

Patriot Signature Series DDR5 32GB (1 x 32GB) 7200MT/s CUDIMM Single

Patriot Memory is proud to be introducing the arrival of our first series of CUDIMMs, in the shape of our Patriot Signature Series DDR5 CUDIMMs! Made with the latest DDR5 technology, the CUDIMM, or Clocked Un-buffered Dual In-Line Memory Module, will take your PC to the next level. Designed to boost operating frequencies and improve stability, the Patriot Signature Series DDR5 CUDIMMs enhance the speed of your operating systems, while doing away with any errors, lost data, or system freezes.

The Patriot Signature Series DDR5 CUDIMMs are also designed to prevent overheating, with only 1.1V of power allowing it to emit less heat and consume less power, while still bringing you increased speeds. To further improve the accuracy of data-processing and system stability, these memory modules are also made with the latest on-die ECC technology to correct any system errors. The Patriot Signature Series DDR5 CUDIMMs have been tested across the latest Intel DDR5 platforms, ensuring they are ready to enhance your PC!
