

NASA SEWP VI

Solutions for Enterprise-Wide Procurement

Contract Holder

SEWP OVERVIEW

NASA SEWP VI (Solutions for Enterprise-Wide Procurement), pronounced "soup," provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The program is self-funded through usage fees (0.34%) and supports more than 50,000 orders a year.

FAIR OPPORTUNITY

FAR 16.505(b)(1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding \$10,000 issued under multiple award contracts. The method is at the discretion of the Contracting Officer (CO), who must document the rationale for placement and price of each order. The SEWP online Quote Request Tool (QRT) is the recommended method to support this and augment decision documentation; it automatically includes the Contract Holders within a selected Group or based on a suggested source.
