

One Solution is the official point of sale (POS) partner trusted by Cheney Brothers for 5+ years, and recently became the sole, consolidated partner for both POS and payment processing. *Our mission together is simple and clear: **Provide technology solutions that customers favor and you can leverage for income growth; long term and immediately.***

How?

1. Arm you with technology offerings that perennially bind customers to you, such as embedding tools in the POS to:

- Help you see into their business with them, from identifying what menu items should be purchased more and which ones to remove, to controlling food waste.
- Help them sell more; from auto-upsell recommendations to loyalty programs that spur repeat business.
- Keep CBI in pole position for product ordering by enabling connections from One Solution's point of sale system to CBI ordering platforms.

2. Reward you for every successful referral (upwards of **\$2000** for each and every one).

We provide steep discounts and incentives to lower the barrier to coming aboard with us for all parties' ultimate win.

You get paid while we do all of the heavy lifting, guiding customers on maximizing all of the benefits our best of breed solutions can help them reap. No getting caught up in service calls, or any other minutiae.

So, how do you get started?

Simple. Go about your day in your usual capacity, except take one moment to ask a few questions while you are naturally in front of your customers, which we've laid out in a simple form; the (One Minute) Tech Survey.

Of course, if you already have a hot lead, go right to the Lead Submission form.

For a more thorough overview of the relationship, the program, and the opportunity please take a moment to browse the myOneSolution.net site.

Let's row!
