EziLine Safety Keys

www.eztekglobal.com
sales@eztekglobal.com

These Safety Keys are simple, compact and robust tools that isolate the wireline conductor from the logging system and prevent the cable charging. The Eziline Safety Key is available as a Single Conductor, Hepta and Mono Conductor, and Dual Mono Conductor.

Features:

- 3 way key switch – LOG, Safe, Patch (access to cable for third party panel)
- Removable key in SAFE position only
- Complies with API RP67 standard on explosive safety
