Terms and conditions

DEALERS

Prices

Prices do not include transportation, taxes, tariffs or any other customs charges. All bank transfers must be made in Euros (€). The amount the Supplier receives must be the same as on the invoice.

Payments

All payments must be paid in advance, before the products leave our warehouse.

The proforma invoice must be paid within 10 days from the date of the issue. If the payment has not been received, the order will be canceled.

Logistics

The costs of shipping are based on each individual order.

Shipments are made from our central warehouse in Zagorje ob Savi, Slovenia. The logistics are usually handled by our transport company. In case the Dealer prefers using their own logistics company to handle transportation they are free to do so.

In latter case, the Dealer is responsible for the package from the moment the package leaves our warehouse.

Discounts for quantities

Special discount found in the table below is applied in case of larger order amounts.

- | | |
|---------------------|--------------------|
| • €5.000 - €10.000 | extra 10% discount |
| • €10.000 - €15.000 | extra 12% discount |
| • €15.000 - €25.000 | extra 15% discount |
| • €25.000 or more | extra 20% discount |

Order procedure:

1. Customer order
2. Fill out the Customer Data Form
3. We send Proforma invoice
4. After payment, the shipment is organized (customer has a right to organize their own transport)
5. We send the tracking number and delivery date

Usually it takes 2-3 days from the they of the payment for the shipping agent to pick up the package.

Taxes

European Union

For the customers with a VAT number registered in the VIES database, we issue invoices without Slovenian VAT. You can provide your valid VAT number in the Customer Data Form

NON European Union

We issue invoices without Slovenian VAT and we also pay the export fees in Slovenia. Import taxes, tariffs and any other taxes that may appear when importing the products are at expense of the buyer/customer.

A black mountain bike is mounted on a DBDtools repair stand. The bike is positioned vertically, with its front wheel at the top and rear wheel at the bottom. The stand is a tall, black metal frame with a horizontal bar that holds the bike. The background shows a workshop with various tools hanging on a wall and a workbench.

DBDtools

Elevating Bike Repair

E-Billy was designed to make every mechanics' task as easy as possible. From clamping the bike, lifting it with a single button press, rotating it with minimum effort and keeping all your tools close, it really will spoil you.
