Bluechip Industrial Services Pty Ltd · ABN 93 656 549 889 · 39 Success Way, Henderson WA 6166 · (08) 9419 2205

These Terms apply when Bluechip buys goods, materials or subcontract services. They are published at www.bisau.com.au and referenced on every Bluechip Purchase Order for goods and services.

1. Application and acceptance

- (a) These Terms apply to every Purchase Order Bluechip issues for goods or services, unless a contract signed by both parties says otherwise. Contract labour is covered by Bluechip's Contract Labour Hire Terms.
- (b) The Supplier accepts these Terms by accepting the Purchase Order, delivering any goods or starting any services. A signature is not needed.
- (c) Terms on the Supplier's quotation, docket or invoice do not apply unless Bluechip agrees to them in writing.

2. Definitions

Bluechip means Bluechip Industrial Services Pty Ltd and its successors and assigns.

Goods means the goods and materials described in the Purchase Order.

Purchase Order means a written order issued by Bluechip, including by email.

Services means the services described in the Purchase Order, such as galvanising, NDT, machining, crane hire or transport.

Supplier means the business named on the Purchase Order.

3. Prices, invoicing and payment

- (a) Prices are as stated on the Purchase Order, in Australian dollars, exclusive of GST, and include packing, certificates and delivery to the address on the Purchase Order unless stated otherwise.
- (b) Invoices must quote the Purchase Order number and job number and be a valid tax invoice. Bluechip may return an invoice without them.
- (c) Bluechip pays a correct invoice within 42 days of the end of the month it is received. Bluechip may withhold payment for goods or services in dispute until resolved.
- (d) No extra charge, price change or variation applies unless Bluechip agrees in writing before the work is done.

4. Delivery

- (a) Goods must arrive on the date and at the address on the Purchase Order, between 7:00 am and 3:00 pm on weekdays unless agreed.
- (b) Each delivery must have a docket quoting the Purchase Order number, item descriptions and quantities.
- (c) The Supplier must tell Bluechip straight away if a delivery date will be missed, with a new date.

5. Certificates and quality

- (a) Goods and Services must match the Purchase Order, drawings and specifications, comply with the Australian Standards they reference, and be new, of merchantable quality and fit for their stated purpose.
- (b) Steel and structural materials must come with mill certificates to EN 10204 3.1, traceable to the heat number, unless the Purchase Order says otherwise. Service reports (such as galvanising, NDT or calibration) must reference the Purchase Order and job number.
- (c) Goods without the required certificates are not delivered complete, and Bluechip may withhold payment until they are received.
- (d) The Supplier must tell Bluechip straight away of any non-conformance, and cooperate with Bluechip's non-conformance and corrective action process.

6. Inspection and rejection

- (a) Bluechip and its client may inspect Goods or Services at the Supplier's premises on reasonable notice.
- (b) Bluechip may reject Goods or Services that do not conform, within a reasonable time after delivery. The Supplier must collect rejected Goods at its cost and replace or reperform them promptly, or refund the price.
- (c) Inspection or payment does not mean Bluechip accepts a defect.

7. Title and risk

Title and risk in Goods pass to Bluechip on delivery to the address on the Purchase Order, unless the Goods are rejected. Free-issue material Bluechip sends to the Supplier (for example for galvanising) stays Bluechip's property and at the Supplier's risk while in its care.

8. Warranty

The Supplier must repair or replace, or re-perform, at its cost, any Goods or Services that are defective or do not conform, notified within 12 months of delivery or completion. Any manufacturer's warranty is passed through to Bluechip.

9. Subcontract work on Bluechip's premises or sites

Where the Supplier's people work at Bluechip's workshop or a site (for example crane crews, NDT technicians or service technicians):

1. they must complete Bluechip's induction and any client site induction before starting;
2. they must hold the licences and qualifications for the work, with copies given to Bluechip before they start;
3. they must follow Bluechip's safety procedures, SWMS, permits, site rules and supervisor instructions, and Bluechip's fitness for work and drug and alcohol policy;
4. they must report every incident, injury, near miss and hazard to Bluechip immediately;
5. the Supplier and Bluechip will consult, cooperate and coordinate on shared risks under the Work Health and Safety Act 2020 (WA);
6. plant and equipment brought to site must be safe, maintained, and carry current inspection and certification records.

10. Insurance

- (a) The Supplier must hold public and products liability insurance of at least \$20 million for each claim.
- (b) Where its people work on Bluechip's premises or sites, it must also hold workers compensation insurance for them, and motor vehicle insurance for vehicles used.
- (c) Where it provides design or engineering, it must hold professional indemnity insurance of at least \$5 million.
- (d) The Supplier must give certificates of currency on request.

11. Environment

The Supplier must provide safety data sheets for hazardous goods, take back its packaging and pallets where agreed, and follow Bluechip's waste, spill and dust controls on Bluechip's premises.

12. Confidentiality and intellectual property

- (a) The Supplier must keep confidential Bluechip's drawings, pricing and client information, and use them only for the Purchase Order.
- (b) The Supplier warrants that the Goods and Services do not infringe anyone's intellectual property, and indemnifies Bluechip against any claim that they do.

13. Indemnity and liability

- (a) The Supplier indemnifies Bluechip against any loss, cost or liability arising from defective or non-conforming Goods or Services, the Supplier's breach of these Terms, or its negligence, reduced to the extent Bluechip caused or contributed to it.
- (b) Bluechip is not liable to the Supplier for loss of profit or any indirect or consequential loss.

14. Cancellation

Bluechip may cancel a Purchase Order by written notice if the Supplier breaches these Terms or misses a delivery date, or for convenience on 7 days' notice. For cancellation for convenience, Bluechip pays for Goods delivered, Services performed, and the Supplier's reasonable unavoidable costs up to the date of notice.

15. Governing law

These Terms are governed by the laws of Western Australia. Each party submits to the jurisdiction of the courts of Western Australia.

16. General

- (a) Assignment and subcontracting: the Supplier may not assign a Purchase Order, or subcontract the work, without Bluechip's written consent.
- (b) Changes: Bluechip may update these Terms by publishing a new version at www.bisau.com.au. An update applies only to Purchase Orders issued after it is published.
- (c) Waiver: a waiver is effective only if in writing and signed by Bluechip.
- (d) Severance: any provision that is invalid or unenforceable is read down so far as needed, or severed, and the rest continues.
- (e) Notices: notices may be given by email to the last address the other party has used for the Purchase Order.
- (f) Entire agreement: these Terms and the Purchase Order are the whole agreement for the supply and replace earlier understandings about it.
