

Elevate Neo
Next Generation Home Lifts

8-10 Cross Street, Double Bay NSW 2028

Our company is proudly run by Australians, for Australians, with a deep understanding of the unique needs and expectations of home owners, builders and developers across the country. Fully certified and compliant with all relevant Australian standards for passenger lifts, we ensure safety, quality, and reliability in every installation we deliver. Our lifts meet the rigorous requirements of AS 1735 — the Australian Standard for lift design and installation — so you can be confident you're getting a product that is not only tailored to your building, but built to the highest industry standards.

Fully Compliant with Australian Standards

AS 1735 Compliant

Our Factory

We manufacture and install

130,000 elevators per year

Provided services and solutions for

70+ countries globally

Experience Elevation to New Heights

Delivering Excellence in Efficiency
and Product

Our passenger lifts deliver a world-class experience
for any building or home.

Every lift we install is designed with durability and
elegance at its core.

Seamless Experience

Efficient and Stable

Smooth and Quiet Drive

- Our lifts deliver an unparalleled smoothness, ensuring a ride that's virtually silent. Designed for comfort, every journey feels effortless — with minimal vibration and maximum tranquility.

Stable and Safe

- With top-tier engineering, our lifts are built to deliver a reliable and secure ride. Trust in the stability and advanced safety features that provide peace of mind — from boutique residential buildings to the tallest towers in the world.

Elegance Exemplified

- Combining sleek design with premium materials, our lifts seamlessly complement your building's aesthetic — elevating your space with a refined touch that is both sophisticated and functional.

Designed for you

Stylish and Customized

Tailored to Your Vision

- Every lift we install is tailored to your exact specifications, giving you the freedom to design a system that perfectly reflects your style and preferences.

Near Limitless Customization

- From the in-cabin finishes to the control panel buttons, you have the creative freedom to build the lift you want. With every component manufactured in our own factory, the possibilities are endless — and we look forward to bringing your vision to life.

Engineered for You

- Beyond aesthetics, we tailor the technical specifications to suit your exact needs — whether it's space, layout, or functionality, every detail is optimised for the perfect fit.

Steel Belt Product

Overview

A Marvel in Engineering

- The significantly reduced traction sheave size lowers rotational energy consumption and reduces emissions from the host machine
- A wider contact surface increases effective friction, delivering higher traction performance
- High-precision real-time monitoring of lift abnormalities with 5ms-level accuracy

Convenient installation and maintenance

- Extended traction shaft service life, reducing maintenance requirements
- No lubrication required — minimising oil contamination and eliminating fire hazards

Compared to Traditional Rope Products

- Compact design allows for significant savings in machine room height
- A smaller shaft diameter and compact brake design reduce the host machine size by over 60%
- Nearly 20% lighter than conventional wire ropes, significantly reducing traction hanging weight and load on the traction shaft

Support 24/7

For you and those around you

12 months Service Warranty

- Every lift comes with a comprehensive 12-month service warranty, ensuring you're covered for any unexpected issues. Our team is committed to keeping your lift running smoothly for years to come.

24/7 On-Call Support

- Enjoy peace of mind with our 24/7 on-call support. Whether it's a minor issue or an emergency, our dedicated technicians are always just a phone call away — ready to provide immediate assistance.

Reliable Performance

- Our lifts are engineered for long-term reliability, and with regular servicing included, we ensure they operate at peak performance. Your safety and convenience are our top priorities.
