Smart latch selection

PTI ProEdge Smart Lock
Stainless Steel

INSOMNIAC SmartLock® S

Compatible with flat or corrugated doors, and both left- or right-hinge configurations, ProEdge Smart Latches offer a versatile, elegant solution. For maximum convenience, latches can be factory preinstalled by the SteelBlue team—delivering a true turnkey installation. While using a smart device is preferred, ProEdge does not require a smart device to provide access to a unit, making it ideal for any facility setup. Contact a PTI Sales Consultant at [800.331.6224](tel:800.331.6224) or visit ptisecurity.com for more information.

SteelBlue roll-up doors can come pre-punched for INSOMNIAC SmartLock® S, enabling quick, no-drill installation, faster installs, lower labor costs, and a smoother tenant experience. SteelBlue does not provide these latches. Contact OpenTech Alliance at [800.419.2006](tel:800.419.2006) or sales@opentechalliance.com. Learn more at opentechalliance.com.
