LOOP ERP

How AI Grading Changes the Game

HOW AI-POWERED GRADING TRANSFORMS SCRAP OPERATIONS

A side-by-side look at manual vs. automated image recognition workflows.

MANUAL GRADING PROCESS

Photo Taken (or Not)

Human Guesswork

Data Entered in Spreadsheet

Priced Based on Estimate

Disputes or Downgrades

AI-POWERED GRADING WITH LOOP ERP

✓ Photo Taken via Mobile Device

✓ AI Analyzes Scrap Type & Condition

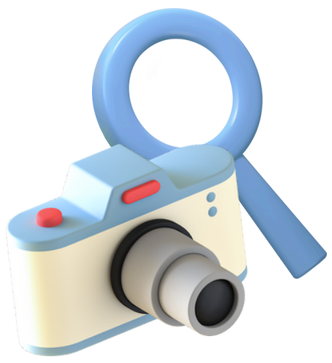
✓ Image Attached to Record

✓ Automated Pricing Triggered

✓ Full Traceability & Audit Trail

PAIN POINTS

Inconsistent grading
Prone to human error
No photo-to-record link
Poor traceability



BENEFITS

Consistent, data-backed grading
Faster processing
Reduces disputes
Improves pricing confidence
Audit-ready documentation

LOOP ERP

Loop ERP: Built for the Scrap & Recycling Industry

LOOP ERP ISN'T JUST ANOTHER ERP

—IT'S PURPOSE-BUILT FOR SCRAP AND RECYCLING BUSINESSES THAT DEMAND SPEED, VISIBILITY, AND EFFICIENCY ACROSS THEIR OPERATIONS.

Whether you're dealing with mixed loads, variable pricing, or downstream compliance requirements, Loop ERP delivers a **unified platform** to manage it all—from purchasing and grading to inventory, logistics, billing, and financials. No bolt-ons, no workarounds—just seamless integration across your entire operation.

TRANSFORM YOUR OPERATION WITH AI + ERP

With **AI image recognition**, Loop ERP eliminates inconsistent grading and human guesswork. Photos captured via mobile devices are instantly analyzed for scrap type and condition, triggering automated pricing and full record traceability. It's faster, more accurate, and auditable.

WHY LOOP ERP?

Designed for Scrap: Loop ERP understands the unique needs of scrapyards and recycling operations—grading, downgrades, price disputes, image capture, audit trails, and more.

All-in-One Platform: Financials, procurement, sales, operations, and compliance—Loop ERP connects your business in one place, reducing manual work and boosting productivity.

AI-Powered Intelligence: From automated scrap grading to intelligent pricing suggestions and audit-ready documentation, Loop ERP uses AI to improve speed, accuracy, and profitability.

End-to-End Traceability: Every image, grade, and price is tied to a record. Loop ERP ensures full visibility from yard intake to final sale.

Efficiency at Every Turn: Stop juggling spreadsheets, disconnected apps, or legacy software. Loop ERP centralizes your workflows and eliminates guesswork.
