BODOVI

Tečaj boduje Hrvatska liječnička komora sa 16 bodova za predavače i 11 bodova za polaznike

KOTIZACIJA:

SPECIJALISTI - 1.770,00 kn

SPECIJALIZANTI - 1.200,00 kn

Uključuje: Kongresni materijal, Pauze za kavu i ručkovi prema programu, kongresnu večeru, upis bodova u HLK

LOKACIJA I SMJEŠTAJ

"Hotel Olympia"
 Ul. Ljudevita Gaja 2

MEDICOM

Dragi prijatelji,

Veliko nam je zadovoljstvo što ste odlučili prisustvovati II Skupu neuroradiologa Hrvatske s međunarodnim sudjelovanjem.

Ovogodišnji se skup bavi neuroradiološkom dijagnostikom i intervencijskim postupcima u području spinalnog kanala i leđne moždine.

Rezultat je suradnje domaćih predavača i uglednih gostiju iz Austrije, Bosne i Hercegovine, Italije Slovenije, Srbije i Ujedinjenog Kraljevstva.

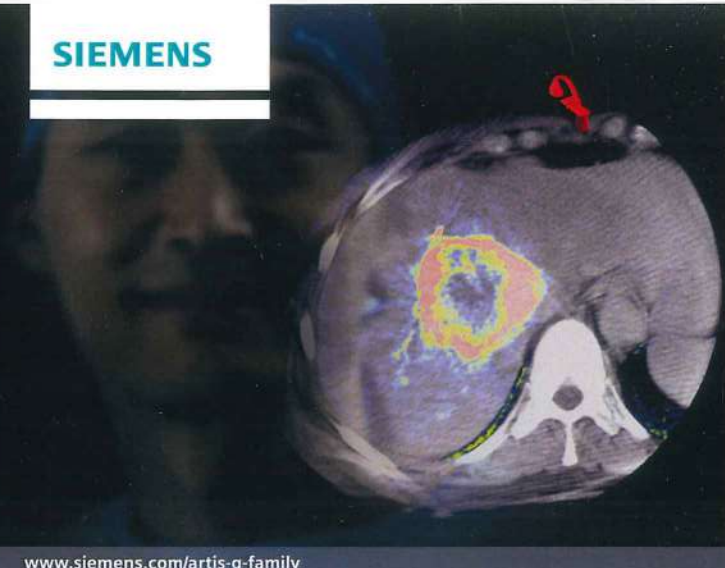

Dio ovogodišnjeg programa odnosi se na protokole snimanja i transfer snimaka neurovaskularnih bolesnika u svrhu standardizacije snimaka na različitoj aparaturi u pojedinim hrvatskim ustanovama.

Zahvaljujemo na velikom odazivu slobodnih izlaganja u obliku elektronskih poster-prezentacija.

Nadamo se da ovo, drugo izdanje našeg stručnog i prijateljskog druženja ispunjava vaša očekivanja i da ćete nam se i slijedeći puta pridružiti u što većem broju.

Prof.dr.sc. Marko Radoš / Predsjednik skupa
 Dr.sc. Goran Pavliša / Predsjednik znanstvenog odbora

**Visionary intervention –
 ultra-low-dose**

Artis Q and Artis Q.zen: fighting the most threatening diseases

The Artis Q and Artis Q.zen, our new product lines for interventional imaging, are visionary breakthroughs in X-ray generation and detection taking performance, precision, and sensitivity to the next level.

Both systems offer unparalleled performance with a new X-ray tube entirely developed around the unique flat emitter technology. What's more, with the Artis Q.zen we introduce the crystalline silicon detector, a groundbreaking new

detector technology that results in enhanced sensitivity at low-dose levels. In the fight against the most threatening diseases like coronary artery disease, stroke, and tumors, the Artis Q and Artis Q.zen come with innovative applications to support precise guidance during interventional procedures.

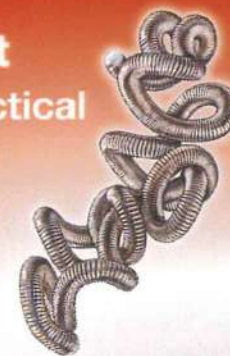

Artis Q and Artis Q.zen – experience the future of interventional imaging.

