

## Modern Ortho in the GP World: Tips, Timing, and Tech

**Date:** December 9, 2025

**Location:** 🚗 **Offsite!** Motor City Dental Lab  
— 2151 Cole Street, Birmingham, MI 48009

**Time:** 6:00 PM – Dinner & Gather, 6:30 PM –  
Program Starts

**Speaker:** Dr. Julia Mastracci & the Motor City  
Dental Lab Team

**Advisory Lead:** Dr. Julia Mastracci

### Lecture Summary:

Orthodontics is no longer a siloed specialty. Today's general practitioners are expected to recognize opportunities for interceptive ortho, manage aligner cases, and coordinate seamlessly with specialists. In this practical, forward-thinking session, Dr. Julia Mastracci & the Motor City Dental Lab Team explores how GPs can confidently integrate ortho into their diagnostic mindset and workflows. From case selection to digital tools and team coordination, this session is perfect for anyone looking to sharpen their ortho game — or simply better understand how ortho fits into modern comprehensive care.

### Course Objectives:

- Learn how to identify ortho opportunities early in GP settings.
- Understand timing and workflow considerations for interdisciplinary ortho care.
- Explore how digital diagnostics and clear aligner systems can elevate patient outcomes.
