Cyera DataWatcher

CYERA

Risks Identified. Remediation Accelerated. Data Protected.

Cyera DataWatcher provides end-to-end management of the Cyera Data Security Platform. Protect your organization from data breaches with real-time data security monitoring, risk analysis, and expert-led response support that resolves risks to your critical data.

We'll help balance your data security and business objectives

Let our experts take on time consuming tasks - finding data at risk, reviewing data controls, tuning policies, managing your Cyera DSPM and Omni DLP solutions, ensuring data compliance, and accelerating the remediation of data incidents before they become a headache - so you can free up your team to focus on more strategic initiatives for the organization.

DataWatcher provides:

- End-to-end management - from deployment to ongoing administration - of the Cyera Data Security Posture Management (DSPM) and Cyera Omni Data Loss Prevention (DLP) solutions.
- Visibility into your data landscape across cloud, on-premises, and hybrid infrastructures.
- Real-time Cyera data event monitoring and alerting.
- External exposure and data risk assessments.
- Post data breach analysis and remediation recommendations.

Key Benefits

- **Accelerated time-to-value.**
  Be up and running on Cyera quickly so you can begin identifying data risks and act.
- **Improved security posture.**
  Gain instant access to Cyera's rich data security intelligence and improve resilience.
- **Optimized operational efficiency.**
  Ensure the solution is performing at maximum efficiency and deliver results without straining your infrastructure or team.
- **Rapid understanding and response to a data breach.**
  Accelerate the mean time to materiality and get recommended next steps.

What Cyera Delivers

In addition to answering whether your critical data has been involved in a breach, Cyera DataWatcher offers cost savings, increased efficiency, improved security, and access to specialized expertise.

Key offering highlights include:

Cyera Data Security Platform Deployment & Optimization

End-to-end management, from deployment to ongoing administration, of the Cyera Data Security Posture Management (DSPM) and Cyera Omni Data Loss Prevention (DLP) solutions.

Premium Support

Receive 24×7 support, access to the Knowledge Base and Community, and access to standard and customized training.
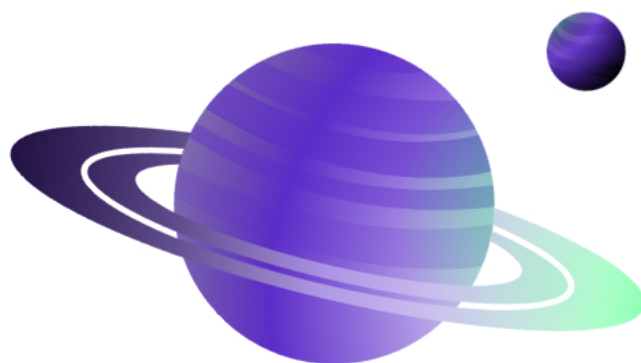

Program Management

Get annual program maturity mapping & quarterly roadmap updates, quarterly CISO team briefings and workshops, program build and management services, and program and technology optimization.

Data Breach Support

Receive 24×7 inbound CSIRT support, detailed incident data blast radius and materiality analysis, post data breach support, and proactive hunting & dark web monitoring.

Issues Management & Resolution

Proactive review of data attack surface, ongoing review and escalation of high risk issues, issue trending and reporting, and remediation guidance and progress tracking.
