78 OCEAN EXPEDITION

Computer rendering of Selene 78 Ocean Expedition

LONG RANGE CRUISING *in* COMFORT

3600+ NM, Range @ 8 kn

2 Engines

6 Cabins

5 Heads

The new Selene 78 Ocean Expedition is a long-range trawler like no other. Featuring a more open layout, larger windows, and stronger exterior lines than the previous generation of the Selene 78, this 'Expedition' model is impressive both inside and out.

Beyond the contemporary look and brighter interior, the 78 Ocean Expedition maintains the performance and safety trademarks of every Selene. This includes a powerful raised pilothouse, a Portuguese bridge, and a seaworthy Category A Deep Hull designed for long-range yachting.

The Selene 78 Ocean Expedition features standard twin engines, four luxury staterooms, two crew cabins, a walk-in closet, and a standard bar on the flybridge. However, with the added length comes significantly more space for operating, living, and entertaining. With its perfect balance of spaciousness and long-range performance, the Selene 78 is a fantastic choice for owners who plan to do extensive passage-making or live aboard their yachts.

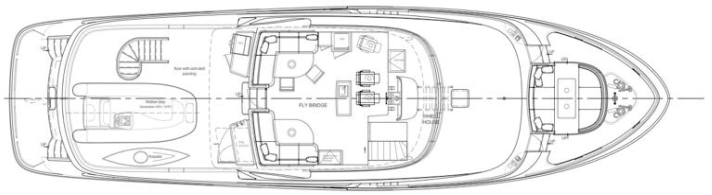

Like all Selene yachts, the Selene 78 Ocean Expedition can be customized to your needs and lifestyle. In addition to a choice of propulsion system and interior finishes, there are three deck configurations to choose from; Full Wide Body, Port-Side Wide Body, and Standard Two Side Decks.

Put simply, by combining contemporary luxury, traditional craftsmanship and advanced engineering, the Selene 78 Ocean Expedition creates a new benchmark for trawler yachts.

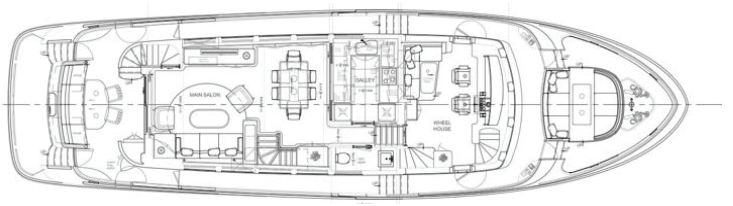

The Selene 78 Ocean Expedition offers you:

- Standard twin engines from John Deere or Cummins
- Option of three different deck configurations
- Bright contemporary interior with choice of finishes
- Larger windows throughout the boat
- Robust systems and standard remote monitoring
- Expansive flybridge with settee that seats 10
- Spacious lazarette accessible directly from swim step
- FRP hardtop for shade and protection from the elements
- High-end appliances and equipment throughout
