

NATIONAL BOARD OF RELIGIOUS
INSPECTORS AND ADVISERS

Religious Education Directory Assessment Toolkit

The RED Assessment Toolkit has been developed by members of NBRIA (The National Board of Religious Inspectors and Advisers) in conjunction with the CES (Catholic Education Service) to support dioceses and their schools* in assessing the 'Expected Outcomes' and the 'Ways of Knowing' found in the RED (Religious Education Directory).

Drawing on contemporary thinking on pupil assessment and assessment in RE, specifically, the Toolkit is designed to be a practical, classroom resource for teachers.

In the Toolkit you will find:

- A small collection of suggested readings on contemporary assessment.

And the following documents:

- 'Guidance and Principles for Assessment in Religious Education'
- 'Using Questions for Assessment in Religious Education'
- 'Ways of finding out what pupils know in Religious Education'

The Toolkit is a dynamic set of documents which will be updated as needs emerge. We hope that they will support good teaching and assessment in RE and enable pupils to progress and flourish in their learning.

**'School' means a Catholic school as understood in canon 803, and includes all Catholic maintained schools, independent schools (including academies), non-maintained special schools, and sixth form colleges. (RED, p7)*
