FORMATURF FLEXBLOCK

Robust. Durable. Versatile

The FlexBlock is made entirely from recycled materials sourced from decommissioned artificial turf systems. It is available in two different sizes and can be quickly and easily assembled into solid barriers or used as a modular component for other wall elements. This makes it ideal as a playing barrier for mini-pitches. FlexBlocks are now available, for example, in the Soccer Courts and mini-pitches of Polytan (PolyPlay Arena GT).

The robust pitch barrier is TÜV-certified and, compared to conventional barriers, reduces noise when the ball rebounds. FlexBlocks can be precisely connected to each other, allowing the creation of larger surfaces. Once installed, the individual elements interlock to form a continuous surface. The visible dimensions per block are 988 x 110 mm.

Advantages:

- Resistant to environmental influences
- Fire class Efl (EN13501-1:2018)
- Made from 100% recycled artificial turf systems
- Water-repellent
- Material does not splinter
- Flexible for modular use
- 100% recyclable
- UV-resistant

Dimensions:

- FlexBlock 1/1: 999 x 98 x 140 mm*
- FlexBlock 1/2: 495 x 98 x 140 mm*

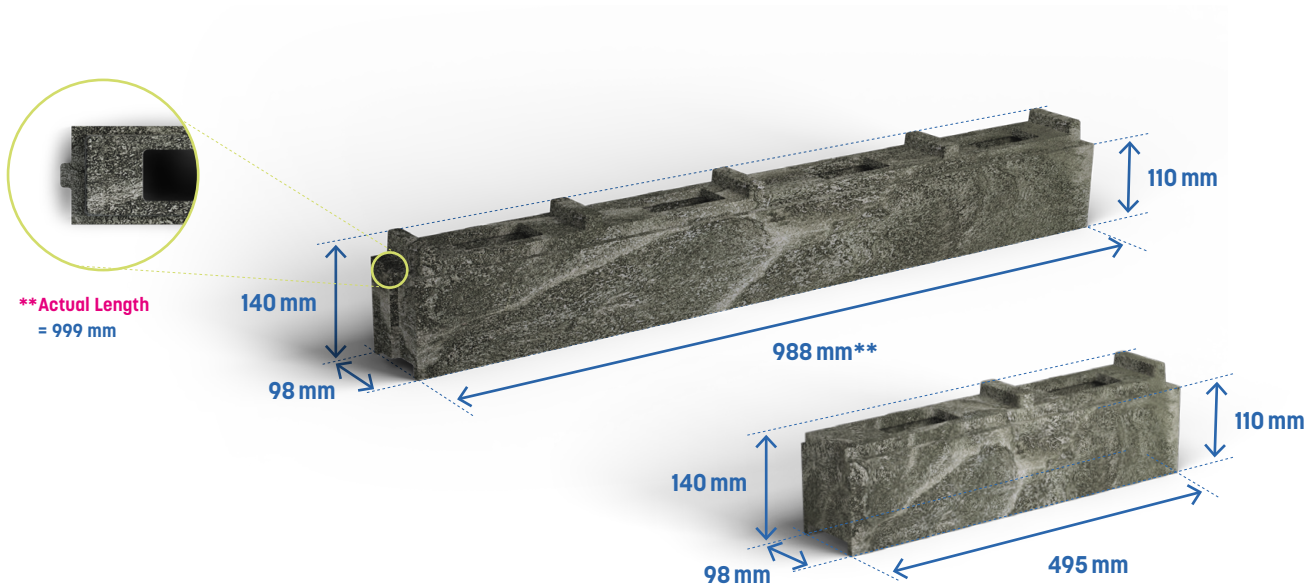

* Please note that minor variations in dimensions and weight (up to ±5%) are possible due to the recycled materials used.

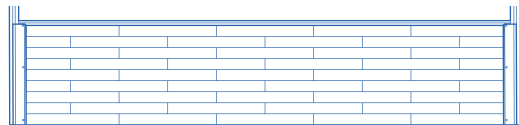

Technical data*

Item no.	Length	Width	Height	Weight	PU	PU Weight	PU Dimensions
510600	999 mm	98 mm	140 mm	6,5-7,5 kg	45 pcs.	330-360 kg	120 x 80 x 105 cm
510605	495 mm	98 mm	140 mm	3,2-3,8 kg	96 pcs.	350-380 kg	120 x 80 x 105 cm

* Please note that minor variations in dimensions and weight (up to ±5%) are possible due to the recycled materials used.

Example of Application: mini-soccer court barrier (PolyPlay Arena GT):
