Unlock New Business Opportunities with Sentinel

1. Are you a professional service provider in the yachting industry?

2. Do you install electronic equipment and want to expand your service portfolio?

3. Want an easy way to receive new orders and grow your business?

If you answered ‘yes’ to any of these, then the Sentinel Partner Program is for you!

Join our global certified installer network and start earning more today.

To connect a boat to the Sentinel ecosystem, a Boat Monitor must first be installed on board. This cutting-edge device integrates seamlessly with the vessel’s systems, allowing owners to monitor their boat’s status in real time through the Sentinel app.

With Sentinel’s advanced technology, yachts benefit from greater safety, efficiency, and peace of mind. And to make it all possible, every installation requires skilled professionals - that’s where you come in.

From Certification to Earnings:

Simple Steps to Success

1.

Get Certified
Start by completing our comprehensive online training course and passing the certification exam-all from the comfort of your home. The entire process is online, making it easy and convenient to become a certified Sentinel installer at your own pace.

2.

Receive Orders
Once certified, you'll receive direct service requests from Sentinel and our network of clients and dealers. All communication is done through email, ensuring that you stay updated and can easily manage your incoming job requests.

3.

Set Your Schedule
You have full control over your work schedule. Choose the jobs that fit your availability, allowing you to balance your time and grow your business at your own pace.

4.

Earn More
The more jobs you take, the more you earn-giving you the freedom to increase your income with each successful project.

Location	Boat details	Extra Sensors	Travel distance
Northern France	Sailboat, 40-45 ft, 2017	4	60 Km
TOTAL			600 € + VAT

Real Earnings

See the Potential

This example shows how much you can earn as a Silver Partner for a standard installation. The calculation is based on a job that shouldn't take more than 3 hours to complete, allowing you to efficiently add new projects to your schedule and increase your income.

Additionally, if the installation is performed as a **Proactive Installation**, by bringing your own client you can benefit from a **20% partner discount on hardware** - turning it into an extra profit opportunity.

Becoming a **Sentinel Certified Installer** starts with the **Sentinel Virtual Academy** - your first step toward partnership.

The certification process is **fully online**, free of charge, and designed to fit your schedule.

It gives you the essential knowledge and confidence to start working with Sentinel devices and prepare for real installation jobs.

Once you've completed the Academy and passed the exam, you're ready to move on - from learning to earning.

Don't miss out -

Start your certification today!

The Sentinel Partner Program is growing fast, with over 200 certified partners worldwide.
Joining is simple - just complete the Sentinel Virtual Academy and become eligible to receive real installation requests from Sentinel.

VIP EXCLUSIVE ACCESS

Once certified, you'll receive service requests directly from Sentinel - positioning yourself as a trusted expert in your region.

LIMITED SLOTS AVAILABLE

Our partner community now exceeds 200 certified professionals worldwide.
We reserve the right to select and onboard new partners based on regional needs - so the sooner you complete your certification, the better your chances to join.

DEDICATED SUPPORT

Our partnership manager will guide you through every step, ensuring you have all the information you need to succeed.
