

Preston Primary School Knowledge Organiser

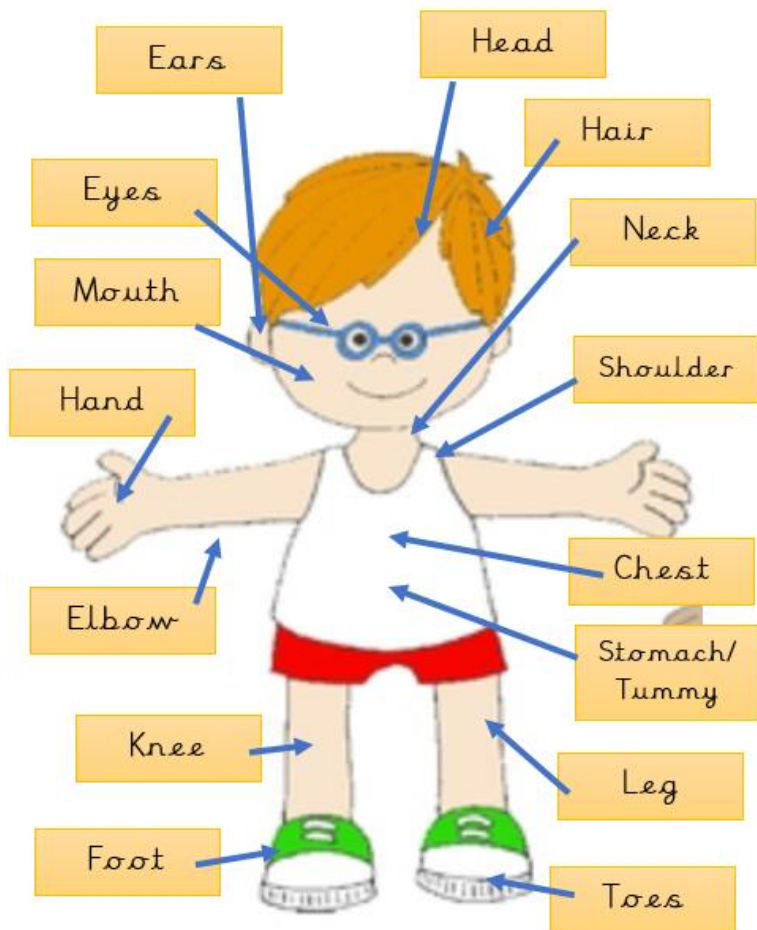

Science: Animals including Humans

Term: Autumn 1
and 2

Unit 2 - Year 1 & 2

Duration: 12 Weeks

Parts of the Human Body

The human body comes in lots of different shapes and sizes, but most are made up of the same parts. Each part has an important job.

We have five senses. These are the human body parts which are linked to each of our senses.

Our Five Senses

Sight

Your eyes and light let you see things all around you.

Smell

You smell using your nose.

Hearing

Your ears let you listen to sounds.

Touch

Your skin gives you the sense of touch.

Taste

Your sense of taste comes from your tongue.

Animal Groups

Mammals

- Give birth to live young
- Have hair or fur
- Moms give babies milk
- Warm-blooded

Birds

- Have feathers and wings
- Lay eggs
- Warm-blooded

Fish

- Breathe underwater
- Lay eggs
- Have scales and fins
- Cold-blooded

Amphibians

- Live on land & water
- Lay eggs
- Moist skin, webbed feet
- Cold-blooded

Reptiles

- Have scales
- Dry skin
- Lay eggs (sometimes live young)
- Cold-blooded

Insects

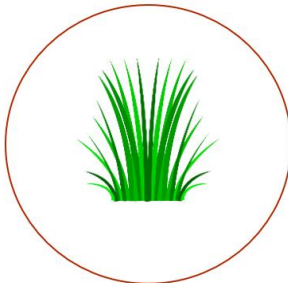

- Six legs
- 3 body segments
- 2 antennae
- Exoskeleton

Key Vocabulary

	Body Parts	The different parts of our body, like our head, arms, legs, and hands, that help us move, feel, and do things every day.
