

Electric Vehicle - Dropside Logistics Vehicle

The AKFS Dropside Logistics Vehicle design is adaptable to numerous electric vehicle chassis cabs currently in the market. Offering a range of Gross Vehicle Weights, users can select vehicles from the 3500kg class up to 7200kg GVW. All options are equally proficient, ensuring a sustainable solution for zero-emission inner-city collection, transportation, and distribution.

To provide you with the highest quality conversions, built upon the most durable and reliable chassis' available, AKFS work with a range of different vehicle brands to find the most appropriate solution to fulfil your needs on either Diesel or Electric chassis, such as: -

Fiat e-Ducato, Peugeot e-Boxer, Citroen e-Relay, MAXUS eDeliver 3 & 9, Ford E-Transit, Iveco eDaily, and Renault Master E-Tech

Built Without Compromise

The ideal solution for transporting heavier machinery or cumbersome tools, our versatile EV Dropside Logistics Vehicle offers you the stability, durability and flexibility you need to get the job done. With ease of access, loading and unloading at the centre of this design, our sturdy Dropside conversion features a lightweight aluminium construction, and many optional features for your complete convenience.

Standard Features include: –

700mm LED light bar
Amber LED flashers at rear
Amber LED flashers grille mounted
Audible reversing alarm
Reversing camera
Work lights
Chapter 8 Pack

Optional features include: –

Auxiliary Power Supply
