About us

BOSQAR INVEST (BOSQAR d.d., together with its subsidiaries) is a European leader that operates in the industries of business process and technology outsourcing, information technology, employment services (HR), and Food.

With an innovative business model, BOSQAR INVEST accelerated its expansion on the market with intensive organic growth and an M&A platform. Through its buy-and-build strategy, it has acquired 84 companies since 2016.

BOSQAR INVEST is focused on improving the profitability and operations of each of its acquired companies through its standardized operational models that result in significant organic growth of all companies inside the group and the group itself.

Today, BOSQAR INVEST operates through several business verticals: the BPTO business vertical (brand: Mplus), the HR business vertical (brands: Manpower and Workplace), the Food business vertical (brand: Future Food), and Other industries.

All business verticals are focused on shareholder value creation through a commitment to best practices in digitalization, structured key accounts management programs, rigorous financial stability and focus on results, and strong and dedicated management teams.

In its ownership structure, BOSQAR INVEST brings together pension funds, institutional investors, international private equity funds, development institutions, and private investors. The BOSQAR INVEST business community consists of over 16,000 employees, and the group's companies operate from 23 countries around the world.
