainment travel agency.
- **Contact:** Direct communication points for potential clients and partners.
- **Services Overview:** Likely covers entertainment, leisure, and corporate travel logistics.

What's New!

Advisor & Staff Tools

- **ATS Advisors Portal:** A login-based section for Ascot's travel advisors to access business resources. This User Dashboard has everything you need for employee resources from Benefits to Airline Contracts and more!
- **Employee Directory:** Centralized listing of internal team members for collaboration. An easy-to-use tool to contact anyone in the Ascot world directly from the click of a button with RingCentral and Outlook connectivity.
- **Hotel Directory:** Reference database of preferred hotel partners, tied to Ascot Above program activity. This Directory is your key to finding important information on highly commissioned hotels and GSO partners around the world. With an easy-to-use search tool to find anything you need for your client's next trip!
- **Calendar:** Shared scheduling tools for key events, and partner activities. All to stay up to date with our world and important events on the horizon!

Ascot-travel.com now functions less like a static brochure site and more like a **hybrid operations and relationship-management platform**. It offers public credibility (About, Contact) while supporting internal workflows (directories, calendar, advisor tools).
