

Plug & Play

— PRODUCTIONS —

entertainment specialists

With our expertise in entertainment curation and development, we craft experiences that match your brand values and leave a lasting impression.

about us

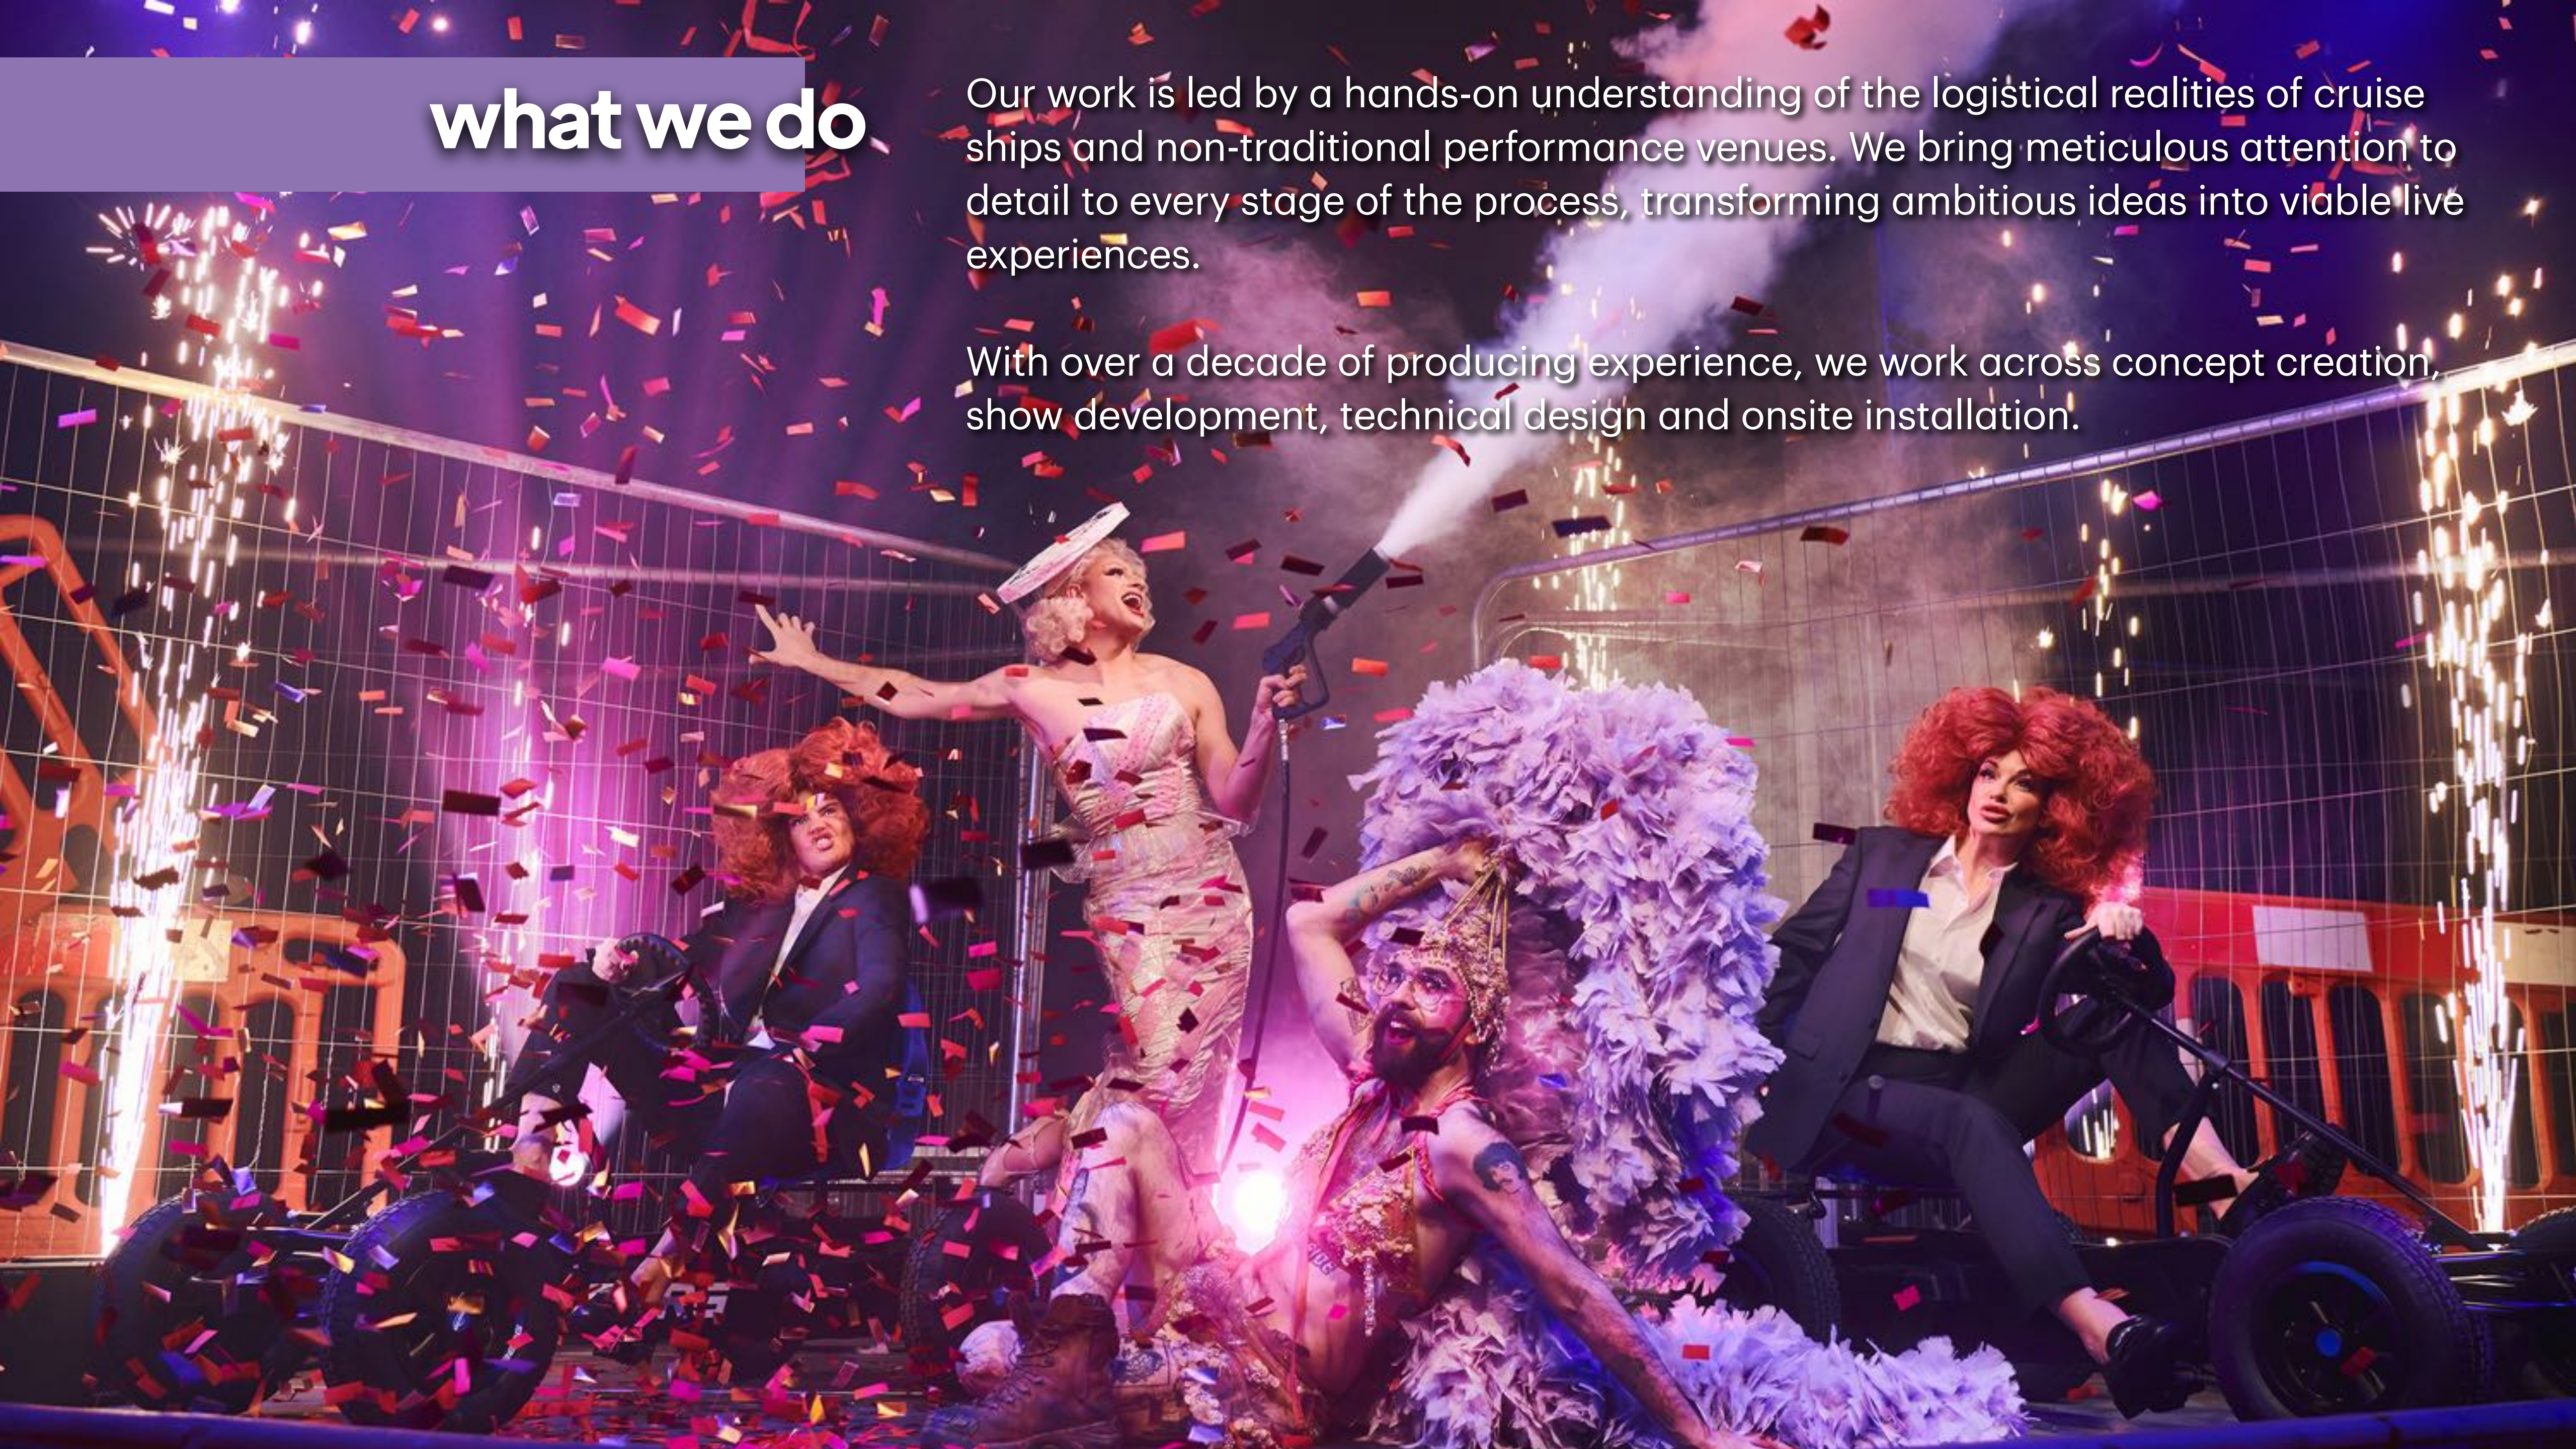

who we are

Plug & Play Productions is a UK-based creative studio developing original work for cruise lines, theatrical venues and immersive live environments. Combining bold creative direction with production expertise, we shape distinctive concepts that are audience-focused, operationally smart and built to last.

