LONGPOINT

ETFs

RISK DISCLAIMER

LongPoint's Proprietary ETFs, which included the Mega ETFs, Savvy ETFs and Geared ETFs (the "Proprietary ETFs"), are all alternative mutual funds, and as such, are permitted to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds. The Proprietary ETFs are highly speculative and use a significant amount of leverage which magnifies gains and losses.

The Proprietary ETFs are intended for use in daily or short-term trading strategies by very knowledgeable, sophisticated investors. If you hold a Proprietary ETF for more than one day, your return could vary considerably from that ETF's daily target return. The Proprietary ETFs are not suitable for investors who do not intend to actively monitor and manage their investments.

The Proprietary ETFs, through the use of leverage, may experience amplified losses and should not be expected to deliver their daily return objective over any period of time other than daily. The returns of the Proprietary ETFs over periods longer than one day will likely differ in amount and possibly direction from the performance or inverse performance, as applicable, of their daily target for the same period. This effect is more pronounced for the Proprietary ETFs as the volatility of the daily target and/or the period of time increases. An investor in a Proprietary ETF could lose their entire investment within a single day if the daily target experiences a significant gain or loss, as applicable, that day.

Commissions, management fees, and expenses all may be associated with investing in ETFs. Investment objectives, risks, fees, expenses, and other important information are contained in the prospectus; please read it before investing. ETFs are not guaranteed, their values change frequently, and past performance may not be repeated.

This material is for informational purposes only. This material is not intended to be relied upon as research, investment, or tax advice and is not an implied or express recommendation, offer or solicitation to buy or sell any security or to adopt any particular investment or portfolio strategy. Any views and opinions expressed do not take into account the particular investment objectives, needs, restrictions and circumstances of a specific investor and, thus, should not be used as the basis of any specific investment recommendation. Investors should consult a financial and/or tax advisor for financial and/or tax information applicable to their specific situation.

All ETFs, including those that seek to track an index are subject to risk, including the possible loss of principal. Diversification does not ensure a profit or protect against a loss in a declining market. While the LongPoint ETFs are designed to be as diversified as the original indices they seek to track and may provide greater diversification than an individual investor may achieve independently, any given ETF may not be a diversified investment.

The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns.

Before investing in shares of the ETFs, investors should consider their ongoing obligations with respect to insider trading, insider reporting, and take-over bids under the Securities Act (Ontario) or other relevant securities legislation (including National Instruments) and as explained in National Policies. Securities regulators may take the view that these provisions extend to the purchase and sale of Shares of the ETFs as they invest in securities of a single issuer, including on a look-through basis.

All monetary figures are expressed in Canadian dollars unless otherwise noted.

All data contained herein is provided "as is" and LongPoint makes no representation or warranty of any kind, either express or implied, with respect to such data, the timeliness thereof, the results to be obtained by the use thereof or any other matter. LongPoint expressly disclaims any and all implied warranties, including without limitation, warranties of originality, accuracy, completeness, timeliness, non-infringement, merchantability and fitness for a particular purpose.
