

BURN THE PLAYBOOK.

Expensive day-rate trainers hurt your bottom line, especially when employees leave or fail.

Generic, one-size-fits-all training pulls billers from their desks and wrecks productivity.

Info overload from video tutorials makes knowledge retention hard and application unrealistic.

Recruiters Deserve Better.

**Running a small business?
You need training that
gives quicker ROI.**

**Managing global teams?
We give you consistent, automated training
across regions and time zones.**

**Forget everything you know about training.
It's time for something that actually works.**

Rekbot delivers real-world, AI-powered training that gets results. Your recruiters build confidence, master critical skills, and cut the learning curve in half— all while you focus on scaling your business.

**Forget the old rules;
we're rewriting the game with Rekbot.**

Now playing...

Recruitment Training (Rekbot's Version)

What's really in it for you?

80% lower staff turnover by keeping recruiters engaged and ready.

Save \$1000+ daily by eliminating expensive trainer fees.

50% faster onboarding reduces the learning curve significantly.

Potential 353% ROI boost enhances overall performance.

Up to 70% cost reduction as compared to manual training.

Personalized, repetition-free learning paths tailored for every recruiter.

Data-driven insights provide leadership with clarity on team performance.

Reclaim valuable time for team leaders and top performers.

Personalized. Effective. Unstoppable.

- **Built for recruitment:** Say goodbye to cookie-cutter training. Rekbot's AI is engineered specifically for recruitment, laser-focused on your team's actual needs.
- **Real Stakes, Real Skills:** High-pressure scenarios that boost retention through emotional learning.
- **Save Costs:** Ditch costly day-rate trainers. Rekbot's on-demand, AI-powered training saves thousands while being available whenever you need it.
- **Adaptable Solutions:** Whether for a small team or a global workforce, Rekbot scales to fit your needs.
- **Smart Training:** Real-time performance tracking lets you train smarter, not harder.
- **Tailored Learning Paths:** Psychometrics + AI create personalized, faster, smarter, and more impactful training journeys for each recruiter.

With Rekbot, your trainees get

a) AI-powered simulations: Real challenges, zero risk

From cold-calling, client negotiations, and challenging candidate scenarios, Rekbot's AI-driven simulations build confidence by allowing recruiters to practice tough scenarios without the fear of failure.

b) Gamification Elements: Points. Badges. Leaderboards.

Rekbot turns learning into a game with streaks, daily challenges, and Rek Points to keep your recruiters hooked and always leveling up.

c) Interactive Dashboards: Track, adapt, succeed.

Recruiters can monitor their own skill development, gaining instant feedback on progress and mastery.

d) Immediate Feedback System: Instant coaching. Real-time results.

Instant coaching after every task keeps learning sharp and focused, turning mistakes into learning opportunities.

**Throw your team into
the deep end – safely.**

No Guesswork, Just Results.

**But if you need more reasons
to love Rekbot:**

Bite-sized Learning:

Quick 5-minute lessons that fit seamlessly into any schedule, making it easy for your team to stay on track.

Dynamic Adaptability:

Adaptive lessons that keep each recruiter in their optimal learning zone, ensuring consistent progress.

Accelerated Onboarding:

Get new recruiters up to speed faster, turning them into top performers quickly.

Smart Insights:

Real-time analytics give you clear insights into team performance, so you can make data-driven decisions without the guesswork.

Scalable Solutions:

Whether you're a nimble startup or a global enterprise, Rekbot delivers consistent training across all locations.

A futuristic scene with a large, purple-tinted building. A bright light emanates from a large opening in the building. A person in silhouette stands on the right, looking towards the building. The ground is dark and reflective.

First in. First to win.

- **Personalized learning? Check.**
- **Gamified simulations? Done.**
- **Real-time analytics? Built in.**
- **Ready for smarter hiring? Let's go.**

**Rekbot isn't just the future.
It's your unfair advantage.**