Answers for life.

Thrombectomy / Ischemic Stroke Advancements

ERIC
Embolic Retriever with Interlinked Cages

Innovations in Thrombectomy
Making Recanalization Easier, Faster and more Secure

Interlinked Cage Technology
 Faster clot integration
 More secure thrombectomy
 Atraumatic retraction

More Secure Thrombectomy
 The ERIC® Retrieval Device is designed to retain the clot more effectively throughout device retraction.

Atraumatic Retraction
 The parallel strut design of the individual cages promotes atraumatic retraction.

Sofia
Distal Access Catheter
Soft torquable catheter Optimized For Intracranial Access

Enhanced control and stability for superior microcatheter performance and reliable device delivery

SHAPABILITY
 Steam shapability allows the Sofia® catheter to steer past difficult bifurcations

STABILITY
 Braid & coil design enhances stability allowing distal navigation of interventional devices

NAVIGATE
 Hybrid braid & coil design allows the Sofia® catheter to navigate further distal

TORQUE
 Braid overlay provides exceptional torque control for easier vessel selection in tortuous bends

REINFORCEMENT
 Coil reinforcement provides excellent kink resistance

15.4.2016 (Petak)

8,00 - 10,00 Dolazak i registracija
 10,00 Pozdravna riječ , prof.dr.sc. Marko Radoš

Oslikavanje poremećaja spinalnog kanala - predavanja u trajanju 25 min + 5 min rasprave

Moderatori: prof. dr.sc. Marko Radoš, dr.sc. Goran Pavliša

10,05 - 10,30 Pavliša G. Kongenitalni poremećaji kralježnice
 10,30 - 11,00 Tripalo-Batoš A. MR dječje kralježnice - naša iskustva
 11,00 - 11,30 Zdravec D. Degeneracija i hernija diska - važnost terminologije i klasifikacije
11,30 - 12,00 Pauza za kavu

Moderatori: prof.dr.sc. Katarina Šurlan-Popović, doc.dr.sc. Krešimir Dolić

12,00 - 12,30 Vavro H. Vrtljiva lica kralježnice
 12,30 - 13,00 Bartlett R. Dinamičko oslikavanje kralježnice
 13,00 - 13,30 Dolić K. Traumatske lezije kralježnice
13,30 - 14,30 Ručak

Moderatori: prof.dr.sc. Majda Thurnher, prof.dr.sc. Stošić-Opinčal

14,30 - 15,00 Thurnher M. Diferencijalna dijagnoza mijelopatija
 15,00 - 15,30 Šurlan Popović K. Radiološki prikaz infektivnih poremećaja kralježnice
 15,30 - 16,00 Rumboldt Z. Diferencijalna dijagnoza degenerativnih i inflamatornih poremećaja
 16,00 - 16,30 Stošić-Opinčal T. Stenoza spinalnog kanala

Poster prezentacije: paralelno s glavnim programom dostupne na računalima tijekom cijelog sastanka

19,00 Večera Svi sudionici

Polazak iz hotela u 18:45 organizirano autobusima prema Hrvatskoj kući pršuta - Roca koja se nalazi 15ak minuta od Vodica. Po dolasku domaćin Ante Roca će nam pokazati imanje i proces nastanka suhomesnatih delicija koje proizvode, nakon kojeg slijedi večera - <http://www.kuca-dalmatinskog-prsuta.hr/>

April 15th (Friday)

8,00 - 10,00 Arrival and registration
 10,00 Word of welcome , prof.dr.sc. Marko Radoš

Imaging of spinal canal disorders - 25 min lectures + 5 min discussion

Moderators: prof. dr.sc. Marko Radoš, dr.sc. Goran Pavliša

10,05 - 10,30 Pavliša G. Congenital spine abnormalities
 10,30 - 11,00 Tripalo Batoš A. MRI of the pediatric spine - our experience
 11,00 - 11,30 Zdravec D. Disc degeneration and hernia - the importance of terminology and classification
11,30 - 12,00 Coffee break