what we do

Our work is led by a hands-on understanding of the logistical realities of cruise ships and non-traditional performance venues. We bring meticulous attention to detail to every stage of the process, transforming ambitious ideas into viable live experiences.

With over a decade of producing experience, we work across concept creation, show development, technical design and onsite installation.

our services

concept creation & development

We work closely with you to transform ideas into reality, designing unique entertainment concepts tailored to your venue and audience. Whether you need an original show or experience, we offer full creative support, including:

- ✦ Show creation and thematic development
- ✦ Script writing and storyboarding
- ✦ A/V, Set and Production Design
- ✦ Direction, Choreography and Staging

technical expertise & project build

Our extensive production knowledge ensures seamless project management from start to finish. We speak the language of creativity and technology fluently, providing the tools and structure needed for a flawless build.

- ✦ Showfile programming (QLAB)
- ✦ Scheduling, Budgeting & Logistics
- ✦ Audio, LX and Video Integration (Logic, Unreal Engine, Adobe Suite)
- ✦ Rehearsal Material Documentation

installation, execution & delivery

We oversee the complete realisation of each production, delivering a polished, ready-to-run show. Our meticulous hands-on manner ensures professional results and leads to a stress-free delivery every time.

- ◆ Onsite installation and setup
- ◆ Full show documentation and training support during handover
- ◆ Technical cueing and show calling
- ◆ Flexible, collaborative and solution-oriented service

our professional environments

cabaret, burlesque & nightlife

We create bold, high-impact entertainment for cabaret, burlesque and nightlife settings, where atmosphere, personality and audience connection are everything. From intimate club formats to large-scale late-night spectacles, we understand how to shape work that feels immersive, stylish and commercially strong.

cruise ships

We specialise in entertainment for cruise environments, with a clear understanding of the operational, technical and logistical demands of working at sea. Our concepts are built to be scalable, installable and sustainable, while still delivering the sense of spectacle, originality and guest engagement that modern cruise audiences expect.

**lectures, expos
& conventions**

We develop live moments that energise corporate events, launches, conferences and convention spaces. Whether the brief calls for theatrical flair, interactive entertainment or a striking visual centrepiece, we create work that supports your messaging while making the experience more memorable for your audience.

underwater

We are passionate about expanding the creative potential of underwater performance. By combining movement, breathwork, visual storytelling and specialist safety knowledge, we develop underwater work that feels both technically considered and artistically distinctive for film, live performance, photography and experiential projects.

our credentials

A performer with short, curly blonde hair is singing into a microphone on a stage. They are wearing a silver sequined, sleeveless dress and fishnet stockings. The stage is lit with blue and purple spotlights, and there are several circular stage lights visible in the background.

how we do it

We work internationally with a flexible and proactive approach that keeps communication clear across time zones. Every project begins with an initial consultation to understand the brief, define priorities and establish realistic milestones.

testimonials

David Wilson

Grammy Nominated Music Video and Commercials Director

“Their knowledge and prowess of how to put a show together blew me away. Taking my ideas and making them beyond expectations. I had complete trust and they made room for play and exploration at every step. Mind blowing!”

Nicole Huang

SVP of Fleet Experience, Virgin Voyages

“They always answer my requests from conception to implementation - lights, sound, video, script, costume, you name it and they got it! We are very lucky to have them as part of the Virgin Voyages' family.”

our partners & clients

We are proud to build long-term relationships with clients, collaborators and venues who value originality, professionalism and trust.
