

Professional Services Edition

GROW WITH A MODERN PROJECT-CENTRIC ERP PLATFORM

“Our operation managers are analyzing their profits and losses much better. We are able to look at which projects we are not doing well on—talk about those—and figure out how to do things differently next time and not make the same mistakes.”

Gary Gardner, CEO, Industrial Specialty Services
Industry: Engineering and Technical Solutions

Professional Services

Acumatica Professional Services Edition is a comprehensive modern cloud ERP application with project management, project accounting, and resource management. Embedded CRM gives firms detailed records of client interactions, proposals, contracts, and payments. Empower clients with the ability to access service and support cases from the self-service portal.

Its superior mobile capabilities arm employees in the field with time and expense tracking, and real-time project data using role-based dashboards. The user-friendly platform includes flexible billing, including milestone, fixed-price, or time and material billing, coupled with change management, and robust

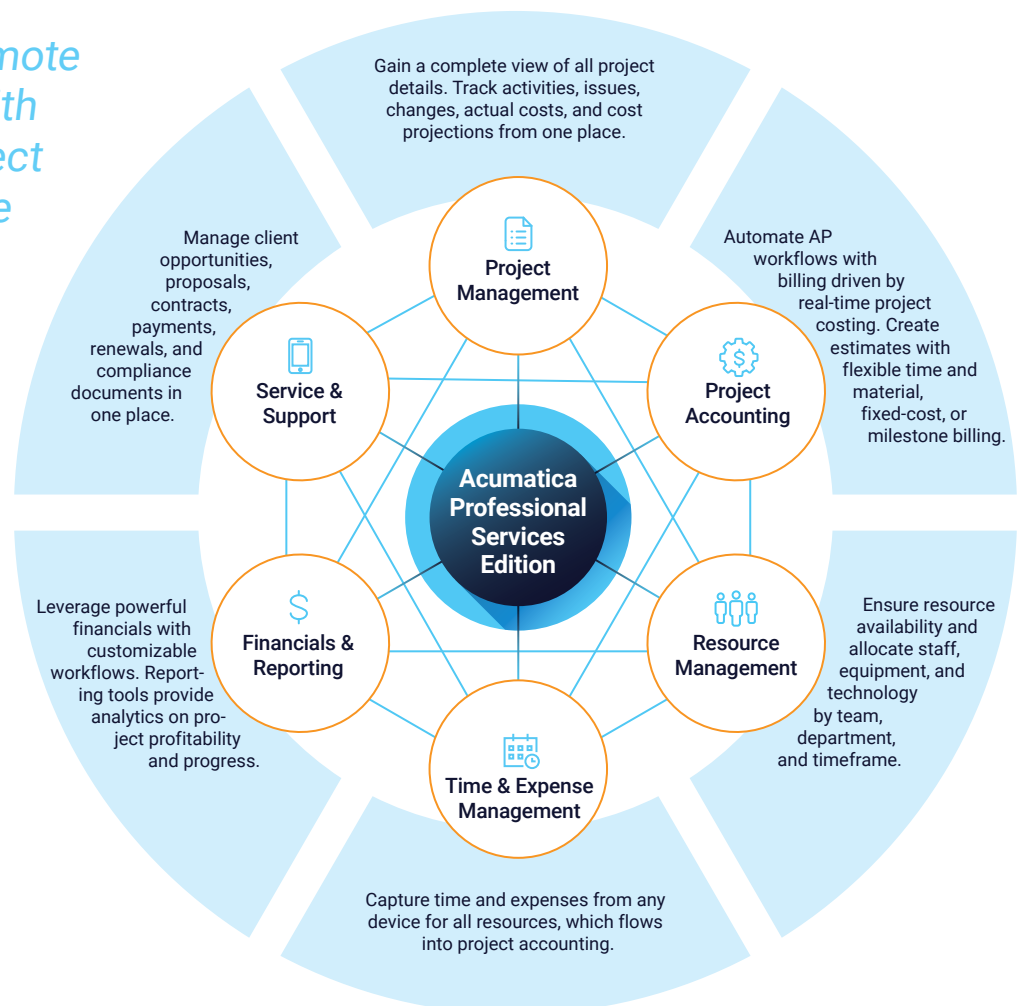

financials with forecasting, payroll, and cash management. Manage the process of recognizing revenue with automation workflows. Dashboard drilldown reports easily identify changes in project scopes, labor, materials, and equipment.