Moderators: prof.dr.sc. Katarina Šurlan-Popović, doc.dr.sc. Krešimir Dolić

12,00 - 12,30 Vavro H. Slippery spine statistics
 12,30 - 13,00 Bartlett R. Dynamic imaging of the spine
 13,00 - 13,30 Dolić K. Traumatic spine lesions
13,30 - 14,30 Lunch

Moderators: prof.dr.sc. Majda Thurnher, prof.dr.sc. Tatjana Stošić - Opinčal

14,30 - 15,00 Thurnher M. Differential diagnosis of myelopathy
 15,00 - 15,30 Šurlan Popović K. Imaging of spine infections
 15,30 - 16,00 Rumboldt Z. Degenerative vs. inflammatory spine changes
 16,00 - 16,30 Stošić-Opinčal T. Spinal canal stenosis

Poster presentations: available on PCs during the whole meeting

19,00 Dinner - All participants

Departure from the hotel at 18:45 by buses towards the Croatian house of prosciutto - Roca, located 15 minutes drive from Vodice. Upon arrival our host Ante Roca will show us his estate and the process of making cured meat delicacy as well as prosciutto - <http://www.kuca-dalmatinskog-prsuta.hr/>

16.4.2016 (Subota)

Oslikavanje poremećaja spinalnog kanala - predavanja u trajanju 25 min + 5 min rasprave

Moderatori: prof.dr.sc. Zulejha Merhemici, dr.sc. Martina Špero

9,00 - 9,30 Kovačić S. Koštane sekundarne lezije kralježnice
 9,30 - 10,00 Špero M. Ekstraduralni tumori kralježnice
 10,00 - 10,30 Lučić M. Intraduralni ekstramedularni tumori
 10,30 - 11,00 Merhemici Z. Intramedularni tumori
11,00 - 11,30 Pauza za kavu

Intervencijski postupci - predavanja u trajanju 25 min + 5 min rasprave

Moderatori: prof.dr.sc. Mario Muto, doc.dr.sc. David Ozretić

11,30 - 12,00 Muto M. Novosti u perkutanom liječenju kralježnice
 12,00 - 12,30 Muto M. Napredne endovaskularne metode u liječenju nerupturiranih aneurizmi
 12,30 - 13,00 Poljaković Z. Spinalne arterio-venske malformacije
 13,00 - 13,30 Ozretić D. Intervencijsko liječenje spinalnih AVM
 13,30 - 14,00 Vukić M. Neurokirurgija kralježnice - što radiolog treba znati
14,00 - 15,00 Ručak
 15,00 - 16,30 Standardizacija protokola snimanja i transfer snimaka između institucija.

Moderator: prof. Marko Radoš

16,30 Proglašenje najbolje poster prezentacije
 17,00 Zatvaranje skupa

Poster prezentacije: paralelno s glavnim programom dostupne na računalima tijekom cijelog sastanka

April 16th (Saturday)

Imaging of spinal canal disorders - 25 min lectures + 5 min discussion

Moderators: prof.dr.sc. Zulejha Merhemici, dr.sc. Martina Špero

9,00 - 9,30 Kovačić S. Secondary bone lesions
 9,30 - 10,00 Špero M. Extradural tumours.
 10,00 - 10,30 Lučić M. Intradural ekstramedullary tumours
 10,30 - 11,00 Merhemici Z. Intramedullary tumours
11,00 - 11,30 Coffe break

Interventional procedures-25 min lectures + 5 min discussion

Moderators: prof.dr.sc. Mario Muto, doc.dr.sc. David Ozretić

11,30 - 12,00 Muto M. Update on percutaneous spine treatment
 12,00 - 12,30 Muto M. Advanced EV treatment for unruptured
 12,30 - 13,00 Poljaković Z. Spinal vascular disorders
 13,00 - 13,30 Ozretić D. Interventional treatment of spinal vascular disorders
 13,30 - 14,00 Vukić M. Spinal neurosurgery - what does a radiologist need to know
14,00 - 15,00 Lunch
 15,00 - 16,30 Standardization of imaging protocols and image transfer

Moderator: prof. Marko Radoš

16,30 Selection of best poster presentation
 17,00 Closing word

Poster presentations: available on PCs during the whole meeting
