BESPOKE EXPERIENCES

WELCOME TO BALI

We are pleased to offer a selection of activities and excursions specifically designed to provide you with a uniquely Bambu Indah and authentically Balinese experience.

Bali evokes the reminiscence of a forgotten paradise, an unknown intriguing secret and sacred ancestor's land, where the local people honor their gods with colorful and symbolically intricate ceremonies. Bali is more than just another tropical island.

Bali is an experience, a lifestyle, a way of being, a way of thinking and embracing what comes. You can only get the genuine essence of Bali if your hands and heart are open to receiving this truly magical offering.

You will find here our best recommendations for a few bespoke activities to find your way to the real Bali. You will not be able to do everything. You should never feel guilty about doing nothing. Bali has a plan for everyone, and we have a few suggestions too.

Create your own unique path through this journey, allow yourself to get lost a little, and embrace the magic that comes with surrendering to the unknown.

RICE PLANTING & HARVESTING *(based on season)*

Our rice paddies are a quintessential part of the Bambu Indah experience — they are regenerating the land to how it was used centuries ago, and they provide all of the rice we serve our guests. Most visitors who have eaten rice all their lives have never had the pleasure of planting or harvesting it.

Several times a year, we invite you to help us do both — it's straightforward, if strenuous, work, but also meditative and fulfilling. The effect can be very powerful. Guaranteed, you'll find a new appreciation for rice!

VISA ON ARRIVAL Your VOA can be purchased directly at the airport, and it will last for exactly 30 days. You will be able to pay in various currencies at the arrival gate. Note that the VOA is not required for all countries.

MOBILE PHONE

Getting an Indonesian SIM card is a simple operation. Your phone must be unlocked to use an overseas SIM card. A local phone can also be purchased easily for as little as 300'000 Rp. The credit for cell phone use, which is called “pulsa” can be bought in many local shops (Circle K, Alfamart, Indomarket...). You can also purchase Internet credit “data” for cellular data usage. 100'000 Rp worth of pulsa/data can be enough for local phone calls and texts and some navigation and web browsing. Note that it is standard for local vendors to add a very small transaction fee (3'000 Rp) when you buy credit.

CURRENCY & BANKING

Find daily exchange rates on the website <http://www.xe.com>. Debit cards are not accepted in most hotels, shops and restaurants. It is safer to travel with more than one credit card, in case of a problem. Always carry enough cash with you, especially when traveling to remote places where ATMs are less easy to find (North and West Bali, Nusa Lembongan, Nusa Penida, Gili Islands).

AIRPORT DEPARTURE TAXES

It is usually included in ticket price. Please contact your airline or travel agent for further information.

TAXES

It is common in Bali to list prices without including the 21% government tax and service charges. Take the time to check in order to avoid being surprised with a different bill than you expected.

SCOOTERS

Many people travel using scooters on the Island, as it is more convenient during high traffic times, and also a nice way to discover the local life and hidden paths. The fun is obvious, but traveling on two wheels has its risks. We strongly advise taking cars over scooters whenever possible, and we advise not driving a scooter if you've never driven one before. To legally drive a scooter in Bali you must hold an international driver's license, usually procured in your home country. Please note that many travel insurance companies will not cover you without the proper license.

TAXIS

Make sure you always agree on a price before departing. Various areas are ruled by the local taxis, making it sometimes impossible to call online taxis (Gojek/Grab) to pick you up. Online taxis tend to be available in Kuta, Legian, Seminyak and some parts of Canggu, Uluwatu and Ubud, but not all. We are happy to help you arrange cars and drivers, including to and from the airport.