Connect to popular applications for a platform that is tailored to your organization's complex and evolving business needs. Automate routine tasks and improve data processing for accounts payable and other business operations with native artificial intelligence and machine learning. Optimize resource allocation and eliminate project timeline delays with a complete professional service solution.

Connect office and remote workers in real-time with cloud and mobile project management, resource allocation, and accounting software.

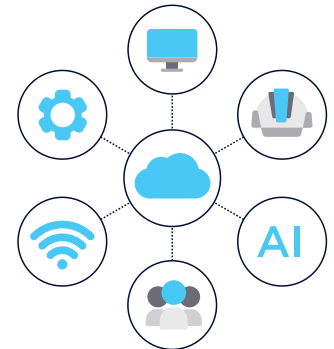

"Acumatica definitely positions us for growth. The way we were doing things was outdated. Acumatica better aligns with our growth path and ever evolving business needs."

Randy Giesecking, President,
Safety Management Group
Industry: Professional Services

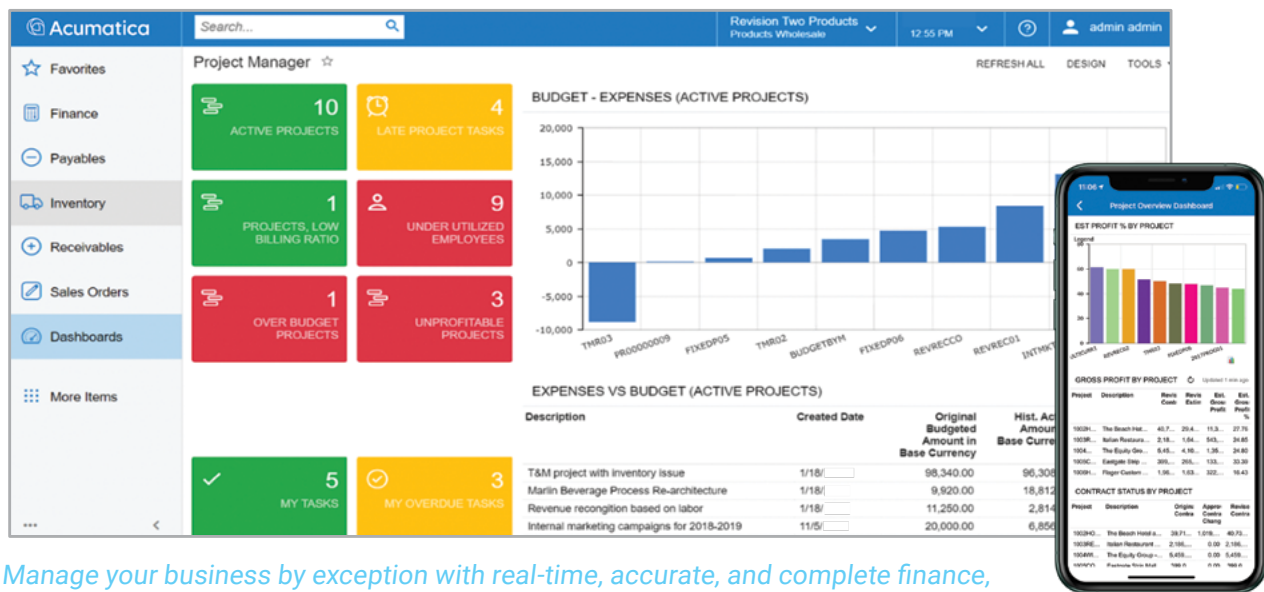

A to Z Functionality for Professional Services

Organizations in the professional services industry navigate a multifaceted and complex business environment that traditional ERP platforms cannot support. Acumatica allows you to grow and evolve with a scalable, secure, and mobile cloud platform. Acumatica's all-in-one solution connects every part of your business—from estimates and proposals, to project and resource management, to field service support. Automate change order workflows and project issue notifications and connect field and office teams in real-time. Gain company-wide visibility into project budgets vs. actual costs, commitments, schedules, and contracts—allowing for tighter project controls and time and money savings. Attach documents and files to projects, comply with industry regulations, and stay informed with daily field reports and mobile access to project. Streamline financials with native payroll management and flexible contracts. Thrill clients with a self-service portal for access to support cases and better communication.

