COMPANY OVERVIEW

Founded in 2019, headquartered in Harrisonburg VA in the beautiful Shenandoah Valley, ProMetal extends our range to all markets east of Texas and throughout the Mid-Atlantic region. As a professional installer of exterior building facades, we only provide high performance results. Our projects range from 10,000 to 100,000 sq ft. Pro Metal is dedicated to durable, long lasting solutions through the product of our services. We aim to build long-term relationships with our clients while keeping an eye on their aesthetic appeal and functional requirements.

Moving Forward.

DIFFERENTIATORS

- Extensive expertise in a wide range of materials, including metal composite panels, fiber cement, high-pressure laminate, and a variety of other materials.
- We only work with high quality materials that are durable and weather proof.
- We provide high performance installations in time sensitive situations.
- As a team, we have experience managing large-scale projects.
- We have bilingual staff and professional field crews on hand.
