56 OCEAN EXPLORER

Computer rendering of Selene 56 Ocean Explorer

New LOOK, *Proven* PERFORMANCE

3000+ NM, Range @ 7 kn

1 or 2 Engines

3 Cabins

2 or 3 Heads

As part of our Ocean Explorer series, the Selene 56 Ocean Explorer features a more open layout, larger windows, and sleeker exterior lines than a comparable Selene Classic Explorer. However, beyond the contemporary look and interior atmosphere, the Ocean Explorer maintains the performance and safety trademarks of every Selene. This includes a powerful raised pilothouse, a Portuguese bridge, and a seaworthy Category A Deep Hull designed for long-range yachting.

Featuring three luxury staterooms, a choice of two or three heads, and a stand-up engine room, the 56 Ocean Explorer perfectly balances the spaciousness and long-range performance of larger yachts with the ease of operation of smaller vessels.

Compared to the Selene 52 Ocean Explorer, the 56 Ocean Explorer also offers a wide range of customization in layout and equipment. In addition to a choice of propulsion system and interior finishings, there are three deck configurations to choose from: Full Wide Body, Port-Side Wide Body, and Standard Two Side Decks.

Put simply, by combining contemporary luxury, traditional craftsmanship and advanced engineering, the Selene 56 Ocean Explorer creates a new benchmark for passage-making trawler yachts.

The Selene 56 Ocean Explorer offers you:

- Choice of single or twin engines from John Deere or Cummins
- Single hydraulic ‘get-home’ or wing engine
- Wide body or standard two side deck configuration
- Galley up or galley down layout
- Bright contemporary interior with choice of finishes
- Larger windows throughout
- Robust systems and standard remote monitoring
- Expansive flybridge with control station and large u-shaped settee
- Spacious lazarette accessible directly from swim step
- FRP hardtop for shade and protection from the elements
- High-end appliances and equipment throughout