LAUNCH THE VIEWER

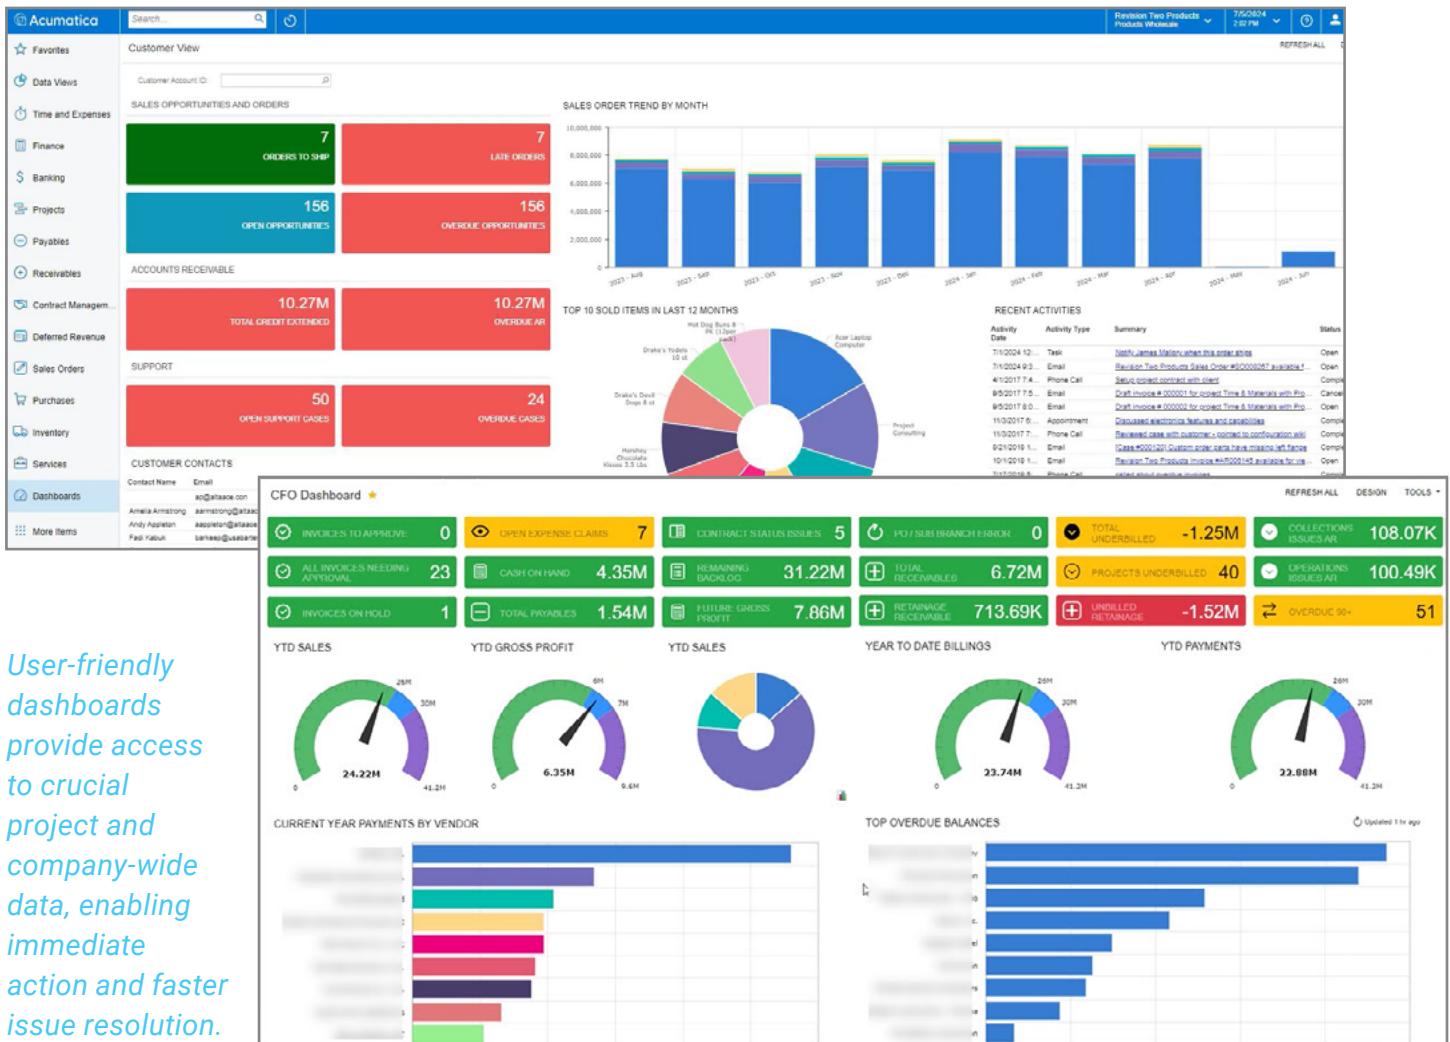

An Innovative Cloud Platform Ready for Modern Technologies

Today's professional service industry demands an ERP platform that ensures scalability and personalization. The ability to integrate new technologies that facilitate growth without extensive IT costs is essential for companies to gain the competitive edge they need to thrive in today's environment.

The Acumatica cloud platform is a versatile architectural framework and application development platform that empowers companies to tailor the software to the way they do business. Acumatica's open architecture provides open APIs, protocols, and tools organizations need to continually incorporate new capabilities into their

platform without disrupting other functions. Machine learning and artificial intelligence automate manual tasks and streamline processes. Low-code or no-code development tools let organizations easily incorporate third-party applications and modern technologies into their ecosystem.

Personalized settings promote an intuitive experience for each user. Customizable reports and dashboards put KPIs and deadlines on top of each user's list of priorities. On-the-go mobility enables users to complete their work wherever they are and enjoy the same intuitive experience regardless of the device.

User-friendly dashboards provide access to crucial project and company-wide data, enabling immediate action and faster issue resolution.

The Trusted Leader in Usability, Mobility, and Value

Acumatica's [Customer Bill of Rights](#) protects customers with an easy-to-understand End User License Agreement. It guarantees ERP implementations without hidden fees. The Bill of Rights outlines Acumatica's commitment to consumption-based licensing that does not inhibit growth. It provides sustainable pricing models with limited price increases, deployment choice, and consistent customer service access. It also protects customers' access to their data, so they can retrieve it at any time.

Further, Acumatica is consistently [rated high](#) in both usability and value by industry analysts and users. Acumatica was recognized by G2 for Best Relationship, Project-Based ERP, Summer 2024, and Best Estimated ROI, Summer 2024. Acumatica also received the highest honors in the Best ERP Solution CODiE award for 2024.

In addition, Acumatica continues to earn TrustRadius awards, most recently the TrustRadius Top Rated badge. Acumatica also rates consistently high with Nucleus Research and is a Leader in the G2 Mid-Market Grid Report for ERP Systems. Acumatica maintains a near-perfect Overall User Rating on the Gartner Peer Insights report.

"It's all about how Acumatica listens to you and how quickly they respond. They really do want to hear from users to understand our business processes so they can incorporate new features and enhancements to make things even easier. It's just amazing!"
